# **University Catalog Course Description**

Enhances knowledge of and involvement in counseling research by introducing techniques and principles to design, implement, and evaluate research projects and program development in community and school settings.

# **Course Overview**

This course will provide an introduction to research methods, questions, and trends in the field of counseling. Readings and discussions will be used to explore the research process and highlight its role in the field of counseling. Students will be required to write a research proposal. Students will be encouraged to plan a proposal that could serve as the basis for an independent study, dissertation, or development of a school- or community-based counseling program. Consistent with the mission of the Counseling and Development Program, the course strives to develop in students a perspective that incorporates a focus on multiculturalism, advocacy, leadership, social justice and/or internationalism.

# **Course Delivery Method**

This course will be delivered using a lecture and group/independent work format.

# Learner Outcomes or Objectives

This course is designed to enable students to do the following:

- Articulate relevant social justice and multicultural issues related to research in counseling.
- Demonstrate an understanding of methodological and theoretical issues driving the field of counseling research today.
- Conceptualize and design a research proposal, including demonstrating the ability to identify research problems, develop research questions, review and apply relevant literature, and communicate design and analysis plans.
- Demonstrate competence in critically evaluating counseling research.
- Write using the APA style.

## **Professional Standards (CACREP)**

EDCD 601 prepares students to understand research design and evaluation, including basic statistics, so they can use published research to inform practice in schools and agencies. The course also introduces students to research methodology, enabling them to design and conduct research in academic and community settings.

EDCD 601 fulfills the research and evaluation requirement for Virginia state school counseling licensure and for the Virginia Licensed Professional Counselor credential. EDCD 601 meets CACREP standard II.K.h (Research and Program Evaluation) and the Graduate School of Education (GSE) standard of research and scholarship.

# **Required Texts**

American Psychological Association (2009). *Publication manual of the American Psychological Association* (6th ed.). Washington, DC: American Psychological Association.

#### **Course Performance Evaluation**

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

#### • Assignments and/or Examinations

#### Research Proposal

Students will select a research topic of interest and complete the three components of a research proposal: introduction, literature review, and methods sections. An annotated bibliography will be used to begin the development of the proposal and introduce students to literature on their topic of interest. Students will present their completed research proposal at the end of the course. Research topics are expected to reflect student interests and an aspect of the C&D program mission, which emphasizes social justice, multiculturalism, advocacy, leadership, and internationalism in counseling.

#### Annotated Bibliography (15% of total grade)

The annotated bibliography is a one of the first steps in the research process. The purpose is to become familiar with literature related to your topic of interest. In this assignment, you will develop skills in locating appropriate articles, as well as summarizing and evaluating the content. Using your database search skills (and assistance as necessary) you will locate five research articles from peer-review (scholarly) journals. Review each article and write an annotation for each (between 150 and 170 words each, not including the citation). Following the article citation, each annotation should include a <u>summary</u> of the content *and* an <u>evaluation</u> of the article's usefulness and rigor. Include the <u>total word count</u> for the annotation at the end of each annotation. You must adhere to APA (6<sup>th</sup> ed.) guidelines.

## Introduction and Review of the Literature (30% of total grade)

The *introduction* component of a research paper introduces the reader to your research issue. The purpose of the introduction is to provide a clear and concise overview of your research study including: the research issue/problem in counseling, a rationale for examining this research issue, and the purpose of your study. The introduction should be one page.

The *review of the literature* will allow you to integrate the knowledge developed from your annotated bibliography to more fully understand your research topic. The literature review should conclude with a restatement of your purpose and your research question(s). The literature review should be four pages.

In addition to the one-page introduction and four-page review of the literature, you will include a title page and reference page(s). You must adhere to APA ( $6^{th}$  ed.) guidelines.

#### Methods Section (20% of total grade)

In this section, you will describe the research methods that you will use to address your research question. You will apply course material and additional readings as necessary. This section should allow other researchers to replicate your study. The methods section should be between two and three pages (not including title and reference pages). You must adhere to APA (6<sup>th</sup> ed.) guidelines.

#### Final Research Proposal Presentation (10% of total grade)

After completing the components of the research proposal, you will create a professional conference poster summarizing the main aspects of your proposal. You will present your poster in a symposium held during our class. During the symposium, you will explain your proposal and respond to questions.

#### APA Style Quiz (15% of total grade)

To ensure understanding and retention of APA style, students will be given an APA style quiz. Prior to the graded quiz, a practice quiz will be administered.

#### Participation & Reading Reflections (10% of total grade)

Students in Counseling & Development courses are expected to demonstrate a high level of participation consistent with graduate-level education. Students are expected to: be on time and present for the duration of the class; demonstrate engagement (ask questions, share thoughts); be respectful and attentive; and demonstrate preparedness for each class meeting.

<u>Reading Reflections</u>: For each of the following classes where there is an assigned reading, you will bring in a short written reflection that addresses the topic/prompt for that class (see list below). This can be informal and does not need to be in APA format, although it may be collected so please write/type coherently. The primary purposes are to ensure reading comprehension and to generate reflection and ideas for discussion in class.

Class #	Reading Reflection Prompts					
2	What are some of the differences between qualitative and quantitative research? What are your reactions to or thoughts about each type? (ER Ch. 1)					
3	Reader's choice: What was a useful or salient point you identified from these readings? Describe how this was or will be useful to you in the course and/or in your future education/work. (ER Chs. 3 & 12)					
4	Identify and <u>describe</u> one way in which you might collect data for your research project. (ER Ch. 6)					
5	What reliability, validity, or believability evidence might you use in your own research project? (ER Ch. 5)					
7	Reader's choice: What was a useful or salient point you identified from this reading? Describe how this was or will be useful to you in the course and/or in your future education/work. (ER Ch. 7)					
9	Think of a quantitative research question (even if you are doing a qualitative research proposal). Write the research question, null hypothesis, and alternative hypothesis. Identify the statistical test that you would use. (ER Ch. 9)					
10	Think of a qualitative research question (even if you are doing a quantitative research proposal). Which of the designs described would work best for this question and why? (ER Ch. 8)					
11	Imagine that you are going to conduct an action research project in an area of interest (perhaps a current or future professional setting). What do you think the benefits and challenges of conducting action research would be (particular to the setting, population, problem, etc.)? (Stringer Chs. 1 & 2)					
12	What are some of the strengths and weaknesses you note about the various models of program evaluation? (ER 11)					
13	Reader's choice: What was a useful or salient point you identified from these readings? Describe how this was or will be useful to you in the course and/or in your future education/work. (CITI Training)

# **Frequently Asked Questions**

# What should I do if I'm having problems with Bb?

Please contact technical support for assistance with Bb: courses@gmu.edu.

# What is required for the Mental Measurements Yearbook (MMY) Test Review?

Mental Measurements Yearbook (MMY) is a database of test reviews. If you have questions about accessing the reviews through this database, the library staff can assist (contact Anne Driscoll at adrisco2@gmu.edu). You should find a test reviewed in the MMY, read the reviews, and bring the re- views to class for discussion. You can try to find a test that is of interest to you or would be useful in your proposal. However, you may not find a test that fits your interests exactly, since the MMY is not a comprehensive database and there are many tests that aren't reviewed by MMY.

## Assessment Rubric(s)

#### Annotated Bibliography Rubric

#### Assignment Description (from syllabus)

The annotated bibliography is a one of the first steps in the research process. The purpose is to become familiar with literature related to your topic of interest. In this assignment, you will develop skills in locating appropriate articles, as well as summarizing and evaluating the content. Using your database search skills (and assistance as necessary) you will locate five research articles from peer-reviewed (scholarly) journals. Review each article and write an annotation for each (between 150 and 170 words each, not including the citation). Following the article citation, each annotation should include a <u>summary</u> of the content *and* an <u>evaluation</u> of the article's usefulness and rigor. Include the <u>total word count</u> for the annotation at the end of each annotation. You must adhere to APA (6th ed.) guidelines.

#### This assignment is worth 15% of the total course grade.

Note: Unlike other course assignments, you do not need to include a title page or separate references page(s). However, your citations must be in accordance with APA (6th ed.) format. Upload your assignment to Bb in a Word file (.doc or .docx).
