Expectations

- *Course Week:*
Because asynchronous courses do not have a “fixed” meeting day, our week will start on **Mondays, and finish on Fridays...**[example: **January 25 through January 29**].

Journals and Discussion Boards are due on the Monday following the week assigned.

- *Log-in Frequency:*
Students must actively check the course Blackboard site and their GMU email for communication from the instructor, class discussions, and/or access to course materials at least several times per week. **The weekly lessons will be posted beginning with the week in which they are assigned.**
- *Technical Competence:*
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components are expected to seek assistance from the instructor and/or College or University technical services.
- *Technical Issues:*
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- *Workload:*
Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of the syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities, and assignments due.
- *Instructor Support:*
Students may schedule a one-on-one meeting to discuss course requirements, content, or other course-related issues. Student may meet with the instructor via telephone, Zoom, or Google Meet. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- *Netiquette*
The course environment is a collaborative space. Experience shows that even an innocent remark in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. Be positive in your approach with others and diplomatic in selecting your words. Remember that you are not competing with classmates but sharing information and learning from others. All faculty are expected to be respectful in all communications.

TK20 Performance-Based Assessment Submission Requirement

Every student registered for any Education Leadership course with a required performance-based assessment are required to submit these assessment, **the School/Community Leaders Assessment of School Effectiveness and Parent Involvement assignments**, to Tk20 through Blackboard (regardless of whether the student is taking the course as an elective, a onetime course or as part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in Tk20 through Blackboard. Failure to submit the assessment to Tk20 (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required Tk20 submission, the IN will convert to an F nine weeks into the following semester.

Grading

Students can earn a total of 500 points in this course. Graded assignments account for 75% (375 points) of the overall grade, while online course participation accounts for 25% (125 points) of the grade.

Participation Requirements (25% or 125 points of the total grade)

To maximize learning and engagement in the online environment, students are expected to participate actively in asynchronous class discussions and group activities and serve as critical friends to other students. [i] Reflections [journals]-individual submissions [6]

[ii] Discussion Boards [4]: [i] Other than the introductory short video, most Discussion Board activities require **group responses**. [ii] Journals are **individual submissions**. **Both Discussion Board and Journal submissions may be in video or podcast format**.

Below is a list of all required learning activities by unit, which will count toward your overall participation grade. Please refer to the Course Participation Rubric for details.

Course Written Assignments [2]

TWO graded assignments required for this course are as follows:

I. Performance Based Assessment #1-(175 Points)

I. School/Community Leaders Assessment of School Effectiveness

Rationale

It is easy (and popular) to talk about school vision, but it is rare that we check whether or not others perceive our schools as achieving the vision they set out for themselves. This assignment requires you to determine how leaders in your school community perceive your school's performance. Taking focus group discussions as raw data and analyzing them through the frame of your school's vision statements requires you to determine if your school's theories in use are well aligned with its espoused theories—an important initial step toward school improvement. Weaving community perceptions into the school improvement process is critical to building community support for change and advancement. Presenting your analysis and action plan is a crucial part of the process of leading for school improvement.

Process

- Working with your intern supervisor/principal identify a minimum of 7-9 leaders in the school community, community at large or business community who have a stake in this issue.
- Develop an interview protocol to be used in the discussion with the identified leaders, with the major question being "How well is our school implementing its vision statement?" Interview questions should also include school improvement areas related to achievement, inclusion and equity.
- You will establish a meeting date and location and invite participants to attend. Provide a clear, concise summary of the purpose of the focus group, the nature of questions, how data will be used, the right to confidentiality of responses and the time needed for the interview meeting.
- After conducting the focus group, build a matrix with questions and significant responses. Look for common themes that will be summarized in the paper, along with contrasting points of view, lack of clarity of the issue, and other significant concerns.

Your paper will be 8-10 pages long (excluding the title and reference pages) and include:

- an introduction that includes a thesis statement
- a profile of the school and community

- a summary of the methods used and results of the focus group discussion, including a matrix of responses with the participant roles clearly labeled;
- a summary table of themes gathered from focus groups;
- significant findings;
- recommended areas for improvement;
- a plan of action aimed to align espoused theories and theories in use based on the data collected; and a summary.

Be sure to conclude with a restatement of your thesis and a brief discussion of the implications of what you learned from the focus group experience and your action plan.

Performance Based Assessment #2-(200 Points)

II. Parental Involvement and Engagement

Purpose

Using Epstein’s framework of six types of parent involvement, and the 4 “C”s [capabilities, connections, confidence, & cognition] of the **Dual Capacity Framework**, conduct an assessment of the parent involvement program in your school, select TWO deficit areas, and then recommend how to improve them.

Process

The Written Assignment should include the following elements:

[a] Introduction

[a] Briefly describe, in summary terms, the current parent **involvement** program in your school—using Epstein’s framework—and then foreshadow the results of your assessment and your recommendations to improve two areas.

[b] Select those same two areas that need improvement. Discuss and analyze using the 4 ‘C’s’ of the **Dual Capacity Framework** and suggest how the School might close the gap between *what is* and *what could be*.

NOTE: In assessing the two areas of parent involvement, explain the degree to which the program addresses each type of parent involvement, the degree to which the efforts satisfy the needs of the parents, and the degree to which the efforts satisfy the needs of the school. Provide a short summary and assessment of the Dual Capacity Framework (DCF) to build capacity in your school.

[b] Program Improvement Recommendations

Write recommendations for improving TWO deficit areas of the program based on your assessment of the greatest needs for *improvement* moving towards *engagement*. The program improvement recommendation should include 4 areas:

[1] **Recommendations and Rationale**-Indicate your recommendations and why you are making the recommendations in the TWO identified areas and the ways in which they respond to your assessment. A useful way to establish the rationale is to conduct a discrepancy analysis in which you describe what **the ideal program** [what could/might be] would look like and how your current program compares [what is]/. Recommendations should feature a plan to include both DCF process and organizational changes.

[2] **Outcomes**-Specify in measurable terms **two types of outcomes**.

[a] *Process or implementation outcomes* describe major elements of what will change in the delivery of the program (e.g., the implementation of a new service, completing professional development efforts).

[b]-*Substantive outcomes* refer to changes in behavior (e.g., levels of parent commitment and involvement, and student achievement).

[3] Program Description-Describe the elements of your program changes for the TWO identified areas, and how they will be accomplished. Specify who will drive the essential attributes of your program by way of a program configuration matrix [e.g., Proposed change[s]; person[s] responsible; tentative timeline; etc.]

[4] Evaluation Plan-Create a Google Slide show (this will be changed into a PDF and dumped into Blackboard-more information will be forthcoming) that highlights the following:

[a] Summarizes Parent Involvement and identifies the two deficit areas

[b] Provides clear pathways from involvement to engagement

[c] Illustrates how the outcomes for the 2 areas will be accomplished

[d] connects to current research as support

The written assignment should be 10 pages (+/-) excluding the title and reference pages and the Google slides.
