

# College of Education and Human Development Division of Special Education and disAbility Research

Fall 2020 EDSE 590 002: Research in Special Education CRN: 79432, 3 – Credits

Instructor: Carolyn Iguchi	<b>Meeting Dates</b> : 10/19/20 - 12/13/20
Phone: (Mandatory Field)	Meeting Day(s): Online
E-Mail: (Mandatory Field)	Meeting Time(s): NA
Office Hours: (Mandatory Field)	Meeting Location: NA
Office Location: (Mandatory Field)	<b>Other Phone</b> : (If applicable, if not N/A)

\*\*Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

**Prerequisite(s):** None **Co-requisite(s):** None

#### **Course Description**

Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers.

# **Advising Contact Information**

Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate teacher candidates/students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other teacher candidates/students should refer to their faculty advisor.

# **Advising Tip**

Are you ready to apply for graduation? Students completing their program can apply for graduation on Patriotweb. If you are graduating from a Masters and certificate, be sure to apply to graduate from each program. Visit http://registrar.gmu.edu/students/graduation/ for more information.

#### **Course Delivery Method**

Learning activities include the following:

- 1. Class lecture and discussion
- 2. Application activities
- 3. Peer feedback
- 4. Small group activities and assignments
- 5. Video and other media supports
- 6. Research and presentation activities
- 7. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available in accordance with the posted start date.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

# **Technical Requirements**

To participate in this course, students will need to satisfy the following technical requirements:

 High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see: <u>Browser support</u> (<a href="https://help.blackboard.com/Learn/Student/Getting\_Started/Browser\_Support#supported-browsers">https://help.blackboard.com/Learn/Student/Getting\_Started/Browser\_Support#supported-browsers</a>)

To get a list of supported operation systems on different devices see: <u>Tested devices</u> <u>and operating systems</u> (<u>https://help.blackboard.com/Learn/Student/Getting\_Started/Browser\_Support#tested</u>-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool for small group collaborate sessions.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:

- Adobe Acrobat Reader (https://get.adobe.com/reader/)
- o <u>Windows Media Player (https://support.microsoft.com/en-us/help/14209/getwindows-media-player)</u>
- o Apple Quick Time Player (www.apple.com/quicktime/download/)

# **Expectations**

#### • Course Week:

Because asynchronous courses do not have a "fixed" meeting day, our week will start on Monday at 11:59pm and finish on Monday 11:59pm EST (except the last module, which ends on Sunday 11:59pm EST).

## • Log-in Frequency:

Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 2 times per week.

# • Participation:

Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

# • <u>Technical Competence:</u>

Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

#### • Technical Issues:

Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

#### • Workload:

Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

## • Instructor Support:

Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

#### • Netiquette:

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in* 

*selecting your words*. Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

#### • Accommodations:

Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

#### **Learner Outcomes**

Upon completion of this course, teacher candidates/students will be able to:

- 1. Identify and understand different methods of educational research suitable for different research purposes in special education.
- 2. Describe and discuss basic theories and methods of quantitative experimental and quasiexperimental research in special education.
- 3. Describe and discuss basic theories and methods of survey research in special education.
- 4. Describe and discuss basic theories and methods of single subject research in special education.
- 5. Describe and discuss basic theories and methods of qualitative research in special education.
- 6. Critically evaluate education research and describe implications for educational practice.

## Course Relationship to Program Goals and Professional Organizations

(Council for Exceptional Children (CEC), Interstate Teacher Assessment and Support Consortium (InTASC). Upon completion of this course, students will have met the following professional standards: CEC Standard 5: Instructional planning and strategies (InTASC 7,8) & CEC Standard 6: Professional learning and ethical practice (InTASC 9).

#### **Required Textbooks**

McMillan, J. H. (2016). *Fundamentals of educational research* (7<sup>th</sup> Edition). Boston, MA: Pearson Education Inc.

*Note*: You only need the basic textbook without the online text access or any other add-ons.

#### **Recommended Textbooks**

American Psychological Association. (2020). *Publication manual of the American Psychological Association* (7th ed.). https://doi.org/10.1037/0000165-000

#### **Additional Readings**

Additional readings relevant to the special education research will be provided by the instructor.

#### **Course Performance Evaluation**

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

#### **VIA Performance-Based Assessment Submission Requirement**

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA.

For EDSE 590, the required PBA is (NO ASSESSMENT REQUIRED FOR THIS COURSE). Please check to verify your ability to upload items to VIA before the PBA due date.

#### **Assignments and/or Examinations**

**Performance-based Assessment (VIA submission required)**None

**College Wide Common Assessment (VIA submission required)**None

**Performance-based Common Assignments (VIA submission required)** 

## **Research Review Paper**

As the final assignment, students will complete a traditional research review paper of a selected intervention area. Topic choices will be offered by the instructor or students may choose their own area of interest. Individual topic areas must be approved by the instructor. Students will need to collect a minimum of 5 original intervention research studies on a particular topic to include in their review. In the final research review paper, students will demonstrate a thorough understanding of current knowledge in the area of interest. An electronic copy of the final research review synthesizing the literature collected and incorporating instructor's and peer feedback should be submitted no later than midnight on the due date.

Specific step-by-step directions will be provided by the instructor. This signature assignment for the course will be evaluated using the attached rubric.

#### **Other Assignments**

# **Human Subjects CITI Training Module Completion**

GMU Mandatory Training for Persons Conducting Research Using Human Subjects is accessed at <a href="http://www.citiprogram.org">http://www.citiprogram.org</a>. All required module in the Social-Behavioral-Educational (SBE) Basic course as well as the supplemental module on Research with Children are required.

#### Weekly Module Assignments, Discussions, and Self-Check Quizzes

Students will participate in weekly module assignments, discussions, and self-check quizzes in order to practice literature searches, reviews, and relevant research applications. This work is designed to help students prepare for their Mini-Research Application Project and final Research Review Paper assignments one step at a time. Detailed descriptions and step- by-step instructions for each module activities will be provided by the instructor and posted in the corresponding Learning Module.

## **Mini-Research Application Project**

The mini-research application project is designed to provide experience in designing, implementing, and evaluating a research study in special education. Student will design a hypothetical quantitative experimental (group or single-subject) or qualitative study (you will NOT need to implement it) in order to evaluate the effectiveness of an intervention, trying new ideas and methods, or exploring best practices. All activities for this assignment will be completed individually or in research teams.

Specific directions and a rubric for this assignment will be provided by the instructor.

#### Peer Feedback

Students will provide peer feedback weekly throughout the semester. Peer feedback plays a pivotal role in research. It is defined as a process of validating someone's research or ideas by others who are experts in the same field. Students will be asked to provide suggestions on how to improve the quality of each other's drafts before the final research paper is due.

Peer feedback grade will consist of two parts: points for (a) sharing your own portfolio and (b) providing meaningful, constructive feedback *Rubrics guiding peer feedback will be provided by the instructor.* 

#### **Course Policies and Expectations**

## **Attendance/Participation**

This class does not require any face-to-face or synchronous meetings. However, students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and providing peer feedback. In addition, optional Office Hours will be offered via Blackboard Collaborate Ultra.

#### Late Work

All activities must be submitted via Blackboard *on or before* the due date. In fairness to students who make the effort to submit work on time, 10% of the total score will be deducted for each day that an assignment is late.

Assignments will NOT be accepted more than 3 days late. To recognize

circumstances beyond reasonable control, students may have <u>one-week extension</u> <u>for ONE assignment ONE time</u> a semester only. This extension can NOT be applied to assignments submitted in Modules 7 and 8. The maximum extension is seven days, after which the assignment will not be graded. Students must notify the instructor if/when they wish to exercise this one-time option.

*Note*: Allow additional time for as well as plan for additional participation during activities that require constructive feedback.

## **Grading Scale**

Requirements	Points	Percent
Weekly discussions	80	27%
Weekly assignments	60	20%
Weekly quizzes	14	5%
End-of-semester survey	6	2%
Peer feedback	40	13%
Mini-Research Application Project	40	13%
Research Review Paper	60	20%
Total	300	100%

93-100% = A 90-92% = A-87-89% = B+ 83-86% = B 80-82% = B-70-79% = C

< 69% = F

\*Note: The George Mason University Honor Code will be strictly enforced (see <a href="https://oai.gmu.edu/">https://catalog.gmu.edu/policies/honor-code-system/</a>). Students are responsible for reading and understanding the Code. "To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work." Work submitted <a href="must">must</a> be your own new, original work for this course or with proper citations.

## **Professional Dispositions**

Students are expected to exhibit professional behaviors and dispositions at all times. See <a href="https://cehd.gmu.edu/students/polices-procedures/">https://cehd.gmu.edu/students/polices-procedures/</a>.

#### Class Schedule

\*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Learning Module	Topic	Textbook Readings*, Weekly Activities & Assignments Due
Learning	Introduction to Research Methods in	McMillan (2016) - Chapter 1; Chapter 2, Chapter 4 (pp. 75 – 89)
Module 1	Special Education	OPTIONAL: Schlosser et al., 2019
		Learning Module 1 Activities
Learning	Empirical Article Anatomy	McMillan (2016) - Chapter 3 (pp. 46-59 and 69-74); Chapter 5 (pp. 110-132); Chapter 6 (pp. 139-154)
Module 2	Empirical Patricle Palatoniy	When Myth Trump Science
		Learning Module 2 Activities
Learning	Experimental Research Designs: Single-Case/Subject Research	McMillan (2016) - Chapter 7 (171-180); Chapter 9 (263-276)
Module 3		OPTIONAL: Finke et al., 2017
		Learning Module 3 Activities
Learning Module 4	Qualitative Research Designs	McMillan (2016) - Chapter 11; Chapter 12
		OPTIONAL: Stewart et al., 2017
		Learning Module 4 Activities
Learning	Experimental Research Designs: Group Research	McMillan (2016) - Chapter 9 (237-262); Chapter 10
Module 5		OPTIONAL: Schreibman & Stahmer, 2014
		Learning Module 5 Activities
Learning Module 6	Non-Experimental Research Designs	McMillan (2016) - Chapter 7 (181-190); Chapter 8 (pp. 202-215 and 223-235)
		OPTIONAL: Brown, 2017
		Learning Module 6 Activities Mini-Research Application Project Due
	Mixed Methods Research / Action Research	McMillan (2016) - Chapter 13; Chapter 14
Learning Module 7		OPTIONAL: Lewis, 2017
	- CO - CM	Learning Module 7 Activities

Learning Module	Торіс	Textbook Readings*, Weekly Activities & Assignments Due
Learning Module 8	Research Consumer	McMillan (2016) - Chapter 15 Sample Paper in APA Formatting
		Learning Module 8 Activities Research Review Paper Due

#### **Core Values Commitment**

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <a href="http://cehd.gmu.edu/values/">http://cehd.gmu.edu/values/</a>

#### **GMU Policies and Resources for Students**

#### **Policies**

- Students must adhere to the guidelines of the Mason Honor Code. See <u>Honor Code and System (https://catalog.gmu.edu/policies/honor-code-system/).</u>
- Students must follow the university policy for Responsible Use of Computing. See Responsible Use of Computing (http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See <a href="Disability Services">Disability Services</a> (<a href="https://ds.gmu.edu/">https://ds.gmu.edu/</a>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

#### **Campus Resources**

Support for submission of assignments to VIA should be directed to <u>VIA Help</u> <u>support@watermarkinsights.com</u>. Questions or concerns regarding use of Blackboard should be directed to <u>Blackboard Instructional Technology Support for Students</u> (<a href="https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/">https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/</a>).

#### Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:

• As a faculty member, I am designated as a "Responsible Employee," and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason's Title IX Coordinator per University Policy 1202. If you wish to speak with someone

confidentially, please contact one of Mason's confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason's Title IX Coordinator by calling 703-993-8730, or emailing the <a href="mailto:Title IX Coordinator">Title IX Coordinator</a> (titleix@gmu.edu).

- For information on student support resources on campus, see <u>Student Support Resources</u> on Campus (https://ctfe.gmu.edu/teaching/student-support-resources-on-campus).
- For additional information on the College of Education and Human Development, please visit our website College of Education and Human Development (http://cehd.gmu.edu/).

errors		
Total	60	

Exemplary paper	Adequate paper	Marginal paper	Inadequate paper	No paper
60 - 55	45 – 54	35 - 44	<34	0

Exemplary paper (60-55 points): Appropriate topic, thorough and thoughtful review of previous research. Good writing style, free of mechanical or stylistic errors, appropriate use of APA format.

<u>Adequate paper (45-54 points):</u> Good overall paper, lacking in one or two of the criteria for an exemplary paper. Not entirely reflective or thoughtful, or minor writing style errors may be present.

<u>Marginal paper (35-44 points):</u> Overall, acceptable but with one or more significant problems. Contains some useful information, but may have substantial problems with evaluation, writing style, or review of relevant literature.

<u>Inadequate paper (1-34 points):</u> Paper with substantial problems in important areas such as writing, evaluation of research, overall thoughtfulness. Contains little or no information of value to special education practice.

<u>Unacceptable/no paper (0 points):</u> No paper turned in or paper was not approved for this assignment.
