University Catalog Course Description

Covers biological, behavioral, and sociocultural factors in human sexual behavior.

Course Overview

This course explores the health aspects of human sexuality.

Course Delivery Method

This course will be delivered online using asynchronous format via the Blackboard learning management system (LMS) housed in the MyMason portal. You will log in to the Blackboard course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on August 27, 2018 at 12:01am.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers

To get a list of supported operation systems on different devices see:

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week: Because asynchronous courses do not have a "fixed" meeting day, our week will start on Mon. at 12:01 am and finish on Sunday at 11:59 pm.
- Log-in Frequency:
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least two times per week.
- Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. **Late work will not be accepted based on individual technical issues.**
- Workload:
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the

student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due. **Late work will not be accepted.**

- Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette:
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- Accommodations:
Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

- Develop a solid basic understanding of biological, social, and psychological components of their human sexuality.
- Form and express educated attitudes and viewpoints on several aspects of human sexuality through the interpretation of readings, lectures, guest speakers, and open discussion with peers.
- Form and express rational and responsible decisions concerning their human sexuality and development.
- Write and discuss the value of human sexuality education with professional teachers as well as the community.

Required Texts

- Crooks, R., & Baur, K. (2013). *Our Sexuality*: 13th Ed. Belmont, CA: Wadsworth/Cengage Learning. ISBN: 9781305646520.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard). This course will be graded on a point system, with a total of 213 possible points.

- **Assignments and/or Examinations**

Requirements	Possible Points
<p><u>Tests</u></p> <p>Test 01 Test 02 Test 03</p> <p>Each Blackboard online test is composed of 40 multiple-choice, true-false, and matching questions and one short essay question (10 points). The tests are based on the content of the text as organized and presented in PowerPoint lectures and other supporting materials provided on BB. To best prepare for the tests, students should use their textbook-based notes and other materials provided on BB. Multiple-choice, true-false, and matching items will measure students' abilities to identify/recall, differentiate, apply and analyze subject material. The rubric for essay questions is listed under Sexual Health Questions.</p>	150 points
<p><u>Preventing Unplanned Pregnancy Lessons</u></p> <p>Each student will complete 3 online lessons focused on preventing unplanned pregnancy (links will be provided on BB). Three short quizzes for each lesson will be available on Blackboard. The quizzes have a total of 26 questions over 3 quizzes each worth .5 pt for a total of 13 pts. Quizzes are made up of multiple-choice questions based on the lessons presented online.</p>	13 points
<p><u>Short Essay Quizzes</u></p> <p>There will be 10 short essay quizzes based on the content of the text as organized and presented in PowerPoint lectures. Each short essay quiz will be graded 0-3 points with a total of 30 possible points that will be factored directly into the overall grade. The short essay questions will measure students' abilities to apply and analyze subject material.</p>	30 points
<p><u>Discussion Forums</u></p> <p>Each student is expected to post a comment in 10 different discussion forums and reply to another student's comment within that forum. The initial comment/post is due by 11:59 pm on Saturday of each week and the reply to another student's comment is due by 11:59 on Sunday.</p> <p>Each discussion forum will be based on a self-assessment related to text or other posted material and completed by the student and then posting as a comment at the forum. Each posting with reply is worth 2 points for a total of 20 points that will be factored directly into the overall grade. The discussion forums will represent affective learning experiences.</p>	20 points
