CATALOG COURSE DESCRIPTION

COURSE DESCRIPTION

- A. **Prerequisites:** Admission to Elementary Education licensure program
- B. **University Catalog Course Description:** Examines child and family development and ways children, families, schools, and communities interrelate. Links children’s developing physical, social, emotional, and cognitive abilities to planning curriculum and developing instructional strategies.
- C. **Expanded Course Description:** N/A
- D. **Field Hours:** This course requires 15 hours of field observation. Additional details are in the ‘assignments’ section.

LEARNING OUTCOMES

This course is designed to enable students to:

1. detail the stages of typical human development in the domains of: (a) cognition, (b) language, (c) social/emotional and (d) physical in children ages 4-12.
2. identify interconnections between culture, family, community, and school, and the dynamic interaction between teachers, parents and community members necessary to promote children’s growth and learning.
3. read and reflect upon contemporary theories of human development and their relevance to educational practices in elementary schools.
4. understanding of current research on the brain, its role in learning, and implications for instruction
5. examine interaction of children with individual difference – including but not limited to substance abuse(s), trauma, child abuse and neglect and other adverse childhood experiences and/or family disruptions
6. observe the diversity of students and their families and demonstrate effective anti-bias educational approaches for use in classrooms with diverse learners.
7. identify and discuss teacher’s role in working with families in culturally diverse communities and fostering their engagement in their child’s education.

STANDARDS

PROFESSIONAL STANDARDS:

Upon completion of this course, students will have met the following professional standards:

InTASC Standards

Standard 1: The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 10: The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

NATURE OF COURSE DELIVERY

This course is structured to use multiple instructional formats. We will engage in synchronous online class sessions as well as several group and asynchronous activities. Class sessions will include small/large group discussions and tasks, lecture, and student led activities. The course require 15 hours of field experience.

This course uses Blackboard (**also denoted as Bb**) provided through the University. To access our Blackboard site, please use Mozilla Firefox (a free downloadable browser that is most compatible with the Blackboard software). Then go to nymasonportal.gmu.edu and log on using your GMU ID and password. For help logging onto Blackboard, contact Teaching and Learning with Technology [see <http://itusupport.gmu.edu> or call 703-993-8870]. **The instructor cannot assist you with log-on problems.**

Technical Requirements

To participate in this course, students will need to satisfy the following requirements:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
- Students must maintain consistent and reliable access to their GMU email and Blackboard as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of the course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - **Adobe Acrobat Reader:** <https://get.adobe.com/reader/>
 - **Windows Media Player:** <https://windows.microsoft.com/en-us/windows/downloads/windows-media-player/>
 - **Apple Quick Time Player:** www.apple.com/quicktime/download/

COURSE ASSIGNMENTS & EVALUATIONS

1. Assignment Descriptions

Weekly

a. Attendance and Participation (25 points total)

This course operates with the assumption that knowledge is socially constructed and the most meaningful learning opportunities are those where you have the opportunity to offer and explore diverse perspectives with peers. To do this **it is expected that you attend all scheduled classes and asynchronous/synchronous online meetings** outlined within the syllabus. This is especially important given the short timeframe of these courses. Absence from class to observe a religious holiday, to serve jury duty, or to participate in required military service, and medical emergencies are exceptions to the above policy. If you anticipate being absent for any of these reasons, please make arrangements at least 48 hours in advance. In addition, **you are expected to be on time to class** each week unless advance notice has been provided to the instructor.

Students are expected to contribute to both class and online discussion and activities as well as genuinely listen to peers as they do the same. The instructor will also call on students in order to maximize classroom opportunities to hear from ALL of the students enrolled in the course. Remember, participation is more than just talking. Participation should raise the level of academic discourse, which may include asking questions and encouraging exploration, consideration, and learning. To be active participants in class, you must complete all pre-assigned readings and tasks before the class session for which they are assigned. Additionally, cell phones are for emergency use only and it is expected that you will not use cell phones in class for purposes such as texting, social media, or phone calls.

b. Literature Circle Activities (30 points total)

There is a good deal of reading in this course, and it is your responsibility to read the assigned book and article selections every week. Just completing the readings is not enough to maximize your learning opportunities. Therefore, we will use literature circles to frame our weekly discussions of the readings and apply the readings to classroom activities. We will also use these opportunities to see connections from your readings ACROSS courses. You will take on the role of discussion leader/recorder once in addition to one of the main roles. Main roles rotate weekly.

Literature circles can be considered “book clubs”, however, there are two group projects that you will complete that require you to connect your course readings to the knowledge, interpretation and applications required to complete group activities. The first activity is a community mapping activity and the second is a home visit activity. More details about each assignment will be provided in class.

c. Observation Journals (20 points total)

You will complete observation journals to synthesize the course readings and observations made on school sites and critically reflect on how those literature/observation connections inform future teaching practice. Just completing the readings and observing in isolated actions is not enough to maximize your learning opportunities. Therefore, we will use observation journals to analyze and reflect on how your observation inquiries connect to evidence-based research and apply to developmentally appropriate practice.

Over the Semester

e. Applied Developmental Scenarios (25 points total)

The assignment is to integrate your course readings and field observations and apply your ecological and developmental knowledge to your future practice. You will highlight, analyze, reflect and respond to **ONE of the three** applied developmental scenarios (which will be provided in class). *As you review and explain aspects of each scenario you should consider the following as a part of each paragraph's discussion.*

- **Part 1: Highlighting** the ecological and/or developmental capacities at play in the scenario. In short, what is going on ecologically or developmentally for the students in the case and what is important for the educator to consider?
- **Part 2: Integrating and analyzing** the course readings to explain the relevance of the ecological and/or developmental capacities noted in the scenario. *[Keep in mind there are MANY ecological or developmental considerations within the scenario. Therefore, multiple course readings can apply to explain the capacity discussed.]* To show your knowledge and understanding of the course readings across the semester and how they apply to your work, you should use MULTIPLE course readings to explain the ecological and developmental capacities you noted in Part 1.
- **Part 3: Reflecting** as a developmentally appropriate educator on how you would address these ecological and developmental capacities for the students in the scenario or the scenario's classroom. Consider what you would do not only in your classroom walls but also outside your classroom (e.g., think about the ecology).

To assist with this assignment, you are going to be asked to complete a template noting how you are considering and/or addressing all course content within the scenario. Moreover, use the resources provided in class (e.g., developmental observation journal, debriefing conversations, mentor teacher dialogues, community mapping presentation materials, literature circles) as useful guides to thinking about the scenario. Remember how we debriefed on observations in class. Remember to approach the scenario as if you are the teacher and to highlight the research that supports your approaches to addressing the scenario. Then explain the relevance of the research/observation connection and the utilization of this information for a future teacher.

You will complete your response to **the one** scenario you choose in 5 pages double spaced. Include your completed template with your response (in one document) and please upload your response to Blackboard.

2. Assignment Points and Grading

<i>Course Outcomes</i>	<i>Assignments</i>	<i>Total Points</i>	<i>Due Date</i>

Grading Policy

At George Mason University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. The university-wide system for grading graduate courses is as follows:

Grade	GRADING	Grade Points	Interpretation
A+	=100	4.00	Represents mastery of the subject through effort beyond basic requirements
A	94-99	4.00	
A-	90-93	3.67	
B+	85-89	3.33	Reflects an understanding of and the ability to apply theories and principles at a basic level
B	80-84	3.00	
C*	70-79	2.00	Denotes an unacceptable level of understanding and application of the basic elements of the course
F*	<69	0.00	

**Remember: A course grade less than B requires that you retake the course. Note: "C" is not satisfactory for a licensure course; "F" does not meet requirements of the Graduate School of Education*

All CEHD/CHSS undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>.

* Although a B- is a satisfactory grade for a course, students must maintain a 3.00 average in their degree program and present a 3.00 GPA on the courses listed on the graduation application.

3. Other Assignment Expectations

- All written assignments **MUST** be **double-spaced, 1” margins and black, 12-point font** (Times New Roman, Calibri or Arial). **APA format is required.** If you do not have the APA Manual 6th edition, the OWL at Purdue is an excellent resource: <https://owl.english.purdue.edu/owl/resource/560/01/>.
- All assignments are to be completed by the date listed in the syllabus. Written work will not be accepted after the due date unless prior arrangements have been made with the instructor.
- All assignments must be submitted on the due date stated within the course calendar (see below) AND submitted to **Blackboard and Tk20 (IF NECESSARY)**.
- All assignments must be saved with your Last Name and Assignment Title (e.g., **Brown_AppliedDevelopmentalScenario**).

***Please Note:** The GMU Writing Center offers online support via email. They will provide feedback on your writing within one hour. Graduate and professional writing can be difficult; I encourage you to take advantage of this service. http://writingcenter.gmu.edu/?page_id=177

***Please Note:** *I reserve the right to add, alter, or omit any assignment as necessary during the course of the semester.*

CORE VALUES COMMITMENT

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU POLICIES AND RESOURCES FOR STUDENTS

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>)
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <https://ds.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources
