Academic Standards

The standards referenced above aim to provide consistency in teacher education programs across the United States in terms of what EFL/ ESL/ FL (WL) teachers need to know and be able to do – that is, the knowledge, skills, and dispositions that are essential for the effective teaching of culturally and linguistically diverse students. Licensure courses are also aligned with **TESOL/NCATE Standards for the Accreditation of Initial Programs in P-12 ESL Teacher Education**, as well as with **INTASC (Interstate New Teacher Assessment and Support Consortium) Standards**, which represent those principles that should be present in all teaching environments, regardless of the subject or grade level, and serve as a framework for the systematic reform of teacher preparation and professional development programs. Evidence of the degree to which the standards have been met is compiled in a program participant's Professional Development Portfolio (refer to PDP Guidelines) throughout the licensure component of the program.

The ESL Standards for P-12 Teacher Education Programs were approved by the National Council for Accreditation of Teacher Education (NCATE) and the TESOL Board of Directors in October, 2002. They serve as a bridge to the general education standards expected of all students

in the United States. The can be found in: <http://www.tesol.org/assoc/p12standards/index.html> or <http://www.ncate.org/standard/programstds.htm>

COURSE REQUIREMENTS

EDUC 537 will meet on-line at: <http://courses.gmu.edu/>, weekly. As a community of online learners, it is incumbent upon each of us to participate regularly and complete weekly assignments (with weeks beginning on Thursday). Students will also be expected to complete fieldwork, to collaborate on group projects, and to undertake self-guided learning. The success of an online class is based largely on engagement and interaction among participants and collaborative learning. We are all teachers and we are all learners in this class. That means we all have a responsibility to share our perspectives and ask difficult questions, not just to demonstrate that we are participating, but also to contribute to our colleagues' learning process.

Graduate Grades

<http://jiju.gmu.edu/catalog/apolicies/gradstandards.html>

At George Mason University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. The University-wide system for grading graduate courses is as follows:

A+	100	
A	94-99	
A-	90-93	
B+	85-89	
B	80-84	
C	70-79	Does not meet licensure requirements or Level I award recommendation
F	0-69	Does not meet requirements of the Graduate School of Education
