University Catalog Course Description

Studies contemporary and historical perspectives on socio-cultural and philosophical issues that influence American public schooling and physical education teacher preparation, including race, culture, ethnicity, nationality, globalization, socioeconomic status, gender, sexuality, ability, obesity, and urbanization.

Course Overview

This course is focused on providing future physical education teachers with the opportunity to reflect on and understand how various social and cultural issues (e.g. race, culture, ethnicity, nationality, globalization, socioeconomic status, gender, sexuality, ability, and urbanization) affect the schooling and physical education experiences of youth. As a result of this course teachers will have a foundational understanding and conceptual template from which to develop and refine their teaching and curriculum so as to provide learning experiences that are safe, equitable, and meaningful to *all students*, especially those who have been previously and/or are currently marginalized.

This course fulfills the Writing Intensive requirement in the PHED major. It does so through the 1000-word paper on one's personal, social, and cultural biography paper; the 1000-word philosophical platform; and the 2500-word final philosophical platform. All papers will be completed through a draft/feedback/revision process to be explained on outlines provided in class and posted to Blackboard.

Course Delivery Method

This course will be delivered using a lecture format.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Explain the role of social philosophy in learning and teaching.
2. Identify and articulate their personal philosophy for education and physical education.
3. Describe the history of the United States, and Northern Virginia area, and study how it affects students and teachers in schools.
4. Discuss the many facets of culturally responsive teaching.
5. Explain gender as a social category, and how it functions in school.
6. Describe how issues of sexuality influence the school experiences of gay/lesbian as well as straight students and teachers.
7. Explain diverse learners, parents, and communities.
8. Identify classist, racist, sexist, and other oppressive practices in public schooling, and devise strategies for working against those practices to create safe, equitable, and empowering classrooms for all children.
9. Reflect on their past and describe how it influences their perspectives on the world.

Professional Standards

Upon completion of this course, students will meet the following professional standards:

SHAPE America Standards

Standard #6: Professional Responsibility

Physical education candidates demonstrate behaviors essential to becoming effective professionals. They exhibit professional ethics and culturally competent practices; seek opportunities for continued professional development; and demonstrate knowledge of promotion/advocacy strategies for physical education and expanded physical activity opportunities that support the development of physically literate individuals.

InTasc Standards

Standard #2: Learning Differences

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments

The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard #9: Professional Learning and Ethical Practice

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Course Performance Evaluation

- ✓ Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard (BB), hard copy).
- ✓ Students are held to the standards of the George Mason University Honor Code. You are expected to attend all class sections, actively participate in class discussions, complete in-class exercises and fulfill all assignments.
- ✓ Assignments must be turned by the due date and time. Assignment turned in within 48 hours past the due date will receive 50% of their value. No credit will be given beyond this time frame.

• Assignments and/or Examinations

1. Personal Social and Cultural Biography Paper (1000 words) – 100 points

Students will spend time critically reflecting on their personal biography through the lens of their own social and cultural positionalities, and how socialization in these ways has and continues to inform their views with respect to a career as a physical educator.

2. Midterm Philosophical Platform (1000 words) – 100 points

Students will create a philosophical platform covering the content of the course readings at the halfway point in the course. Building from their social and cultural biography, students will contemplate and discuss how course readings, to this point, are informing their views as to what it means to be a socially conscious physical educator.

3. Final Philosophical Platform (2500 words) – 200 points

Students will be given directions for the final philosophical platform at the midpoint in the semester. Students will have five weeks to submit a first draft, and two weeks to integrate professor feedback for the final submission. Building from the personal social and cultural biography paper, the midterm philosophical platform, and further course reading, discussion, and activities, students will more fully develop a working philosophical platform for how they will conduct their work as a socially conscious physical educator.

*All assignments will be explained in further detail in assignment overviews provided by the instructor.

- **Other Requirements**

5. Preparation/Participation/Reflection – 300 points (24 classes @ 10 points/class, 6 Reflections @ 10 points/reflection)

Each class period, a preparation/participation rating scale will be completed to evaluate each student’s preparedness and contribution to the class period. These ratings are meant to encourage students to keep pace with their learning (e.g., complete readings, have paper drafts due, etc.) and contribute to the social construction of knowledge in the course. The rating scale will include professor ratings (4 points) and student self-ratings (6 points). At the end of each class period, students will complete self-ratings of their readiness and contributions to the learning environment, which will later be combined with the professor ratings to form a class period rating. Students will also complete weekly reflection papers based on the topic of conversation from the prior weeks and will be 1-1 ½ pages in length. Each reflection is worth 10 points and will be graded by the instructor.

6. Attendance

In accordance with the George Mason University Attendance Policies (University catalog, AP.1.6 Attendance Policies), “Students are expected to attend the class periods of the courses for which they register. In-class participation is important to the individual student and to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness or early departure as de facto evidence of non-participation.”

The following scale will be used:

- Three (3) absences are permitted
- Two (2) “tardies”*= 1 absence
- Two (2) “early departures”* = 1 absence
- 4-5 absences = 15 grade points
- 6 absences or more = 20 grade points

*Attendance is taken at 9:00 am. A student will be considered late once attendance has been taken. Leaving more than 10 minutes before the end of the class will be considered an early departure.
