EXPECTATIONS:

- **Course Week:** Refer to the asynchronous bullet below if your course is asynchronous or the synchronous bullet if your course is synchronous.
 - **Asynchronous:** Because online courses do not have a “fixed” meeting day, our week will **start** on Sunday and **finish** on Saturday. Learning modules are set up as indirect activities and may be included as part of your supervision plan. Please connect with your supervisor to devise a supervision program based on learning objectives.
 - **Synchronous:** Supervision sessions are scheduled on site at the practicum site unless arrangements are made with your supervisor. Synchronous sessions may be scheduled as group supervision time.
- **Log-in Frequency:** Refer to the asynchronous bullet below if your course is asynchronous or the synchronous bullet if your course is synchronous.
 - **Asynchronous:** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, at a minimum this should be 2 times per week.
 - **Synchronous:** Students must log-in for all scheduled online synchronous meetings. In addition, students must actively check the course Blackboard site and their GMU email for communications from the instructor, at a minimum this should be 2 times per week.

- **Technical Issues:** Students should expect that they could experience some technical difficulties at some point in the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:** Expect to log in to this course **at least three times a week** to read announcements, participate in the discussions, and work on course materials. Remember, this course is **not** self-paced. There are **specific deadlines** and **due dates** listed in the **CLASS SCHEDULE** section of this syllabus to which you are expected to adhere. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

Netiquette: Our goal is to be **collaborative**, not combative. Experience shows that even an innocent remark in the online environment can be misconstrued. I suggest that you always re-read

your responses carefully before you post them to encourage others from taking them as personal attacks. **Be positive in your approach to others and diplomatic with your words.** I will do the same. Remember, you are not competing with each other but sharing information and learning from one another as well as from the instructor.

Tk20 Performance-Based Assessment Submission Requirement

Every student registered for any Special Education course with a required performance-based assessment is required to submit the (*NO ASSESSMENT REQUIRED FOR THIS COURSE*) to Tk20 through Blackboard (regardless of whether the student is taking the course as an elective, a onetime course or as part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in Tk20 through Blackboard. Failure to submit the assessment to Tk20 (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required Tk20 submission, the IN will convert to an F nine weeks into the following semester.

Students will submit initial and final documents to Blackboard. Initial documents include a practicum supervision contract, Confidentiality policy and Declaration of Professional Practice. A school-based setting may require additional consent forms such as authorization to disclose and/or audio/video consent. End of semester documents includes a summary Experience Verification form as well as each supervision form for the week.

Grading Scale

Practicum is graded on a Pass / Fail system. To obtain a passing grade, the following tasks and performances must be met:

Students are encouraged to maintain a Practicum Binder which sections of the Task List and supporting evidence of work.

Other Assignments.

Students are highly encouraged to complete a practicum project that includes a behavior change component. The focus of the project is for the practicum student to acquire new behavior-analytic skills. - Conducting assessments related to the need for behavioral interventions
- Demonstration of a behavior change process
- Design, implementation, and evaluation of a skill-acquisition program
- Design, implementation, and evaluation of a training program
