ECED 502.DL1 Foundations of Language and Literacy for Diverse Prekindergarten and  
Kindergarten Learners  
3 Credits, Fall 2020  
08/24/2020 – 12/16/2020, Tuesdays/ 4:30pm – 7:10pm  
8/25, 9/1, 9/8, 9/15  
Online Synchronous and Asynchronous

**Faculty**

Name: Wendy L. Orner Young, PhD  
Office Hours: By Appointment  
Office Location: Thompson Hall 1200, Fairfax Campus  
Office Phone: 703-993-3844  
Cell Phone: 703-401-1597  
Email Address: [worneryo@gmu.edu](mailto:worneryo@gmu.edu)

**Prerequisites/Corequisites**

None

**University Catalog Course Description**

Examines complexity of language acquisition and literacy development of diverse young learners. Emphasizes language acquisition, reading, and writing in prekindergarten and kindergarten contexts. Focuses on evidence-based assessment and instructional practices that promote prekindergarten and kindergarten children's language and literacy development. Explores social, cultural, affective, cognitive, and educational factors that play a role in language acquisition and literacy learning. Notes: Field experience required.

**Course Delivery Method**

This course will be delivered online (76% or more) using a synchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on August 24, 2020.

**Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.**

*Technical Requirements*

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see

[https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#supported-browsers](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)

To get a list of supported operation systems on different devices see

[https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#tested-devices-and-operating-systems](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
  - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
  - Windows Media Player:  
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
  - Apple Quick Time Player: [www.apple.com/quicktime/download/](http://www.apple.com/quicktime/download/)

### *Expectations*

- Course Week: Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- Log-in Frequency: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 4 times per week.
- Participation: Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload: Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support: Students may schedule a one-on-one meeting to discuss course requirements, content, or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not

consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations: Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

### **Learner Outcomes or Objectives**

This course is designed to enable students to do the following:

1. Describe the complex nature of language acquisition as a precursor to literacy and the typical and atypical development of linguistic competence in the areas of phonetics, semantics, syntax, morphology, phonology, and pragmatics (i.e., use of language to get needs and wants met and use of functional communication for social interaction) with a focus on the language development of diverse prekindergarten and kindergarten learners.
2. Identify and describe (a) specific language-based conditions, such as dyslexia, dysgraphia, dyscalculia, and auditory processing disorders; (b) at-risk learning-related issues due to attention deficit disorders; and (c) the effects of disabling and at-risk conditions on young children, including on dual language and English learners' language acquisition.
3. Identify and discuss intervention methods to promote speech and language development and literacy (reading and writing) development in children with varied abilities and from diverse cultural, linguistic, and socioeconomic backgrounds.
4. Identify and describe effective, evidence-based, culturally responsive assessment and instructional strategies and materials, including explicit instruction, differentiated instruction, flexible grouping, and the use of technologies, to promote diverse prekindergarten and kindergarten learners' development in the following areas:
  - a. Oral Language for Diverse Prekindergarten and Kindergarten Learners
    - speaking and listening
    - phonemic and other phonological awareness skills, including phonemes, syllables, and rhyming
    - learning of standard English by speakers of other languages and dialects
    - creative thinking and expression, including storytelling, drama, choral and oral reading
  - b. Reading and Literature Appreciation for Diverse Prekindergarten and Kindergarten Learners
    - phonemic and other phonological awareness skills, including phonemes, syllables, and rhyming
    - concepts of print
    - phonics, including an understanding of sound and symbol relationships, syllables, phonemes, morphemes, word analysis, and decoding skills
    - fluency
    - vocabulary and concept development
    - structure of the English language, including an understanding of syntax
    - listening and reading comprehension strategies across content areas, including fiction and nonfiction text predicting, retelling, summarizing, and making connections with and beyond the text
    - appreciation of a variety of literature, including fiction and nonfiction texts

- independent reading, including selecting fiction and nonfiction texts of appropriate yet engaging topics and reading levels
  - visual literacy, including viewing, interpreting, analyzing, and representing information and concepts in visual form with or without the spoken or written word
- c. Writing for Diverse Prekindergarten and Kindergarten Learners
- composing, including imaginative writing
  - written expression
  - usage and mechanics
  - spelling, including stages of development, generalization of spelling study to writing, systematic spelling instruction, and purposes and limitations of invented spelling
  - handwriting
  - writing processes, including planning, drafting, revising, editing, and publishing
  - writing and drawing for a variety of purposes and in a variety of modes, including narrative, descriptive, persuasive, and explanative
- d. Technology for Diverse Prekindergarten and Kindergarten Learners
- using technology for process and product work with reading and writing, to communicate, and to learn
5. Plan, implement, and reflect on evidence-based, culturally responsive assessment and instruction that (a) recognizes the reciprocal nature of reading and writing; (b) promotes oral language (speaking and listening), reading, and writing in diverse prekindergarten and kindergarten learners; and (c) uses knowledge of how standards provide the core for teaching English to support prekindergarten and kindergarten learners' achievement of the *Virginia Standards of Learning in English* and *Virginia's Foundation Blocks for Early Learning: Comprehensive Standards for Four-Year-Olds*.
  6. Explain the importance of play-based learning in diverse prekindergarten and kindergarten learners' language and literacy development and describe ways to promote language and literacy development during conversation and play.
  7. Adapt task and interactions to maximize language development, conceptual understanding, and skill competence within each learner's zone of proximal development.
  8. Use strength-based language to discuss factors (e.g., social, cultural, linguistic, family, socioeconomic, affective, cognitive, and educational) that play a role in monolingual and multilingual language acquisition and literacy learning (reading and writing) in learners with varied abilities and from diverse cultural, linguistic, and socioeconomic backgrounds.
  9. Identify and discuss formal and informal assessment for diverse prekindergarten and kindergarten learners, including screening, diagnostic, and progress monitoring measures for (a) oral language; (b) reading, including phonemic awareness and other phonological awareness, letter recognition, vocabulary, reading levels, and comprehension; and (c) writing.
  10. Discuss ways to use assessment data, including diagnostic and progress monitoring data, to inform instruction for acceleration, intervention, remediation, and differentiation.
  11. Create family-friendly communications about children's linguistic competencies.

12. Exhibit standards of professionalism, ethical standards, and personal integrity with children, families, and professionals in the field experience setting and in interactions with classmates, the instructor, the field experience coordinator, and others.
13. Use writing as an instructional and assessment tool to generate, gather, plan, organize, and to communicate for a variety of purposes; integrate correct written conventions (i.e., grammar, usage, mechanics, and spelling); and format using current APA style.

**Professional Standards** – Virginia Professional Studies Competencies, Virginia Early Childhood Special Education Endorsement Competencies, Virginia Early/Primary Education PreK-3 EPK3 Endorsement Competencies, Interstate Teacher Assessment and Support Consortium (InTASC) Standards, Council of Exceptional Children (CEC) and Division of Early Childhood (DEC) Standards, and National Association for the Education of Young Children (NAEYC) Standards

Upon completion of this course, students will have met the following professional standards:

**Virginia Professional Studies Competencies**

Language and Literacy  
Supervised Clinical Experiences

**Virginia Early Childhood Special Education Endorsement Competencies**

Speech and Language Development and Intervention Methods

**Virginia Early/Primary Education PreK-3 Endorsement Competencies**

Methods  
Knowledge and Skills in English/Reading

**Required Texts**

### Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard (Bb), Tk20/VIA, hard copy).

Assignments	Due Dates	Points
Attendance and Participation <ul style="list-style-type: none"> <li>Self-Evaluation</li> </ul>	Ongoing	25

- Assignments and/or Examinations**

#### Alternative Field Experience (15 points)

This course requires a minimum of 15 hours field experience in an early childhood education classroom (PreK or Kindergarten) or early childhood special education classroom (PreK). However, due to school closures and other social distancing mandates, **students will NOT be completing any face-to-face observation** as part of this course, but will instead choose from a variety of options to complete 15 hours of observation. Below are options for fulfilling their field placement requirement.

### ***Option 1***

- Students may view videos of observations provided by the instructor.

### ***Option 2***

- Students may virtually observe young children (age 2-6) in home learning spaces.
- Students may virtually observe teachers while engaged in remote/distant/asynchronous literacy teaching.

### ***Option 3***

- Students may find examples of early childhood literacy learning and teaching videos posted online. These may include children's book authors and illustrators posting videos of readalouds or art projects on their social media feeds (Facebook, Instagram TV, YouTube etc.) or educational institutions like museums or parks providing virtual learning experiences for students.

### ***Option 4***

- If students have other ideas for how to observe literacy teaching and/or learning with young children, they will email the instructor and let her know. If they are currently living with young children, they may observe their literacy practices for a maximum of 3 hours of field experience.

### **Documenting the Field Experience (5 points)**

- Students will upload an individual plan listing the kinds of observation and estimated observation hours the student plans to do. For instance, which options they will choose and how many hours they plan to observe within each option. **This is only an estimate** and can change as the semester continues. (1 point)
- Upon completion of their field experience hours, students will provide documentation of their experience, listing what kind of observation was done and the time observed. (4 points)

When applicable, students will exhibit standards of professionalism, ethical standards, and personal integrity throughout the Field Experience process with the instructor, field experience coordinator, classroom teacher, students, administrators, etc. Students will refer to Blackboard for CEC, DEC, and NAEYC standards in early childhood education and early childhood special education.

**Field Experience Reflection (10 points).** Students will write a four-page, double-spaced reflection based on their field experience. Given the variety of observations students may collect, these reflections may be open-ended in content. However, it is expected that students will use strength-based language when writing about young children and that connections to course readings and discussions will be made explicitly (with citations, when necessary). Additionally, students may consider reflecting on the following:

- Processes for selecting developmentally appropriate materials and instructional experiences for culturally and linguistically diverse children in the classroom or other learning contexts, including remote learning spaces;
- Accommodations and modifications made to literacy teaching and learning experiences based upon individual strengths and needs of students (e.g., abilities, disabilities, culture,

- linguistic, etc.) or space-based or technology-based limitations; and
- Big takeaways about developing language and literacy in culturally and linguistically diverse young children through their observations and/or interactions in classrooms or remote spaces.

### **Family Communication Resource on Developing Linguistic Competence (10 points)**

Many parents, now acting as homeschool teachers, are wondering how to best support their children's literacy learning from home (although the pandemic has exacerbated these concerns, this concern is not new). For this project, students will develop a communication (e.g., newsletter, brochure, webpage, blog) focused on developing prekindergarten and kindergarten children's language and literacy engagement and will highlight one area of literacy, such as phonetics, semantics, syntax, morphology, phonology, pragmatics, biliteracy, or culturally relevant literacy practices. Students will include the following:

- Background information, including family-friendly definitions and examples, supported by class readings, handouts, resources, and discussions;
- Three family-friendly, culturally responsive activities families can do at home or in the community that develop linguistic competence in the selected area;
- A description of one resource families can access to support their child's language development; and
- A reference list of the sources formatted in APA style.

The Family Communication Resource will be created in an engaging and family-friendly format and, for this reason, will be no longer than two pages.

### **Interactive Reading and Writing Experiences Plan (45 points)**

Students will plan and conduct an asynchronous reading and writing experience for culturally and linguistically diverse prekindergarten or kindergarten children to be experienced virtually. They will include the following parts in the lesson plan:

- **Phase 1 (5 points):** Evaluate three potential books for an early childhood read aloud experience using the evaluation checklist in Morrow et al. (2016, p. 42) to describe each book. Write one paragraph for each book that was evaluated. Select one book to read (asynchronously) to a group of culturally and linguistically diverse prekindergarten or kindergarten children and write a one paragraph rationale for the selection of this book.
- **Phase 2 (10 points):** Write a read aloud lesson plan designed for asynchronous instruction using the lesson plan template provided by the instructor (see Bb).
- **Phase 3 (5 points):** Plan and describe at least two extension activities that extend the read aloud and respond to the cultural and linguistic diversity of the children, including at least one play-based learning activity and one writing experience. These should be activities that children could do at home with support of a parent.
- **Phase 4 (5 points):** Support instructional decisions (i.e., rationale for the book selection, the lesson plan activities, and the extension activities) by citing class readings, handouts, resources, and discussions and including a reference list of the sources formatted in APA style.
- **Phase 5 (5 points):** Design and describe how learning will be assessed. Include any templates that are designed and describe how they will be utilized during and after the lesson.
- **Phase 6 (5 points):** Create a video of the read aloud lesson. Provide a one-paragraph

explanation of how children and their families could use this video as a learning resource.

- **Phase 7 (10 points):** Provide a three-page, double-spaced reflection on the implementation of the above lesson plan. Note how the lesson was designed and implemented, and suggested revisions to improve the lesson for future implementation. Reflect on how this lesson would be received by culturally and linguistically diverse young children.

Students will cite current research from the course textbooks, class discussions and handouts, and/or other relevant peer-reviewed sources to support the information they provide for each Part of the Interactive Reading and Writing Experiences. They will use in-text citations and include a reference list per APA style guidelines.

### **Dyslexia Module (5 points)**

Students will complete the Dyslexia Module/Training required by the VDOE (see link below) and will submit the certificate of completion to Blackboard.

<http://www.doe.virginia.gov/teaching/licensure/dyslexia-module/story.html>.

- **Other Requirements**

### **Attendance and Participation (25 points)**

- Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class and online activities will be evaluated based on the following criteria:
  - Students attend class, arrive on time, and stay for the entire class period.
  - Students use laptops and personal devices are to be used for instructional purposes only.
  - Students complete readings and prepare for class activities prior to class as evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
  - Students are actively involved in in-class and online learning experiences as evidenced by (a) participating in all activities, (b) engaging in small- and large-group discussions, (c) completing written work related to the activities, and (d) supporting the participation and learning of classmates.
  - Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections.
  - Students display professional dispositions at all times while interacting with the instructor and other students.
  - Students complete participation activities across the semester that complement the scheduled course topic. Instructors will periodically collect artifacts from the activities. Students in attendance and who actively engage in the learning experience will receive credit for their efforts. Graded participation activities are not announced and are implemented at the discretion of the instructor.
  - Students submit attendance and participation self-evaluation.

### **Written Assignments**

All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Seventh Edition (APA) style will be followed for all written work. If students are not confident of their own ability to catch errors, they should have another person

proofread their work. When in doubt, they should check the APA manual. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.
5. Type the paper with double spacing, indented paragraphs, 1-inch margins all around, and 12-point Times New Roman font.

- **Grading**

A = 95-100   A- = 90-94   B+ = 87-89   B = 80-86   C = 70-79   F = <70

Incomplete (IN): This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control.

All CEHD students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>. Those students seeking Virginia initial teaching licensure must earn a B- or better in all licensure coursework.

**Professional Dispositions**

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/policies-procedures/>.

### **Core Values Commitment**

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

### **GMU Policies and Resources for Students**

#### *Policies*

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ds.gmu.edu/>).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

#### *Campus Resources*

- Support for submission of assignments to Tk20 should be directed to [tk20help@gmu.edu](mailto:tk20help@gmu.edu) or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard

should be directed to <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>.

- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>.

**Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:** As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing [titleix@gmu.edu](mailto:titleix@gmu.edu).
