## GEORGE MASON UNIVERSITY COLLEGE OF EDUCATION & HUMAN DEVELOPMENT EDUCATION LEADERSHIP PROGRAM

## EDLE 618 Section 001, Fall 2011 Supervision and Evaluation of Instruction

Instructor:	Michelle DeVoogt Van Lare				
Phone:	(703) 993-2887				
	(202) 413-6633				
Fax:	(703) 993-3643				
E-mail:	mvanlare@gmu.edu				
Office:	Rm 201, Commerce Building II				
<b>Office Hours:</b>	by appointment				
Website:	http://www.taskstream.com				
Address:	George Mason University 4400 University Dr., MSN 4C2				
	Fairfax, VA 22030-4444				

#### **Schedule Information**

Location:	Science Technology I 224

**Meeting times:** Thursday; 4:30pm – 7:30pm

## **Course Description: EDLE 618 Supervision and Evaluation of Instruction**

This course will provide a theoretical and practical overview of the supervision and evaluation of instruction. It introduces supervision and inquiry into current issues, and best practices in supervision. We will use practical, interactive exercises to develop skills in the clinical process and developmental approach to supervision.

## **Nature of Course Delivery**

Class sessions will consist of brief lectures, discussions, and role playing. We will utilize several videos for training/development as we observe classroom teachers at work. Students will benefit from and contribute to the learning experience to the extent that they are prepared and ready to participate in each class meeting.

## **General Goals**

#### Teaching and Learning

Each class will include a variety of activities and exercises. Out-of-class work will rely in part on the use of TaskStream, and on the use of web-based resources created to complement the primary text. Specific process goals for the class are as follows:

Program vision: The Education Leadership Program is dedicated to improving the quality of pre-K - 12 education through teaching, research, and service. Candidates and practicing administrators engage in course work devoted to experiential learning, professional growth opportunities, and doctoral research that informs practice. We educate exceptional leaders who act with integrity as they work to improve schools.

- 1. Classes will reflect a balance of activities that encourage high quality, ethical leadership. To promote an atmosphere that allows us to accomplish this, we will:
  - a. Start and end on time;
  - b. Maintain (flexibly) a written agenda reflecting objectives for each class;
  - c. Agree to disagree respectfully during class discussions;
  - d. Strive to be open to new ideas and perspectives; and
  - e. Listen actively to one another.
- 2. Student work will reflect what is expected from leaders. As such, students are expected to:
  - a. write papers that are well researched, proofread, submitted in a timely fashion, and conform to APA guidelines;
  - b. participate actively in class discussions in a manner that challenges the best thinking of the class; and
  - c. provide constructive feedback to others both on their ideas and on their written work, striving to learn from each other and to test each other's ideas.
- 3. We will endeavor to create a classroom climate that approximates what we know about learning organizations. As such, it is important that we create a space that allows participants to try out new ideas and voice opinions without fear of ridicule or embarrassment. The hallmark of a learning organization is a balance between openness and constructive feedback; hence, everyone is expected to:
  - a. come fully prepared to each class;
  - b. demonstrate appropriate respect for one another;
  - c. voice concerns and opinions about class process openly;
  - d. engage in genuine inquiry;
  - e. recognize and celebrate each other's ideas and accomplishments; and
  - f. show an awareness of each other's needs.

## National Standards and Virginia Competencies

This course addresses the following **ELCC Standards**:

ELCC Standards:

2.2.a- Candidates demonstrate the ability to facilitate activities that apply principles of effective instruction to improve instructional practices and curricular materials. 2.2.b- Candidates demonstrate the ability to make recommendations regarding the design, implementation, and evaluation of a curriculum that fully accommodates learners' diverse needs.

2.2.c- Candidates demonstrate the ability to use and promote technology and information systems to enrich curriculum and instruction, to monitor instructional practices and provide the staff the assistance needed for improvement.

2.3.a- Candidates demonstrate the ability to assist school personnel in understanding and applying best practices for student learning.

2.4.a- Candidates design and demonstrate an ability to implement well-planned, context-appropriate professional development programs

2.4.b- Candidates demonstrate the ability to use strategies such as observations, collaborative reflection, and adult learning strategies to form comprehensive professional growth plans with teachers and other school personnel.

VA DOE Competencies:

a.1- Knowledge and understanding of student growth and development, including applied learning and motivational theories

a.3- Knowledge and understanding....(above), including principles of effective instruction, measurement, evaluation and assessment strategies

a.5- Knowledge and understanding...(above), including the role of technology in promoting student learning

b.2 - Knowledge and understanding of systems and organizations, including information sources and processing, including data collection and data analysis strategies

b.5- Knowledge and understanding...(above), including effective communication, including consensus building and negotiation skills

# **Relationship of EDLE 618 to the Internship (EDLE 791)**

Although the internship is a separate course, the Education Leadership Program has integrated "embedded experiences" into course work. This means that some of the work in this class is related to your internship. You may write about embedded experiences (such as the Clinical Supervision project) in your internship journal and collective record, but they can only count over and above the minimum 320 hours required for the internship. The professional development project is another example of such an embedded experience.

# **Course Objectives**

## Required Reading

Glickman, C.D., Gordon, S.P. and Ross-Gordon, J.M. (2010). *Supervision and instructional leadership: A developmental approach* (8th edition), Boston, Ma: Allyn and Bacon

## Videos Utilized in Class

Another Set of Eyes-Techniques for Classroom Observation (1989 & 2005), ASCD Supervision Series

*Principals- Leaders and Learners- Demand content and instruction that ensure student achievement.* (2005) National Association of Elementary School Principals leadership series

Supervision in Practice(2000) featuring Susan Sullivan and Jeffrey Glanz, Corwin Press

Online access is vital to success in this course and is important if we experience school shutdowns because of the weather or other problems. All students are now required to activate and monitor their GMU e-mail accounts. If you are uncertain about how to do this, please see me. It is my expectation that you will be fully competent to send and receive e-mail messages with attachments. If your computer at school or home has spam blocking that will prevent you from seeing messages with attachments, you are responsible for addressing this problem immediately.

All students are required to use http://www.taskstream.com as a part of this course. This is an Internet site in which I will post vital information for the course. Samples of student work will be archived on this site for purposes of course, program and college assessment.

It is my expectation that all students have access to standard word processing software that can be read by Microsoft Office 2007.

## Course Requirements, Performance-based Assessment, and Evaluation Criteria

Consistent with expectations of a master's level course in the Education Leadership program, grading is based on student performance on written assignments, as well as on participation in various class activities. The assignments constructed for this course reflect a mix of skills associated with the application of leadership and organizational theory to educational contexts. Overall, written work will be assessed using the following broad criteria:

- 1. Application of concepts reflected in class discussion and readings;
- 2. Original thinking and persuasiveness;
- 3. Organization and writing—a clear, concise, and well-organized paper will earn a better grade.

Students' grades are based on their proficiency with respect to the student outcomes for the course. Below are the basic percentages for the various kinds of work required for the class, but students should always bear in mind that grading is primarily my judgment about your performance. Grades are designed to indicate your success in completing course work, not the level of effort you put into it. The overall weights of the various performances are as follows:

## Class participation—10 points

Students are expected to participate actively in class discussions, and in serving as critical friends to other students. **Attendance is expected for all classes.** If you must be absent, please notify me by e-mail or telephone. More than one absence will result in a reduction in participation points. Arriving at class late or leaving from class early may result in the loss of points.

There will be numerous opportunities for students to demonstrate initiative during EDLE 618. Some examples include: Volunteering to lead small group class time activities; Reporting out small group findings to the entire class; Verbally challenging others' assumptions during class discussions; Specifically citing and using previously learned materials; and Initiating discussion and student-to-student interaction.

#### Written assignments—70 points

Assignment #1: The Clinical Supervision Project (40 points)

Students will explain the clinical supervision process to their school principal, and solicit advice as to who might be observed for the purpose of this assignment. Using the overview described in the text, and the discussion, role plays and video observations conducted during class, students will apply the five phase model in an authentic classroom setting. A written report will complete this project, consisting of the following components:

1) Context---How was the teacher selected? Describe his/her level of expertise, commitment and development, per discussion in class.

2) Description of the five phases of clinical supervision--- Describe and defend the supervisory style that you selected and utilized.

a-Phase 1--- Include all required elements of a pre-observation conference

- b-Phase 2---Describe the classroom that you observed, generally discussing student and teacher behaviors, the length of your observation, and any challenges that you had with applying the observation methodology (ies) that you selected.
- c-Phase 3—Describe the data that you collected and specifically discuss the trends and patterns that were revealed ("analysis"). Then interpret the patterns and trends in terms of how they might help the teacher to improve his/her instructional practice ("interpretation"). And, finally, determine and defend the supervisory style that you will use in your phase 4 conference.
- d- Phase 4—Apply the supervisory style that you selected, and specifically discuss your interactions with your classroom teacher. You do not need to include a plan for improvement in your phase 4 writeup.
- e-Phase 5---Conduct the critique, specifically requesting teacher input as to how the previous four phases of the clinical process might be improved.

3) Comparison of the clinical model with the actual practice at your school---Compare and contrast the five phases of the clinical model with the observation model utilized in your school. Be specific as you review the five clinical phases---for example, in phase 1, is there a pre-observation conference in your school? Provide sufficient detail and reach a conclusion as to whether or not a formative (as opposed to summative) evaluation model is being employed in your school.

NOTE: This clinical supervision project is due no later than Oct 13, and may not exceed ten (10) double-spaced pages. You must include in an appendix a copy of the actual observation tools (for example, the categorical frequency chart, or the performance indicator checklist) that you selected and used for your observation. THE ACTUAL TOOL MUST BE SCANNED—NOT AN AFTER-THE-FACT SUMMARY OF WHAT YOU DID!!!

If you can defend the use of an open-ended narrative (global scan) tool and decide to use it, you must also include **one additional observation tool** for your project!

Assignment #2: The Professional Development Project (30 points)

Students will complete a professional development proposal, focusing on the essential elements of a pd plan. This proposal should be authentic in nature, providing your school with a research-based approach to providing growth opportunities for professional staff. Students will solicit buy-in from school leaders as they consider topics and options for this proposal.

There will be four required components for this project:

1) Context--- Briefly describe your school, and if relevant for your project, the department/grade level in which you work.

2) Needs Assessment, Analysis and Interpretation—Based on class discussions and text readings, determine and defend your selection and use of no fewer than two "ways of assessing need." Describe the assessments that you selected and your method of collecting data. Then identify patterns and trends ("analysis"), and reach conclusions as to what they mean ("interpretations"). Specifically connect your data-informed trends and interpretations to the professional development proposal that you develop in component 3 below. NOTE: During this component of this project, you will be engaged in assessing need. (authentic in which you are taking the lead, as opposed to describing how others in your school may have addressed need for a previous or current pd activity)

3) Prepare a professional development proposal that includes the essential elements of such plans (per class discussion). Be specific when addressing these essential elements, with emphasis on the proposed "learning activities." This proposal should be authentic in nature--something that could be used in your school. NOTE: It is not expected that you will implement the proposal that you develop during the semester that you are enrolled in EDLE 618.

4) Use the readings and class discussion to connect your proposal with the researchbased traits of effective professional development. For maximum credit under this component in the rubric, you should also discuss and connect the three phases of professional development (orientation, integration, and refinement) with your proposed professional development plan.

NOTE: This professional development project is due on May 5, 2011, and may not exceed nine (9) double-spaced pages. You must include in an appendix a copy of the data assessment methodologies/tools that you selected and used. (for example, if you used a "review of official documents, you should include one or two pages of such docs in your appendix. If you used a survey, include a copy of the blank survey in your appendix, etc).

Small Group Project--- Group Discussion Activity (20 points)

Students will work in small groups to plan and lead a discussion on topics that relate to the themes being addressed in class. A list of available topics is posted below, and will be reviewed at the first class meeting. The discussions will usually be conducted at the beginning of class, and will be no fewer than 60 minutes and no longer than 70 minutes in duration. Students may use the Glickman text to provide background information as they

prepare for this assignment. However, the text should not be relied on as the only or most utilized source of information. Professional journals (NASSP, NAESP, ASCD, PDK, etc.), official school records and documents, interviews with school leaders, local school forms and procedures, and other course texts may be used to inform the discussion. Successful completion of this activity will result in the engagement of classmates on the selected topic. A list of references most be presented to students and the instructor at the time of the presentation.

NOTE: Unlike some "presentations" to classes, the emphasis for this activity should be on the active involvement of classmates. It will be acceptable to devote some time to context---but even this part of the assignment should be done as interactively as possible. The vast majority of the available time should be devoted to guided small group activities in which everyone actively participates.

List of Topics---Spring 2011

1st- "Walkthrough observations"--- Students will lead a discussion in which classmates are exposed to and can practice a variety of walkthrough models. Emphasis should be placed on the espoused purposes of walkthroughs, as well as the actual/authentic procedures that are used by school administrators. It is highly recommended that the latest developments be reviewed and discussed, including the use of electronic devices to collect and analyze classroom data.

2nd- "*Value-Added Measures*"--- Students will research and lead a discussion on valueadded measures of teacher evaluation. Discussion leaders will investigate how local districts are using value-added measures as well as the current arguments around these methods.

3rd- "*Professional development*"--- Students will lead a discussion on pre-K 12 professional development. Emphasis will be placed on the research-based traits of effective pd, and how they connect with examples of professional development that the group selects and shares. The phases of professional development will be explored, including the work of Joyce and Showers.

4th- "*Data informed decision making*"--- Students will discuss current practices in their schools as to how data are informing the decision-making process. It would be helpful for discussion leaders to provide authentic examples of data sharing and utilization in local schools and for classmates to engage in reviewing, analyzing and interpreting data.

5th- "*Coaching*"--- Students will provide opportunities for classmates to engage in the discussion of the many models of coaching, as well as the diverse purposes for the role. Discussion should explore research on what we know coaching can do for schools, as well as the obstacles to effective coaching.

6th- "Action research"--- Students will share authentic examples of action research as it occurs today in local schools. Emphasis will be placed on the phases/steps of action

research, and on differences between action and traditional research. NOTE: To best exceed the minimum expectations regarding the required submission of a reference list at the completion of each discussion activity session, it is recommended that the group develop an annotated reference list as a user-friendly way to expose students to the resources that were selected and utilized.

#### Electronic Discussion (20% of class participation grade)

Students will participate in an electronic discussion in which they work within preassigned groups to explore three issues relating to the second major assignment for EDLE 618---the professional development project.

Forum/Issue#1—Which issues/topics are you considering for your pd project? How have you used data to determine the possible topics that you will address? Are your school administrators aware and supportive of any of your suggested topics? Discuss possible topics within your group, and consider pros and cons before deciding on one specific area of focus.

Forum/Issue#2- Which "ways of assessing need" (text and class discussion) might be most useful with the topic(s) that you are considering? Defend your choice of assessment within your group discussion, and consider alternatives that may be suggested.

Forum/Issue#3- What "traits of effective professional development" have been in evidence in your schools during its pd programs? Provide specific examples of the research-based traits (from class discussion and text), and describe how they have been observed and used.

For taskstream electronic discussions, you may introduce comments in one of two ways: 1) "create new topic"---when you are the first person to introduce a general idea or theme and 2) "post new reply"--- when you are adding to and/or building on others' comments. Use this option when you are asking a classmate to clarify or expand on something that he/she stated.

The pre-assigned groups will have the opportunity to discuss and determine the best time frame (within certain parameters provided by the instructor) within which they will be actively participating in the discussion. Once a decision is made and reported to the instructor, it will be expected that each member participates in and contributes to the discussion. Each student will be expected to initiate new discussion by occasionally "creating a new topic." It is expected that multiple comments by each student be posted within each of the three forums noted above. However, the nature of the comment is much more important than the frequency in which postings occur. Added value will be placed on comments that challenge others' assumptions and the status quo. Students should be able to defend their own comments, and be ready to reply to suggestions from classmates. Grading scale:

A+	=	100 points
А	=	95-99 points
A-	=	90-94 points
$\mathbf{B}+$	=	87-89 points
В	=	83-86 points
B-	=	80-82 points
С	=	75-79 points
F	=	below 75 points

# **College of Education and Human Development Statement of Expectations**

□Students are expected to exhibit professional behavior and dispositions.

http://cehd.gmu.edu/assets/docs/cehd/Dispositions%20for%20a%20Career%20Educator.pdf

- □Students must follow the guidelines of the University Honor Code. See http://academicintegrity.gmu.edu/honorcode/ for the full honor code
- □Students must agree to abide by the university policy for Responsible Use of Computing. See <u>http://mail.gmu.edu</u> and click on Responsible Use of Computing at the bottom of the screen.

Students with disabilities who seek accommodations in a course must be registered with the GMU Disability Resource Center (DRC) and inform the instructor, in writing, at the beginning of the semester. See <u>www.gmu.edu/student/drc</u> or call 703-993-2474 to access the DRC.

Sessi	Topics	Assignment Due
on	-

# **Class Participation - FALL 11**

				With Advancing Edu	cational Excellence
Levels/Criteria	exceeds expectations-4	meets expectations- 3	approaches expectations-2	below expectations-1	Score/Level
Attendance(20%)	Exemplary attendance (no absences, tardies or early dismissals)	Perfect attendance with one or two tardies or early dismissals	Occasional absences and/or tardies (1-2)	Frequent absences and/or tardies (3 or more)	
Quality of interaction; questions, comments, suggestions (20%)	Most queries are specific and on target. Deeply involved in whole class and group discussions	Often has specific queries, stays involved in class discussion	Asks questions about deadlines, procedures, directions. Little discussion about ideas or class topics	Rarely interacts with instructor or classmates in an appropriate manner	
Effort (20%)	Volunteers as appropriate and often leads in group settings. Engages and brings out the best in others	Willingly participates with instructor and classmates. Engages others	Reluctantly participates when asked (rarely volunteers) Seeks easiest duties in group work.	Actively avoids involvement when possible. Complains about others and uses excuses to explain deficiencies	
Demonstration that student is prepared for class (20%)	(see meets expectations) And is prepared for each and every class		Demonstrates readiness periodically	Is unable to demonstrate readiness for class through readings, other homework or by relating to previous discussion	
Electronic discussion (20%)	Actively participates in a timely manner to elec discussion, responding to others and initiating new ideas	discussion, responding to others	Engages with others without demonstrating commitment to helping group and individuals to respond to posted forums	Does not participate actively in the elec discussionfew entries with little thought	

# **Clinical Supervision Project-Spring 11**

	exceeds expectations-4	meets expectations-3	approaches expectations-2	below expectations-1
Introduction; selection of teacher and rationale (15%)	Description is thorough and includes elements that were discussed in class, and rationale is clear	Description and rationale are clear and concise	Description and rationale are incomplete or poorly constructed	Description of teacher and reason for selection are missing or wholly inadequate
Summary of phase one (pre- observation) of the clinical process (8%) ELCC 1.2.b	Summary addresses the pre-observation conference and clearly describes the application of the required elements The supervisory style is described in detail, as are the interactions between supervisor and teacher.	Summary addresses the phase one pre- observation conferencebut is lacking in detail.	Summary omits or fails to adequately address one or two of required elements.	Summary omits or fails to adequately address three or more required elements.
Summary of phase two (observation) of the clinical process (8%) ELCC 2.2.b	Summary describes the observation, the method,tool selected and used, and any unanticipated issues that were addressed by the observer. The total time spent for observation in the classroom is included.	Summary adequately addresses the phase two observationbut is lacking detail and explanation.	Summary fails to adequately address phase two, omitting essential information (time, tool, issues)	Summary omits or fails to adequately address any of the elements of a phase two observation.
Summary of phase three (A&I) of the clinical process (8%) ELCC 2.2.c	Summary includes the required elements, with appropriate attention placed on both analysis and interpretation. The determination of supervisory style, if not previously discussed, is addressed. The analysis component includes charts, tables and/or graphs to display results.	Summary provides appropriate attention to phase three, but is lacking in detail.	Summary omits or fails to address one of the three required elements.	Summary omits or fails to address two or more of the three required elements.
Summary of phase four (post-observ conf) of the clinical process (8%) ELCC 2.3.a	Summary describes in detail the supervisory style and interactions between supervisor and teacher. Specific examples are included of teacher and observer comments and/or	Summary provides appropriate attention to phase four, but is lacking in detail.	Summary is incomplete, failing to capture the interactions between observer and teacher.	Summary fails to address the supervisory style utilized, and omits description of the observation.

	reactions.			
Summary of phase five (critique) of the clinical process (8%)		Summary describes the critique, but without detail.	Summary is incomplete, lacking in detail and without reference to teacher comments and reactions.	The critique is omitted, or is completed as a self analysis (without teacher feedback).
Comparison of the clinical process with local school system's process (30%)	Comparison is thorough and provides detail regarding the practices used in the local system. Each of the five clinical phases is addressed (compared and contrasted).	Comparison includes some description contrasting the five clinical phases with local practice.	Comparison does not adequately contrast local school process with clinical supervisionphase by phase review is incomplete	Comparison is omitted or is superficial
Observation tool (10%)	The actual observation tool (as completed) is provided and described, and its selection is described and defended	Tool for observation is provided and described	Tool is included but is not described or defended.	Tool is not provided as required
Mechanics (5%)	Completed without errors	Nearly error-free which reflects clear understanding and thorough proofreading	Occasional errors in grammar and punctuation	Frequent errors in spelling, grammar and punctuation

**Discussion Leader Activity-Spring 11** 

				<ol> <li>Annual and the state of the sta</li></ol>	CONTRACT EXCELEMENTER
Levels/Criteria	exceeds expectations-4	meets expectations- 3	approaches expectations-2	below expectations- 1	Score/Level

Length of Activity (25%)	A 60 minute activity	Between 50 and 70 minutes in duration	More than 15 minutes short or long	Misses target by more than 20 minutes	
Extent of engagement by class (25%)	(see meets expectations)and at least 50% participated on more than one occasion during the time allotted	All classmates were on task and participated	Approximately 50% of classmates were engaged and participated in activities and/or discussion	Topic was "delivered." Little/no engagement by classmates	
Use of literature and research (20%)	(see meets expectations)and sources are cited and provided for follow- up work by students	timely	Literature is cited and used, but text is over-emphasized	No demonstration of the use of out-of-text sources	
Participation by each member of activity group (15%)	(see meets expectations)and did so enthusiastically, involving classmates in an appropriate manner	All activity group members participated in a shared manner	All participated, but the load for leading the discussion and engaging classmates was uneven	whether or not all members	
List of references (15%)	(see meets expectations)and referred to during the discussion, providing user- friendly connections for classmates	Submitted at time of discussion	Submitted, but incomplete with errors and/or omissions	Not submitted at time of discussion	

EDLE 618 Professional Development Project- Fall 11				tream	
Levels/Criteria	exceeds expectations-4	meets expectations- 3	approaches expectations-2	below expectations- 1	Score/Level
Introduction;	The introduction	The introduction	An attempt to	The context is	

provides context related to school and stakeholders (10%)	includes a detailed context and identifies the roles of stakeholders	provides an appropriate context and identifies stakeholders	provide context is incomplete and/or inadequate	omitted or superficial	
Needs assessment (20%) ELCC 2.2.a	Needs assessment described in detail, with rationale provided for its selection. Description includes the type of assessment, its application, and any challenges/issues that occurred.	Needs assessment administered and described	Evidence provided that needs assessment was administered, with superficial description	No evidence of a needs assessment being used	
Analysis and interpretation of data (20%)	Data collected and clearly analyzed, identifying trends and patterns that are described and connected to the pd proposal	Data collected and clearly analyzed, identifying trends and patterns	Data collected but analysis is inadequate	Data not collected or analyzed	
The professional development proposal (25%) ELCC 2.4 b	Proposal addresses all of the essential elements in powerful detail	Proposal clearly describes the essential elements	Proposal is inadequate, failing to address several of the essential elements	Proposal not submitted with paper, or submitted without any of the essential elements	
Connections to best practices and research (20%) ELCC 2.4.a	research and best practice are clearly	Connections to research and best practice are clearly stated and described.	Connections to research are unclear and/or superficial	No attempt is made to state and describe evidence of connections with research.	
Mechanics (5%)	Completed without error	A few minor errors, not detracting from the proposal	Errors in grammar, construction and spelling detract from the proposal	Frequent errors in grammar, construction and spelling
