Course Description:

Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances.

Prerequisite(s): Admission to applied behavior analysis graduate certificate program.

Advising Contact Information:

Please make sure that you are being advised on a regular basis as to your status and progress through your program. For assistance contact the Special Education Advising Office at (703)993-3145.

Nature of Course Delivery:

Learning activities include the following:

1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments

4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

Learner Outcomes:

Upon completion of this course, students will:

- Describe educational, experiential, degree, and examination requirements for Behavior Analyst Certification.
- Define, describe, and identify basic philosophical assumptions of applied behavior analysis.
- Define, describe, and identify basic characteristics of applied behavior analysis.
- Define, describe, and identify respondent behavior and respondent conditioning.
- Define, describe, and identify operant behavior and operant conditioning.
- Define, describe, and exemplify operant and respondent principles.
- Define, describe, and exemplify operant and respondent procedures.
- Describe, identify, and exemplify behavior analytic teaching procedures.
- Describe and identify factors affecting behavioral variables.

Required Textbooks:

Cooper, J.O., Heron, T.E., & Heward, W.L. (2007). *Applied behavior analysis (2nd Ed.)*. Upper Saddle River, New Jersey: Pearson Prentice Hall.
Skinner, B.F. (1974). About behaviorism. New York, NY: Knopf.

Recommended Textbooks:

None. However, if you wish to complete the extra optional, extra credit portion of the course, you will need to purchase a subscription to the BCBA Examination Study software, available through Behavior Development Solutions at <http://www.behaviordevelopmentsolutions.com/>.

Required Materials:

You will need to go to the Behavior Analyst Certification Board website (www.bacb.com), and download the **Task List** and the **Guidelines for Responsible Conduct**. We will refer to these documents throughout this course and all others in this Certificate Program.

Additional Readings:

None

Course's Relationship to Program Goals and Professional Organizations:

This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for Applied Behavior Analysis Graduate Certificate. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization. The CEC Standards are listed on the following website:

<http://www.cec.sped.org/Content/NavigationMenu/ProfessionalDevelopment/ProfessionalStandards/> . The content of the courses in this program is derived from the Task List published by the national Behavior Analyst Certification Board (BACB) as well as the Board's Guidelines for Responsible Conduct. The BACB Standards are listed on the following website: For more information on the Board and the examination, please visit the Board's website at www.bacb.com. The CEC standard that will be addressed in this class is Standard 4: Instructional Strategies. *NOTE: NCATE Assessments (in many but not all courses) may address additional CEC and/or BACB standards.

Policies (Attendance and Late Work Policies):

Attendance Policy: Students may not reschedule missed Synchronous Discussion or Research Profile presentation without approval from their professor that is requested at least 24 hours in advance of the scheduled Discussion or Profile presentation.

Late Work Policy: Given the possibility of computer or internet difficulties some students may experience from time to time, students must consider and identify alternative availability of computers and internet access (e.g., public libraries, their employer (if permissible by the employer), internet cafes, etc.) within the first week of this course to ensure that they will be able to complete their assignments in a timely manner.

Students are strongly encouraged to complete all assignments during the weeks they first become available in order to keep up with the course. No work may be edited or submitted after 14 December 2012 at midnight, US Eastern Time.

Students may not reschedule missed Synchronous Discussion or Research Profile presentation without approval from their professor that is requested at least 24 hours in advance of the scheduled Discussion or Profile presentation.

The Final Exam is available only between midnight on 7 December 2012 and midnight on 14 December 2012, both US Eastern Time. Students will not have access to this exam before or after those times.

Grading Scale:

A = 352 - 371 points

A- = 334 - 351 points

B = 296 – 333 points

C = 260 - 295 points

F < 260 points

Schedule:

The types of assignments that appear in the schedule below are described as follows:

BLACKBOARD. Your syllabus, quizzes, discussion board assignments, and other important information and events are available to you through Blackboard. Please access Blackboard through MasonLive. The syllabus is posted under Syllabus, and other documents will be posted in the weekly folders throughout the course. The Discussion Board Forums to which you'll respond appear under Discussions. You'll take your quizzes through Blackboard, and they're under Assessments. Instructor contact information is at Staff Information. Finally, there are many valuable links at External Links.

COURSE REQUIREMENTS, PERFORMANCE BASED ASSESSMENT, AND EVALUATION CRITERIA

Requirements, Performance Based Assessments, and Criteria for Evaluation

Blackboard Discussion Board Items. For weeks indicated below, and in conjunction with readings from *About Behaviorism*, you will respond to the week's two Discussion Board Items. To respond, first do the assigned reading from *About Behaviorism*. Then, go to the Discussion Board Items for that week. Read the question, read the responses posted by your classmates, and either respond directly to the question posed by your instructor, or to content posted by your classmates. Posts must be made during the week for which they assigned. You will earn 2 points for each Item completed.

Quizzes. There are 134 quiz questions embedded into the lecture presentations you will view as part of this course. Most of the presentation segments end with one to seven quiz questions. You will receive 1 point for each correct quiz response. Missed quiz items may be repeated, but you must watch again the presentation segment of which that quiz question is a part to answer it a second time.

Online Flashcards. *These are available through the Anki tab on this course's blackboard site.* You will be assigned one or two sets of flash cards during most weeks. You are strongly encouraged to complete these assignments to mastery – responding correctly on each card in the deck in 30 seconds or less per deck (and, the faster, the better). These assignments will help you build fluency with some basic vocabulary and concepts that you will encounter throughout the Applied Behavior Analysis courses at George Mason University, and throughout your career as a Behavior Analyst. Fluent behavior

(e.g., behavior that is correct, quickly – almost automatically) is generally more durable, likely to generalize, and likely to persist in the face of distraction than non-fluent behavior. Please practice every deck, as assigned, several times each day, until you are regularly completing each deck with 100% accuracy in fewer than 30 seconds. (Even shorter timings are better!)

Synchronous Discussions. You will participate in five synchronous (live) discussions as specified on the first page of this syllabus. You will earn 5 points for participating in each discussion. (Please note, though, that participation points are contingent on speaking and contributing to the discussion – not solely on the basis of attendance.) You may not make up missed synchronous discussion points due to attendance without participation, or due to absence.

Module Tests. Modules 2 through 8 each end with a 15 multiple choice item Module Test. Test questions are based on content of your Cooper, Heron, and Heward text and on the content of the Module presentations. Please complete these tests only after completing the other portions of each respective module. Missed module test items may be retaken, but to do so, you must review your guided notes and text, and review the module presentations. Each module test item is worth one point toward your final grade.

Research Profile. This assignment will: 1) provide you experience using PsychInfo to conduct literature searches; 2) acquaint students with GMU library resources; 3) provide individual students with exposure to the behavior analytic literature; and 4) provide exposure to behavior analysis as a transcendent discipline and practice to the class. To do this assignment:

1. You will be randomly assigned an author from the list below:

Timothy R. Vollmer	Beth Sulzer-Azaroff	Gina Green	Sigrid Glenn	Kathryn J. Saunders
Kennon A. Lattal	Linda J. Hayes	Alan Poling	Michael J. Dougher	Gerald L. Shook
Mark Sundberg	Judith E. Favell	Raymond G. Miltenberger	Donald Baer	Johnny Matson
Thomas S. Critchfield	Beatrice Barrett	Jon S. Bailey	Deromt Holmes-Barnes	Aubrey C. Daniels
Julie S. Vargas	R. Douglas Greer	Timothy D. Hackenberg	Lawrence E. Fraley	Dennis H. Reid
Glen Dunlap	Louis Burgio	Jay Moore	Paul Touchette	Murray Sidman

2. Once you have an author assignment, do a PsychInfo search for articles, chapters, and books written by the author. Conduct the list such that you not only get the references for the author's work, but also the abstracts.
3. Print the outcome of the search.
4. Read the abstracts.
5. Obtain several of the articles, chapters, or books from the library, or through interlibrary lending. Read them.

6. Prepare a report in which you:
 - a. Identify the type of work the author has done, and the populations considered.
 - b. Describe three notable themes you found in the author's work.
 - c. Discuss possible applications of the authors work to other populations or problems.
 - d. Cite the articles, chapters, and/or books you read in preparing your report (using APA Sixth Edition style).
7. Deliver your report in 5 minutes or less, leaving 2 minutes for questions or comments afterward, during one of the class sessions so indicated on the class schedule.

Your written report will receive up to 15 points for accurately describing salient themes in your author's work, and up to 5 points for good composition (including correct spelling, grammar, punctuation, and syntax; and for adhering to APA style). Your presentation will earn up to 5 points for accurately describing and citing salient themes in your author's work without reading the paper to the class, correct pronunciation, and addressing others' questions and comments.

Final Examination. You will take a 50 multiple choice item final exam online. This final exam, in Module 10, will become available to you at midnight US Eastern Time on Friday 30 November 2012, and will close at midnight US Eastern Time on Friday 14 December 2012. You must complete this exam during this period of time. Once you open this exam, you must complete it – you may not close it and reopen it. You will have only one opportunity to complete this exam. You will earn 1 point toward your final grade for each correct response. You will also take this examination on your first night of class as a pretest. Using the exam in this way permits the instructor an evaluation of the extent to which the course objectives of were met. It also removes any mystery, for the students, as to what constitutes the final exam. You'll receive feedback on your pretest performance during the second or third class session, including a breakdown of percentage correct by content area. Your final exam is your *NCATE Assessment Assignment*. After completing the exam, you'll receive a feedback form by e-mail which you will be required to then submit electronically to Taskstream. Once the feedback form's been submitted, it will be rated according to the following rubric with regard to the extent to which you've mastered the material as it pertains to the CEC's Standard 4 (Instructional Strategies):

Does not meet expectations	Meets expectations	Exceeds expectations
Earns a score of less than 35 correct on the final examination	Earns a score between 35 and 49 correct on the final examination	Earns a score of 50 of 50 on the final examination

NOTE: *Every student registered for any EDSE course with an NCATE assessment is required to submit this assessment to TASKSTREAM (regardless of whether the course is an elective, a one time course, or part of an undergraduate minor). Taskstream information is available at <http://gse.gmu.edu/programs/sped>. Failure to submit the assessment to TASKSTREAM will result in the course instructor reporting the course grade as Incomplete (IN). Unless this grade is changed upon completion of*

the required TASKSTREAM submission, the IN will convert to an F nine weeks into the following semester.

Given these assignments, the distribution of total possible points per assignment type, and grading scale, are as follows:

Assignment Type	Points Possible per Instance	Number of Instances	Total Points Possible	Cumulative Points Possible
Discussion Board Items	2 points per DBI	16 DBIs	32 points	32 points
Embedded Module Quizzes	1 point per question	134 questions	134 points	166 points
Module Tests	15 points per test	7 Tests	105 points	271 points
Synchronous Discussions	5 points per Discussion	5 Discussions	25 points	296 points
Research Profile Paper	20 points per paper	1 paper	20 points	316 points
Research Profile Presentation	5 points per presentation	1 presentation	5 points	321 points
Final Exam	50 per Test	1 Test	50 points	371 points

A = 352 - 371 points A- = 334 - 351 points B = 296 – 333 points C = 260 - 295 points

F < 260 points

Extra Credit. Completing the following Behavior Development Solutions modules:

- ❖ Definitions and Characteristics
- ❖ Principles, Procedures, and Concepts

and e-mailing the certificates of completion for the module(s) to your instructor no later than midnight US Eastern Time on 27 July 2012 will earn 10 points of extra credit per certificate submitted. Information on purchasing a subscription to the Behavior Development Solutions Behavior Analyst Certification Exam study software can be found at www.behaviordevelopmentsolutions.com.

Additionally, one may go to the Autism Internet Modules at www.autisminternetmodules.org. Once there, create an account. (This is free of charge.)

Completing the following modules:

- Differential Reinforcement
- Extinction
- Prompting
- Reinforcement

and e-mailing the certificates of completion for each module completed to your instructor no later than midnight, US Eastern Time on 19 November 2012 will earn 5 points of extra credit per certificate submitted.
