COURSE PROCESS, ASSIGNMENTS, AND EXAMINATIONS

Course process and structure:

Seminar-style class discussions, group supervision, & triadic supervision. Class discussions will include brief didactic presentations on relevant and emerging topics for the practicum students, and will include time for group discussion. Group supervision will focus on providing students a opportunity to present, discuss, and conceptualize, and receive feedback on current cases and issues at their practicum setting. Students will have opportunities to discuss specific site-related issues and to strategize about techniques and interventions. Triadic supervision will occur between instructor/supervisor and two students, with supervisees taking turns sharing a taped counseling interaction with a student/client. Because of the serious nature of this work, it is essential that students discuss their reactions and feelings. Such discussions, however, cannot take place outside the context of a supervised class or appropriate site circumstance. Students may not discuss cases in other classes, with friends or relatives, or in social situations. It is essential to maintain confidentiality. Violations of this principle in any form will be treated as a serious ethical/legal infraction. Please do not discuss cases in class. That is the primary purpose for meeting. It is also imperative that students discuss cases with their on-site supervisor. If students have questions or concerns that need immediate attention, please contact your university instructor.

a) Successful compliance with all requirements listed above (General, Site, and Class requirements)

b) Participation

As a class that focuses on learning from practical experiences of the students, this class places a heavy emphasis on processing of information through class discussion, small group discussion, and participating in experiential activities. Therefore thoughtful, additive participation (beyond just attendance) both in group meetings and in triadic supervision is a requirement for passing this course.

c) Cover Letter

Students will write a cover letter applying for a job as a professional school counselor. Students will provide and receive feedback from other class members on their letters.

d) Introductory Letter

In anticipation of your new job, students will each write a letter to use at a new school, to serve as an introduction to your new school community (Students, faculty, administration, and/or parents)

e) Two student presentations (with recordings)

Students will present at least two individual counseling sessions with students. At least one counseling session will be presented in the larger group, and the other will be presented during triadic supervision. **Written custodial or parental permission must be obtained before recording counseling sessions.** Permission forms should be kept on file with the Site Supervisor, and students should keep a copy for her/his records.

f) Professional Portfolio

Students will complete a professional electronic portfolio, which they will use as a portfolio of professional experiences during the job application and interview process. The portfolio should be an evolving record that authenticates the students knowledge, skills, experiences, and growth as a professional school counselor and educator. Portfolios are expected to have some basic content (Some Introductory Statement, such as Mission, Vision, Philosophy, etc.; Links to relevant course syllabi, links to class artifacts demonstrating students' knowledge and skills) as well as be able to communicate something about the person and the

professional. Keep in mind that this is part of your interview process, so think about how you want to express yourself and represent yourself.

g) School Counseling Curriculum/Small Group Action Plan and Results Report

Using the ASCA National Model (3rd ed) as a guide, students will develop an action plan for either a school counseling curriculum unit or a small group experience. Students may collaborate with their supervisor or other educators in developing the Unit or group, but the project should be the intern's primary responsibility. Students will collect data on the Unit or small group, and complete a Results Report (ASCA National Model, 3rd ed) to analyze the program's effectiveness and make suggestions for future implementation of the program.

TASKSTREAM REQUIREMENTS

Every student registered for any C&D course with a required performance-based assessment is required to submit this assessment, *School Counseling Curriculum or Small Group Results Report*, to TaskStream. Evaluation of the performance-based assessment by the course instructor will also be completed in TaskStream.
