Student Outcomes:

At the conclusion of this course, students should be able to:

1. Demonstrate a detailed and sophisticated understanding of major policy issues in teacher education and development.
2. Analyze and describe the legal, political, and social forces that influence decision making on these issues.

Course Requirements:

- Students are expected to attend all classes. Please provide advance notice, when possible, if you must miss a class. On these occasions, please get notes and any handouts from a colleague.
- Students are expected to read all assignments prior to class and bring copies (either hard or electronic copy) to class.
- Students are expected to actively participate in class discussions and activities and to treat one another with respect.
- Students are expected to submit all assignment on time, unless prior arrangements are made:

1. Response Essay: Students will submit a brief response essay (5-7 pages) that puts the assigned readings into conversation with a pertinent, real-life case (either a policy or event). How does the case relate to the research? How might one be informed by the other? What might policymakers have to say to researchers, and vice versa? What new questions might emerge from this fusion? (15pts)

2. Article Summary and Analysis Essay: Select one article focused on a teacher policy relevant topic from a peer reviewed journal (excluding any required readings). Briefly summarize the article (one page, maximum) and offer a critique (three to four pages). You may analyze the policy implications of the research, consider how the work pertains to other existing scholarship, or think about how the findings might generate new research questions. (15pts)

4. Licensure/Certification Presentation: Students will select a state other than Virginia and provide an overview and analysis of how one becomes a teacher focusing on requirements, pathways and reciprocity. Students will present their findings during an on-line hybrid session. (10pts)

4. Policy Proposal and Bibliography: In a brief essay (4-6 pages), identify a *specific* teacher policy of interest. Where does this policy play out (local, state,

federal level)? Who does it impact, and who are the key stakeholders? Who created it and why? What debates and tensions surround or inform this policy? What does the scholarship tell us about this issue or related issues? Identify at least **6** scholarly, peer-reviewed sources (original research) that pertain to the general policy in a bibliography formatted according to APA guidelines. Students may select any policy pertaining to teachers that is of interest. In addition to the topics listed on the syllabus, others to consider include: Teacher Leadership, Professional Learning Communities, Tenure Practices and National Board Certification. (10pts)

6. Policy Memorandum: Students will write a memorandum to a decision maker of their choosing. The memorandum should (1) identify the decision maker by role (i.e. governor, chief state school officer etc.); (2) in one page or less describe a policy problem associated with teacher recruitment, preparation, licensure, evaluation, or professional development; (3) describe a research agenda that would help deal with that problem; and (4) provide a rationale for policy options to address the problem that stem from your proposed research. The paper may not be more than FIVE pages long. We will have an in-class writing workshop. (25 pts)

6. Poster Session Presentation: During the last two classes student will present their final papers in a poster format, following AERA guidelines (to be distributed). Students will outline the specific policy issue, the state of current scholarship surrounding the topic and the gaps or tensions between the two. Students should devote the majority of their presentation to their proposed research project. Students will highlight site selection, evidence, methodologies and framing questions. Students will call particular attention to the ways in which this proposed research contributes to current scholarship and potential policy outcomes. (10pts)

7. On-Line Participation and Contributions: Several times over the course of the semester, class will be held in a hybrid format on-line. The success of these sessions will depend on your active participation. Though the various sessions will vary, in each case you will be asked to respond to different prompts, primary sources, video lectures, and/or readings. At times, you will also present brief presentations. I expect students to engage with peers in the on-line setting, posing questions, answers and responding to one another. We will discuss these sessions in more detail during our first session and throughout the semester. (15 pts)

Evaluation:

An evaluation rubric for this class is attached to this syllabus. All papers must be typed and formatted according to the *APA Manual of Style, 6th Ed.*

Grading Scale:

A = 96-100	B = 80-88
A- = 92-95	C = 75-79
B+ = 89-91	F = 74 and below
