Human Development and Family Science

HDFS 498 (001) - Internship and Analysis in HDFS 3 Credits, Fall 2016

Faculty

Name: Bethany Letiecq, PhD

Office hours: By appointment
Office location: Thompson 1101
Office phone: 703-993-5076
Email address: bletiecq@gmu.edu

Prerequisites/Corequisites

HDFS 300

University Catalog Course Description

First course in a two-course series that supports students in their internship and in transitioning from student to professional. Enables students to discuss work-related experiences within the context of developmental and family theories and research. Fosters and promotes professional development through class and small group discussions, activities, lectures, guest speakers, and practical assignments.

Course Overview

See the *Handbook for Internships in HDFS* following this syllabus for internship procedures, policies, requirements, and evaluations.

Course Delivery Method

This course will be delivered using an internship format.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

- 1) Gain practical field experience and apply learned knowledge, skills, and abilities in an HDFS setting.
- 2) Prepare students for post-baccalaureate opportunities to include gainful employment or graduate study in an HDFS-related field.
- 3) Provide an opportunity for students to build their resumes and develop their career pathways.

Professional Standards

Upon completion of this course, students will have met the following professional standards: Not Applicable.

Internship Training Manual Updated 4/27/2015

Required Texts

The Handbook for Internships in Human Development and Family Science – attached at the end of the syllabus.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

• Assignments and Examinations

See Handbook

• Other Requirements

See Handbook

• Course Performance Evaluation Weighting

See Handbook

• Grading Policies

97-100	A+	87-89	B+	77-79	C+	60-69	D	Below 60	F
93-96	A	83-86	В	73-76	C				
90-92	A-	80-82	B-	70-72	C-				

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see http://oai.gmu.edu/the-mason-honor-code/).
- Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.

- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/api/tk20. Questions or concerns regarding use of Blackboard should be directed to https://coursessupport.gmu.edu/.
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (see http://writingcenter.gmu.edu/).
- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance (see http://caps.gmu.edu/).
- The George Mason University Office of Student Support staff helps students negotiate life situations by connecting them with appropriate campus and off-campus resources. Students in need of these services may contact the office by phone (703-993-5376). Concerned students, faculty and staff may also make a referral to express concern for the safety or well-being of a Mason student or the community by going to http://studentsupport.gmu.edu/, and the OSS staff will follow up with the student.

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/.

Class Schedule

Not applicable.

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Assessment Rubric(s)

This manual was made possible by the generous sharing by faculty at the following colleges and universities:

Montana State University

East Stroudsburg University

James Madison University

Mesa Community College, Mesa, Arizona

New Mexico State University

San Diego State University

The University of North Carolina at Chapel Hill

The University of Northern Colorado

The University of Wisconsin at Stevens Point

Western Kentucky University

The William Paterson College of New Jersey

1. Introduction

The Human Development and Family Science program (HDFS) is committed to the preparation of students who will be able to effectively assume professional roles in HDFS fields. This cooperative experience is called internship or fieldwork. The internship component of the Human Development and Family Science (HDFS) program is considered to be one of the critical elements in the undergraduate program and is required of all students. It is the bridge between the academic present and the professional future. It is hoped that the internship experience will be equally beneficial to the community, the agency, and to the individual student involved with that agency.

An effective internship does not happen by chance, but rather, is the product of careful planning and implementation. If an effective collaborative effort is to be established and maintained, there should be a commitment to the concept of field training on the part of community service agencies, students, and faculty.

This internship training manual has been developed to serve as a reference for students, agency personnel, and HDFS faculty on the concept and activities associated with the field experience, in the hope of helping to establish mutually appropriate goals and expectations of the internship experience.

The manual includes the policies, guidelines, and procedures for the internship training experience.

2. Policies

Requirements:

Two 3 credit-hour internship experiences (totaling 6 credits) in an approved organization are required of all students in the HDFS program. Students must successfully complete an internship experience of 270 hours total under the joint supervision of the faculty advisor and the approved Preceptor in the work setting. Students fulfilling the internship requirement must register for HDFS 498 (3 credits minimum) and HDFS 499 (3 credits). Students can create two internship experiences or opt to complete all 6 credits within one organization. All experiences must be approved by an HDFS faculty member.

Schedule:

The internship is normally scheduled to take place during the last semester (or last two semesters) of senior year, which may include fall, spring, and/or summer (before or after senior year).

Individuals involved in the internship experience include:

Student: An undergraduate student in HDFS. HDFS majors must complete the 6-credit internship; however, HDFS minors can enroll in HDFS 498 (up to 6 credits).

Faculty Advisor: Faculty member affiliated with HDFS who advises, supervises, and is responsible for the student's internship grade.

Community Preceptor: The agency professional with whom the student works and to whom the student is responsible while participating in the field experience. The preceptor supervises the student during the internship process and submits a written evaluation of the student's performance to the faculty advisor.

Procedure for Selection of Field Site:

In consultation with one's faculty advisor, the student should make plans for the selection of an appropriate internship site one or two semesters prior to the proposed time of the internship. The decision on the specific field site should be based upon meeting responsibilities and competencies for entry-level HDFS graduates (see Appendix A), quality of program, and interest as well as availability of staff.

Potential Sites Include:

- Agencies (e.g. an agency who delivers Family Services)
- Mental Health Centers
- Early Childhood Care and Education settings

- County Health Departments or Clinics serving families
- Senior living or Rehab Centers
- Hospitals (e.g., Child Life Specialists)
- Local School Systems
- Social Service Departments
- Private/Public Volunteer Agencies
- Or other sites with a family-based focus

Evaluation/Grading of Internship:

Evaluation of the internship experience is considered a crucial component of the internship process. It provides an opportunity for the student, faculty advisor, and preceptor to assess their respective roles in the process and also provides opportunity for recommending any necessary changes in the internship experience. Evaluation forms are provided in this manual.

The faculty advisor is responsible for grading the student at the completion of the internship experience. HDFS 498 (3 credits) and HDFS 499 (3 credits) are graded as pass/fail based on:

- 1) The evaluation completed by the community preceptor on the student's performance in the internship.
- 2) The student's self-evaluation.
- 3) The special project completed under the direction of the community preceptor.
- 4) A written internship report, prepared by the student.
- 5) Attendance at bi-weekly or monthly course meetings (as set by faculty advisor) and completion and quality of assignments.

Internship Expenses and Financial Assistance:

Students are responsible for expenses incurred during internship except as agreed upon in advance between student and field placement agency.

Liability Statement:

The University assumes no responsibility for the student's personal liability. Agencies normally have liability insurance plans covering both staff and clients. Internship students should inquire of the agency whether liability insurance is carried or required and, if so, who is covered. **Students are responsible for making arrangements for their insurance.**

While accidents and lawsuits are rare, no one is immune to liability suits. All interns are

held personally accountable for their acts. Therefore, internship students are advised to become knowledgeable about legal liability.

The University accepts no responsibility for worker's compensation nor payment of the student for services rendered. If an agency wishes to compensate the student for services, it is a matter between the agency and the student.

3. Requirements of Student

Before Internship:

- A. Obtain this internship manual at least one semester prior to the time proposed for field work. Students are responsible to understand and comply with all information in this manual.
- B. Discuss with advisor the criteria for site selection. Personal preferences are taken into account; however, final selection must be suitable to academic goals and objectives.
- C. With faculty approval and support, contact the prospective agency concerning the feasibility of doing internship.
- D. Prepare a professional resume and attend an interview with the potential field preceptor to discuss placement.
 - You must provide a professional resume to your internship supervisor and to your faculty supervisor. Prepare your resume and take it to Career Services. They will sit down with you and go over your resume. Make changes to your resume and turn both the old and new resume to your faculty supervisor. You can also get help from career services on the web: http://careers.gmu.edu/students/documents/
- E. Obtain final approval for field site from faculty advisor prior to beginning internship. Complete the *Experiential Learning Agreement* form (Appendix A), turn into faculty advisor.

During Internship (Applies to both HDFS 498 and HDFS 499):

- F. With help from field preceptor, list goals and objectives for field placement. If you are completing all 6 credits at one placement site, you only need to complete the form once. If you are interning at two sites, you MUST complete the form twice, one for each site. Agreement of goals and objectives must be signed by the preceptor, faculty advisor and student by **end of second week of placement**. Preceptor, faculty advisor and student must have copies (see Appendix B for instructions on writing goals and objectives; Appendix C is a copy of the goals and objectives worksheet).
- G. During the course of the internship, the student is expected to carry out staff responsibilities determined by his/her preceptor. Under the direction of the preceptor, the student will participate in the on-going programs of the agency or organization.

- H. Complete 45 hours of work for each college credit earned. A 3-credit internship course requires 135 hours; 6-credits total 270 hours.
- I. Know and abide by the National Council on Family Relations (NCFR) code of ethics as well as the code of ethics deemed by your placement (e.g. if you are in an early childhood education setting, you should not only uphold the code of ethics determined by NCFR, but also by the National Association for the Education of Young Children (NAEYC) while carrying out field placement duties (Appendix D).

See

https://www.ncfr.org/sites/default/files/downloads/news/ethicalguidelines_family_science.pdf

- J. Orientation within the agency and to the community should be as broad as is possible. When appropriate, student should attend staff meetings and conferences, program reviews, and administrative meetings.
- K. Maintain a reflective journal during your placement. See Appendix E for information.
- L. Accurately keep track of your internship hours.
- M. Attend bi-weekly/monthly internship meetings (as determined by faculty advisor):

Requirements specific to HDFS 499 Advanced Internship:

During HDFS 499, the student is required to carry major responsibility for one independent project. This project should be developed by the student working in collaboration with their preceptor. The major project proposal must be approved by the preceptor. The project proposal must include goals and objectives, plan of action, methodology, criteria and method of evaluation.

In addition, HDFS 499 also requires the student to generate a list of referees, to complete a practice interview and to identify job opportunities or graduate school programs that will support their chosen career goals.

Required assignments for HDFS 499 include the following:

1. Based on independent role, complete an internship report reflecting learning, analysis, and evaluation of the field experience (Max 10 pages double-spaced, 1" margins, 12 point font). This paper is due to the faculty advisor the final week of school in the semester the student is in internship. Three copies of the report are to be prepared: one for the agency, one for your faculty advisor, and one for your records. The recommended report format is outlined below:

The report should include the following components:

Description (3-4 pages):

- of the community within which you worked during your internship, to provide the reader with a clear understanding of how your work related to the situation.
- of the agency. List the agency's major program goals, particularly those that related to your work.
- of your duties and responsibilities.
- of your work situation and environment.
- of your goals and objectives.
- of the special project(s) for which you had major responsibility. This should be a fairly detailed report in which you clearly identify your role in planning, implementing, selecting methods and resources, and evaluating the projects. You should analyze the project from the standpoint of your role, giving particular attention to problems encountered and how they were handled. In addition, a summary should be made of your perception of your professional strengths and weaknesses as they affected the project; state those activities that might be done differently should the experience be undertaken again. All materials used in the project should be noted, identifying specifically those you developed.
- of how the experience evolved and changed during the semester(s).
- of the skills you acquired as a result of this experience.

Evaluation (2-3 pages)

What did you learn from this experience,

- about the agency you worked in, the preceptor(s) you worked for?
- about the strengths and limitations of this agency in carrying out its responsibilities of the community?
- about yourself your own strengths and limitations; about how this experience affected your own personal goals and career objectives?

Integration (2-3 pages)

- How has this experience changed what you thought you knew about this type of agency?
- How does what you experienced/learned affect your evaluation of our political system/society?
- How does what you experienced/learned affect your evaluation of your educational and professional goals?
- How would you change your educational and professional goals in light of your experience?
- How would you change the experience to make it a more valuable learning experience?

- <u>Appendix:</u> Include various items which were pertinent and unique to the field work experience that are not included elsewhere in the report. These additional materials may be statistics, charts, photographs, or brochures.
- 2. Recommendations. Provide information on three people who would write letters of recommendation for you at this point in time. Describe who they are, how long you have known them, and in what capacity.
 - We have a form for HDFS students to prepare them for asking for letters of recommendation. Complete the form and provide it to the people who will be writing recommendations for you. Take time and effort to complete this. Make copies of this form for future use. It will help people provide informed recommendations for you.
- 3. Practice interviews. We want you to practice interviewing for a job. The GMU Career Services provides practice interview days. Visit the following link to view the schedule: http://careers.gmu.edu/employers/events/practiceinterviews/
- 4. Future plans. Find three job announcements within your field that interest you and are commensurate with your qualifications/experience. Put the job announcements in a format that can be submitted to your faculty advisor for evaluation. The web site for career services has links to jobs. If you are interested in graduate school, research and provide information on three schools to which you are interested in applying.

4. Requirements of Community Preceptor

HDFS faculty greatly appreciate the assistance of practicing colleagues in providing field experience to our students. It is the culmination of the academic experience and a crucial means to integrate material and concepts that have been developed in coursework. Your personal attention as a mentor provides the student with a role model and helps to polish his/her professional behavior and interpersonal skills. Community preceptors are volunteers and do not receive reimbursement for supervising HDFS students, no reimbursement is made to the agency in which a student is based during internship.

The faculty internship advisor is your liaison with the HDFS program and will assist you in any way possible. Questions and concerns should be addressed to the advisor responsible for your intern. The items below cover general procedural requirements in terms of planning and evaluating the intern's performance.

- A. Conduct a selection interview or meeting with students to further clarify position responsibilities of potential placement.
- B. Assist the student in writing goals and objectives for field placement. Complete and sign the *confirmation agreement form* (Appendix A) and *goals and objectives worksheet* (Appendix C).
- C. Supervise and monitor the student throughout the internship period to ensure progress toward completion of goals and objectives.
- D. Provide verbal feedback on performance and development to student at least weekly.
- E. Provide the student with feedback about performance throughout the internship period.
- F. Provide necessary resources for students to perform their responsibilities (e.g.: uniforms, activity supplies, office space).
- G. Complete the *midterm evaluation* (Form A) of the intern by the necessary date. Provide feedback to the intern on the content of the evaluation and the assessment of strengths and weaknesses. Assure the intern develops activities to strengthen weak areas.
- I. Submit a written evaluation to the faculty advisor at the end of the training period (Form B). Discuss evaluation with student.
- J. Inform the intern whether you are willing to act as a professional reference.

5. Requirements of Faculty Advisor

The faculty advisor is responsible for the following:

- A. Approve final selections and arrangements for the internship site.
- B. Discuss the internship expectations and requirements with students.
- C. Assist the student in setting goals and objectives and identifying an appropriate field setting.
- D. Assist the community preceptor in establishing plans for improving the field work experience for future students.
- E. Facilitate communication between the preceptor and individual students.
- F. Read and evaluate reflective journal, evaluation forms, and final paper.
- G. Evaluate the internship experience and assign a final grade.

6. Evaluations

Evaluations include:

Student: final self evaluation (Form B below), student evaluation of internship placement and preceptor (Form C below).

Community preceptor: *mid-semester progress report* (Form A below), *final evaluation* (Form B below)

Form A. Preceptor's Evaluation of Student

Mid-Semester Progress Report*

Accepts suggestions: seeks assistance, follows through

Report for				_ Internship Site

Appendix B: Instructions for writing goals and objectives*

An educational, plan can be thought of as a "blueprint" that maps out what you hope to learn/accomplish as a result of your internship experience. It includes specific learning objectives that provide some means of measuring progress toward completion of educational goals. Learning objectives are brief statements that define results expected in a special period of time. They should:

- 1. Be specific as to exactly what is to be accomplished.
- 2. Be scheduled for accomplishment in a definite period of time.
- 3. Define results to be accomplished.
- 4. State the expected results in measurable terms.
- 5. Be realistic, but challenging.

KIND OF LEARNING OBJECTIVES

1. <u>Knowledge/Understanding</u>

Gaining knowledge implies <u>acquisition</u> of information, facts, concepts, theories, or ideas. It also implies retention (memory) as well as exposure. Gaining understanding implies an ability to apply information to problem-solving situation; seeing patterns and relationships, developing categories, using knowledge for reasoning, judging, analyzing, and synthesizing to extend learning beyond information acquisition.

Example:

To gain knowledge about how clients are processed through the STD clinic. To develop an understanding of the psychology used in writing fund-raising letters.

2. Skills

Gaining skills implies becoming able to do some activity; skills improve with use and practice; skills and the results of their use are observable. Skills may be mental or physical and can pertain to activities carried out with people (interviewing, public speaking, counseling), with things (computers), or with data (analyzing or preparing reports, gathering research information).

Example:

To develop skill in interviewing clients at the outpatient unit of the hospital.

3. Attitudes/Values

These objectives usually involve the formulation and/or clarification of personal values or feelings. Think in terms of the personal convictions you think will be affected by this experience. What opinions, attitudes, or feelings do you hope to clarify.

Example:

To clarify my feelings about the moral issues surrounding the debate on anonymous testing for HIV.

To clarify my opinion about the use of the Norplant implant method of birth control.

Appendix E: Keeping a Reflective Journal*

One useful way of keeping track of what you are learning and the kind of service you are providing to the community is to keep a personal journal or log of your activities. This will force you to think about your experiences and can help provide insight into what you are experiencing and how you are feeling about it. From your faculty advisor's standpoint, this is where we can see your development as a health professional and see if you are applying the conceptual material you have learned in class.

Your journal can take many different forms. However, a few ingredients are essential. Probably the most important advice to journal writers is that you do not edit as you write. Instead, you should write your thoughts freely, without regard for syntax, spelling or punctuation. Editing can be done later, if you wish. The point is not to stop the flow of your thoughts. Other requirements of journal writing are candor and keen use of your senses and observational skills. Not only will your writing be more interesting as you develop your senses and observational powers, but your experience will be enhanced as well.

Remember, it is important that you not think of your journal only as a work log in which you itemize and record events, tasks and statistics. Your journal, as a reflective and analytic activity allows you to grapple with problems and frustrations as well as identify your accomplishments and other positive learning experiences. The journal is your means of daily charting your growth and development both academically and personally.

You will find the journal less of a chore if you take a few minutes at the end of each day to review your learning objectives and reflect upon your experiences of the day.

Suggestions for a Daily Journal

What's the best thing that happened today/this week?

What's the most difficult/satisfying part of your work? Why?

What do you think is your most valuable/valued contribution?

Tell about a person there who you find interesting/challenging to be with.

How do people there treat you? How do they see your role? Is this congruent/in conflict with how you see your role?

What kind of person does it take to be successful at the kind of work that the agency does? Could you do this?

Did you take or avoid taking risks this week?

Did you receive any compliments/criticisms? What did you learn from this?
