E-mail: bshaklee@gmu.edu
Office Hours: Wednesdays by appointment

Catalog Description: Provides understanding of characteristic ways of knowing in various liberal arts disciplines while examining subject matter, key concepts, principles, methods, and theories. Analyzes philosophical traditions underlying educational practice and research.

Course Overview: This course is a foundation course for the Ph.D. in Education program. The purpose of the course is to explore how we come to know and accept a method(s) of inquiry among the various ways of knowing. Using a seminar approach structured around readings, reflections on those readings, class discussions, and individual research, the course seeks to develop in students an ability to reflect critically on the strengths and limitations of the various ways of knowing and to become aware of the implications of the different ways of knowing for research and practice.

Admission to the PhD program or approval of the instructor.

Course Objectives:

1. Students will describe, compare, and contrast ways of knowing from a variety of perspectives.
2. Students will describe ways of knowing of individuals and groups and will analyze and explain personal, sociocultural, professional, political, and other influences on ways of knowing.
3. Students will explore how various ways of knowing affect individual scholars, research, and practice in education and related fields.
4. Students will expand and refine their scholarship abilities including critical and analytic reading, writing, thinking, oral communication, and the use of scholarly resources.

CEHD's Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice and social justice. Students are expected to adhere to these principles (<http://cehd.gmu.edu/values/>).

This introductory course seeks to develop each student's ability to become grounded in the ways we come to know through inquiry and research based practice. Through the readings, the classroom conversations, discussions, and presentations, it is intended that each student will become more analytic about the conduct of inquiry and one's own perspectives on inquiry, research based practice and the nature of knowledge, and to develop a respect for the diversity of thought that characterizes inquiry.

Course Expectations

- **Attendance:** Attendance is mandatory, as the discussions that take place in this class are essential to achieving the course objectives. Unexcused absences will be reflected as a deduction in your class participation grade; missing two or more classes will result in a grade deduction of your overall course grade, e.g. A becomes B.
- **Tardiness/Early Departure:** Prompt arrival for the beginning of class is expected as well as staying through the close of class.
- **Participation:** Each student is expected to complete all the assigned readings **before** the assigned class and actively participate in the discussions. It is expected that each student will be attuned to group dynamics in order to ensure the active participation of all in the class.
- **Absence:** If you must miss a class, you are responsible for notifying me (preferably in advance) and for completing any assignments, readings, etc. before the start of the next class. Only absences noted as excused in the Mason catalog will not have an impact on your grade.

January 8, 2017

- **Assignments:** All assignments must be completed in MSWord and posted to Bb. No pdf files are permitted. *Late assignments will not be accepted without making prior arrangements with me.*
- **Inclement Weather:** If class is cancelled by the university due to inclement weather we will move the class discussion to Bb for the week on the discussion board. The class week then will be Monday through the following Sunday evening. *Participation in Db is not voluntary during this period of time.* Each member of the class is expected to logon and actively participate in class discussion for the equivalent (2.5 hrs.) of our normal face-to-face class. Each member of the class is expected to actively engage others in conversation and extending our learning through inquiry based questions related to the designated assignment. Comments such as “I agree” do not count nor do overly long answers without questions. Please read the guidelines posted to Db about conduct during online discussions.

GMU POLICIES and RESOURCES FOR STUDENTS

- Students must adhere to the guidelines of the George Mason University Honor Code [See <http://oai.gmu.edu/the-mason-honor-code/>.
- Students must follow the university policy for Responsible Use of Computing -- See <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>.
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ods.gmu.edu/>).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursessupport.gmu.edu/>.
- The George Mason University Writing Center staff provides a variety of resources

and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing (see <http://writingcenter.gmu.edu/>).

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance (see <http://caps.gmu.edu/>).
- The George Mason University Office of Student Support staff helps students negotiate life situations by connecting them with appropriate campus and off-campus resources. Students in need of these services may contact the office by phone (703-993-5376). Concerned students, faculty and staff may also make a referral to express concern for the safety or well-being of a Mason student or the community by going to <http://studentsupport.gmu.edu/>, and the OSS staff will follow up with the student.

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT PROFESSIONAL DISPOSITIONS

Students are expected to exhibit professional behaviors and dispositions at all times and in all interactions with staff, faculty, administrators and other classmates.

CORE VALUES COMMITMENT

The College of Education and Human Development is committed to *Social justice, Innovation, Research-based practice, Ethical leadership, and Collaboration*. Students are expected to adhere to these principles. [See <http://cehd.gmu.edu/values>]

EDCI 800 reflects the mission and core beliefs of the College of Education and Human Development at George Mason University through its commitment to engage doctoral students in critical reflection and research literature that promotes ethical educational leadership, deep understanding of a world perspective in educational decision-making, knowledgeable teacher education professionals who can teach their content and work effectively with diverse language learners, understand and implement research-based practice, and collaborate productively with colleagues. CEHD's five Core Values are integrated with and actively incorporated in the course content, discussions, and student work associated with EDUC 800:

Collaboration
Ethical Leadership
Innovation
Research-based Practice
Social Justice

Professional Participation & Assignments

Participation & Professionalism (15%)

Students will be asked to work individually or in small groups in class throughout the semester. Students may also be asked to participate in online Blackboard Discussions outside of class time. Because of the importance of lecture and discussion to your total learning experience, you are required to both attend and participate in class regularly.

Attendance, punctuality, preparation, and informed contribution to small and large group efforts are essential. Informed participation is identified as being able to draw upon the readings, ideas and concepts presented in the course and not relying solely on personal experiences. These elements of your behavior will reflect the professional attitude implied in the course goals and will account for 15% of your course grade. Students who must miss a class must notify the instructor (preferably in advance) and are responsible for completing all assignments and readings for the next class. Points will be deducted for any unexcused absence from the class. The Mason Catalog identifies the areas that can be considered as 'excused.'

Weekly Journal Reflections (6 x 5 = 30%)

You are expected to prepare 6 journal reflection papers as noted in the tentative class schedule, turned in by the beginning of the class on the date we will discuss the topic. The intent of these brief papers (2 pages, double-spaced) is to help you become thoughtful and analytic about some rather conceptual, and sometimes complex, course content. You should look upon these papers as an opportunity to engage me in discussion as you grow over the semester. These are personal reflections and therefore can be written in first person and are in essay format.

Paper on a New Way of Knowing (30%)

Select a new way of knowing for you, e.g. a new theory in your field, an area within the arts, sciences, or social sciences, or an interdisciplinary area of inquiry. Explore this new way of knowing. Prepare a paper (about 2500 words/10 pages) that demonstrates: 1) your understanding of the basic assumptions of this approach, and 2) what it is that makes this approach a new way of knowing for you. Note: depth and analysis are more important than breadth. APA format required.

Paper is due: 5/5.

As part of the development of your paper, please submit via email, a one-page description of your proposed project so we can agree early in the semester no later than the ninth class (3/20) The outline should address the following questions:

1. What is the way of knowing you will explore?
2. How do you propose to study it?
3. What are your tentative sources?

If appropriate, I will share your thoughts with others who have identified a similar area to explore.

January 8, 2017

Evaluation of the final paper: *This assignment is the performance based assessment for EDUC 800.* The main criteria are a clearly defined focus, clear and accurate presentation of its assumptions and definitions about knowing, a demonstrated understanding of the implications for research, and clear organization and writing (*see scoring rubric on Bb and in the assessment*).

Reflective Analysis on Ways of Knowing (25%)

You are expected to keep a weekly journal reflection (above) that is both reflective and analytic during the course. The overall purpose is to use informal journal writing as a means to think and reflect on the content of the course. In particular, the journal reflection is a means for you to connect course material to your own experiences and to analyze the course readings critically. The course outline lists specific assignments for the journal. For this final paper, you will look across the semester and consider its effects on you. The guiding questions for this final paper are:

1. How would you have described your way(s) of knowing, learning, and thinking when you began this class?
2. As you consider your autobiography/personal history, what factors personal, experiential, familial, sociocultural, historical, and/or disciplinary influenced your ways of knowing?
3. How has the course affected your ways of knowing as a practitioner and as a researcher?
4. How would you describe your current way of knowing?
5. What evidence can you provide that you have accomplished your goals for this class and made the contributions you identified in your pre-assessment?
6. What are the implications of your reflections on questions 3 and 4 above for your personal and professional growth during your doctoral study?

Criteria for assessment include: evidence of serious reflection and analysis, clear organization and clear writing. This paper is the culminating activity of the course and is due at the beginning of the last class meeting (5/11). **Since this is a reflection paper, APA format is not required.**

All assignments must be completed in MSWord and submitted to Bb on the date specified. No pdf files will be accepted for any assignments. All assignments must be of high quality with few, if any, errors in mechanics. Reviewing and editing your work is essential to successful completion of this course, e.g. do not count on spell check.

Grading Scale:

At George Mason University, course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. The system for grading graduate courses is as follows:

Grade	GRADING	Graduate Courses
A+	100	Highly Satisfactory / Passing
A	94-99	Satisfactory / Passing
A-	90-93	Satisfactory / Passing
B+	85-89	Satisfactory / Passing
B	80-84	Satisfactory / Passing
C	70-79	Does not meet requirements of the Graduate School of Education
F	<69	Does not meet requirements of the Graduate School of Education

In order to receive an A+ in this course all participation, assignments and discussion must be at the very highest level and represent the highest level of discourse for a PhD program.

Course Delivery

This is a “face-to-face” doctoral seminar. My teaching style revolves around “learning via conversation.” It is expected that you will read in advance of class and continue to try to find the bigger picture as you learn to sort through the findings of one study to the next. In addition to classroom attendance and participation, I expect you to participate fully in whole class and small group discussions, group, pair and individual projects, internet research, discussion board, analyses of case studies and reflections on practice. I will use Mason’s web-accessible Blackboard (<https://mymasonportal.gmu.edu>) course framework regularly throughout the course; articles/readings are posted there for you to read in advance of our discussions.

I reserve the right to modify the schedule in order to differentiate according to the identified needs of the class.
