University Catalog Course Description

Enhances knowledge of and involvement in counseling research by introducing techniques and principles to design, implement, and evaluate research projects and program development in community and school settings.

Course Overview

This course will provide an introduction to research methods, questions, and trends in the field of counseling. Readings and discussions will be used to explore the research process and highlight its role in the field of counseling. Students will be required to write a research proposal. Students will be encouraged to plan a proposal that could serve as the basis for an independent study, dissertation, or development of a school- or community-based counseling program. Consistent with the mission of the Counseling and Development Program, the course strives to develop in students a perspective that incorporates a focus on multiculturalism, advocacy, leadership, social justice and/or internationalism.

Course Delivery Method

This course will be delivered online (76% or more) using synchronous and asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on January 20th at 7:20 pm.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

• High-speed Internet access with standard up-to-date browsers. To get a list of Black-board's supported browsers see:

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers

To get a list of supported operation systems on different devices see: https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - o Adobe Acrobat Reader: https://get.adobe.com/reader/
 - Windows Media Player:
 https://support.microsoft.com/en-us/help/14209/get-windows-media-player
 - o Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

Course Week:

Because asynchronous courses do not have a "fixed" meeting day, our week will start on Mondays, and finish on Sundays.

Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.

• <u>Log-in Frequency:</u>

Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least three times per week. In addition, students must log-in for all scheduled online synchronous meetings.

• Participation:

Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

• Technical Competence:

Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

• Technical Issues:

Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

Workload:

Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

• <u>Instructor Support:</u>

Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

• Netiquette:

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words*. Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

Accommodations:

Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

^{*}Additional readings provided in class

• Assignments and/or Examinations

Research Proposal

Students will select a research topic of interest and complete the three components of a research proposal: introduction, literature review, and methods sections. An annotated bibliography will be used to begin the development of the proposal and introduce students to literature on their topic of interest. Research topics are expected to reflect student interests <u>and</u> an aspect of the Counseling program mission, which emphasizes social justice, multiculturalism, advocacy, leadership, and internationalism in counseling.

Annotated Bibliography (CACREP Standard 2, 4)

The annotated bibliography is a one of the first steps in the research process. The purpose is to become familiar with literature related to your topic of interest. In this assignment, you will develop skills in locating appropriate articles, as well as summarizing and evaluating the content. Using your database search skills (and assistance as necessary) you will locate five research articles from peer-review (scholarly) journals. Review each article and write an annotation for each (between 150 and 170 words each, not including the citation). Following the article citation, each annotation should include a <u>summary</u> of the content *and* an <u>evaluation</u> of the article's usefulness and rigor. Include the <u>total word count</u> for the annotation at the end of each annotation. You must adhere to current edition of APA guidelines.

Introduction and Review of the Literature

The *introduction* component of a research paper introduces the reader to your research issue. The purpose of the introduction is to provide a clear and concise overview of your research study including: the research issue/problem in counseling, a rationale for examining this research issue, and the purpose of your study. The introduction should be one page. The *review of the literature* will allow you to integrate the knowledge developed from your annotated bibliography to more fully understand your research topic. The literature review should conclude with a restatement of your purpose and your research question(s). The literature review should be four pages. In addition to the one-page introduction and four-page review of the literature, you will include a title page and reference page(s). You must adhere to current edition of APA guidelines.

Methods Paper (Key Assignment: KPI A.8.a.1; CACREP 2.F.8.g & 2.F.8.i)

In this section, you will describe the research methods that you will use to address your research question. You will apply course material and additional readings as necessary. This section should allow other researchers to replicate your study. The methods section should be between two and three pages (not including title and reference pages). You must adhere to current edition of APA guidelines.

APA Style Quiz

To ensure understanding and retention of APA style, students will be given an APA style quiz. The quiz can be taken twice.

Reading and Content Quizzes

To ensure understanding of readings on research and content presented, students will be given open-book quizzes that can be taken twice. The quizzes are as follows:

- 1. Reading Quiz ER Ch. 1 & 2 and Qual./Quant. Designs (CACREP 3)
- 2. Reading Quiz ER Ch. 3
- 3. Reading Quiz ER Ch. 4 & 6 and Qual./Quant. Sampling
- 4. Reading Quiz ER Ch. 5 and Believability and PCL
- 5. Reading Quiz ER Ch. 7, Quant. Designs, & Mixed Methods (CACREP 3)
- 6. Reading Quiz ER Ch. 9 (CACREP 8)
- 7. Reading Quiz ER Ch. 8 & 10 (CACREP 3)
- 8. Reading Quiz ER Ch. 11

Writer Development

To facilitate the development of scholarly writing skills, all students will virtually visit the GMU Writing Center. Students may choose when and for what purpose based on what would be most helpful (e.g., meeting one-on-one to edit a specific paper, attending a workshop on APA format if available, etc.). Students are encouraged make plans early in the semester, but have until the end of class to turn in the confirmation of their Writing Center visit via Bb.

Participation & Reflection Activities

Students in Counseling courses are expected to demonstrate a high level of participation consistent with graduate-level education. Students are expected to: be on time and present for the duration of the class; demonstrate engagement (ask questions, share thoughts); be respectful and attentive; demonstrate preparedness for each class meeting; and demonstrate completion of online tasks. This component includes activities in and out of class, such as written reflections and memos. Points can be earned as follows:

- Memo #1 2 points
- Memo #2 2 points
- SJ Reflection 4 points
- CITI training certificate 4 points
- TSE Reflection 4 points
- Action Research and Program Evaluation Reflection 6 points
- Attending synchronous sessions 10 points (2 points per session)
- Participating meaningfully in synchronous sessions 10 points (2 points per session)

Professional Dispositions

See https://cehd.gmu.edu/students/polices-procedures/

Students must adhere to program professional dispositions: https://cehd.gmu.edu/assets/docs/forms/Professional%20Dispositions.pdf

Professional Dispositions Assessment

Professional Dispositions are assessed in all required courses. The minimum score (benchmark) is based on the level of the course, as described below.

Level of Assessment	смнс	sc	Minimum Score
	602, 609, 606, 601, 525, 603,	602, 606, 609, 601, 525, 603,	
Basic	604, 656	604, 656	2
	654, 652, 658	613, 611, 626	
Intermediate	608, 750, 660, 628, 619, 610,	608, 751, 660, 628, 619, 610,	3
intermediate	797	797	3
Advanced	792, 793	794, 795	4

Professional Dispositions assessments are scored as follows:

- **4: Consistently Evident** The student demonstrates the disposition all or almost all of the time. This rank is considered exceptional, particularly for students who are at the beginning of their program. Students who are advanced in the program (i.e., in their last year of the program and enrolled in Internship I or II) should except to achieve this rank.
- **3: Frequently Evident** The student demonstrates the disposition often or most of the time. It is expected that students in the middle of the program (i.e., usually the second year for full time or third year for part time students) will achieve this rank. This reflects that they have moved beyond the initial phase of counselor training and are developing well towards being a professional counselor.
- 2: Sometimes Evident The student demonstrates the disposition sometimes or inconsistently. It is expected that students at the beginning of the program (i.e., first year for most students) will achieve this rank. Students at the beginning of the program are expected to be developing towards these professional dispositions as a part of their counselor training and preparation for their future as a professional counselor.
- 1: Seldom Evident The student demonstrates the disposition rarely or not at all. In some instances, this may also indicate a harmful demonstration of professional disposition(s). Students at the beginning of their program may achieve this rank, which can be developmentally appropriate as they learn the expectations for students and future professional counselors. Should this occur, students should expect to meet with their advisor, who will assist them in addressing the area of concern.
- N/A: Not Applicable An instructor or supervisor may use this to note that they did not have the opportunity to observe the disposition or that it was not relevant in the given context. This is most likely to occur at the beginning of the program when some dispositions may not be germane to the particular class.
