**University Catalog Course Description**

Focuses on the development of the capacity of teachers in IB schools to adopt appropriate teaching strategies and techniques instrumental in ensuring program learning outcomes are achieved. Furthermore, participants develop a deep understanding of the critical relationship between teaching and learning.

**Please ensure you read the whole syllabus. It contains important information that will help you complete the course smoothly.**

## Course Overview

This course is an online seminar. Our work together will primarily be through dialogue with each other. Instead of utilizing lectures, each class will depend on the ideas that we collectively develop as we engage in ongoing discussion about international education and the International Baccalaureate. Your own experiences as teachers, readers, writers, and learners, along with the course readings, will be an important part of our developing collective understandings.

While this is an online course, it is vitally important for each student to complete readings on a weekly basis. Typically, a course meets once weekly for approximately 2.5 hours. For each of the modules, you should spend this amount of time on the website in addition to your weekly readings and work. Successful students in an online learning environment are proactive, self-regulated, and manage their time well.

## Course Delivery Method

This course will be delivered online using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @gmu.edu) and email password. The course site will be available **on or before January 6, 2022 by 7 pm EST**.

**Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.**

## *Technical Requirements*

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:  
[https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#supported-browsers](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)
- To get a list of supported operation systems on different devices see:  
[https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#tested-devices-and-operating-systems](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
  - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
  - Windows Media Player: <https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
  - Apple Quick Time Player: [www.apple.com/quicktime/download/](http://www.apple.com/quicktime/download/)

- It is possible that students may need a headset microphone for use with Skype or Zoom should conferencing with the instructor be necessary and individual technology will not permit clear audio.

### *Expectations*

This online course is **not self-paced**. You will be expected to complete one module every week. Completing a module involves reading, participating in discussions with the whole class, and completing any accompanying assignments associated with that module. You are asked to engage deeply with the subject matter, to take risks in your thinking, and to listen to and learn from your classmates.

- Course Week:  
Because asynchronous courses do not have a “fixed” meeting day, our week will **start** on **Thursday** and **finish** on **Wednesday**.
- Log-in Frequency:  
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least **3** times per week.
- Participation:  
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:  
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:  
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:  
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:  
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette:  
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.*

Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations:

Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

### **Learner Outcomes or Objectives**

This course is designed to enable students to do the following:

1. Understand the critical relationship between the choice of instructional strategies and the influence on learning;
2. Deliberate on the choice of instructional strategies across IB programs to achieve learner outcomes;
3. Understand the importance of range and balance in the selection of teaching strategies;
4. Make instructional decisions to support programmatic and learner outcomes, including meaningful and relevant inquiry;
5. Design supervisory and management techniques that support learners in the planning and production of a personal project;
6. Select strategies and construct learning environments that support student reflection, inquiry and problem solving;
7. Demonstrate mastery of differentiated instruction to support diverse learning communities;
8. Select and evaluate appropriate teacher and learner resources to support program learning outcomes;
9. Engage in ongoing critical reflection of professional practice.

### **Professional Standards (NBPTS / ASTL / IB Teacher Award / IB Areas of Inquiry)**

Upon completion of this course, students will have met the following professional standards:

#### **National Board of Professional Teaching Standards (NBPTS)**

Proposition 1: Teachers are committed to students and their learning.

Proposition 2: Teachers know the subjects they teach and how to teach those subjects.

Proposition 3: Teachers are responsible for managing and monitoring student learning.

Proposition 4: Teachers think systematically about their practice and learn from experience.

Proposition 5: Teachers are members of learning communities.

ASTL 6: Teachers attend to the needs of culturally, linguistically and cognitively diverse learners.

ASTL 7: Teachers are change agents, teacher leaders, and partners with colleagues and families.

#### **IB Teacher Award Strands:**

**Purpose (0101):** Schools implement IB programmes to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

**Student Support (0202):** Learning environments in IB World Schools support student success.

**Teacher Support (0203):** Learning environments in IB World Schools support and empower teachers.

**Culture through Policy Implementation (0301):** Schools develop, implement, communicate and review effective policies that help to create a school culture in which IB philosophy can thrive.

**Coherent Curriculum (0401):** Learning in IB World Schools is based on a coherent curriculum.  
**Students as Lifelong Learners (0402):** Learning in IB schools aims to develop students ready for further education and life beyond the classroom.

**Approaches to Teaching (0403):** IB programmes encourage approaches to teaching that create learning experiences that are shown to be meaningful to the school community.

**Approaches to Assessment (0404):** Learning, teaching, and assessment effectively inform and influence one another.

### IB Standards:

#### *Area of Inquiry: 2 Teaching and Learning*

- E. What learning strategies are appropriate in supporting effective implementation of the programs (e.g. PYP, MYP, DP and IBCP)?
- F. What teaching strategies and learning activities support program learning outcomes?
- G. How does the IB enable the learning needs of all students to be supported?
- H. What learning resources support practice and how are they selected?

#### *Area of Inquiry 4: Professional Learning*

- N. What is reflective practice and how does it support program implementation and enhance practice?
- O. What is the role of collaborative working practice in supporting learning outcomes?
- P. How do the Program Resource Center and other similar information and communication technologies enable program practitioners to professionally engage with each other?

## Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

### **VIA PERFORMANCE-BASED ASSESSMENT SUBMISSION REQUIREMENT**

#### **(Instructional Activity Analysis/Teaching Learning Episode)**

Every student registered for any Teaching Culturally, Linguistically Diverse & Exceptional Learners program course with a required performance-based assessment is required to submit this assessment and the Fieldwork Log of Hours and Evaluation Form to VIA through Blackboard (regardless of whether the student is taking the course as an elective, a one-time course or as part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in VIA through Blackboard. Failure to submit the assessment to VIA (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required VIA submission, the IN will convert to an F nine weeks into the following semester.

### **FIELDWORK REQUIREMENT**

#### **Field Experience Record and Evaluation**

The **field experience is a required component** of the teacher preparation program at George Mason University. All students will complete a minimum of **15 hours in field experience** for this course. If you are taking more than one course in a semester, you must complete the required hours per course (e.g., two courses requiring 15 hours of field experience would mean a total of 30 hours). This means you may be completing different tasks for different courses in the same placement. Materials and products used for one course cannot be used for another course (e.g., videos, lesson

plans, activities, etc.). Documentation of your field experience is required as well as a signed statement from your field experience teacher(s) or supervisor(s).

**\*TCLDEL Fieldwork Log of Hours and Evaluation Form must be uploaded to VIA on Blackboard.** The form is located on Blackboard in your TCLDEL organization site in the “Fieldwork” page. For ASTL students – forms can be located on the ASTL Blackboard Organization site under the “Program Materials” link.

**In-service teachers:** Field experience can often be conducted in your own classroom if you have access to the population of students required for the PBAs and other assignments. Please consult your instructor if you have questions about the viability of your classroom for fieldwork in this class. You must register for your school as your field experience site in the online Field Experience Request form available here: <https://cehd.gmu.edu/endorse/ferf>. You will check the box indicating that: *“I will arrange my own field experiences (observations and/or case studies) because I am a full-time contracted school system employee and will complete field experience at my workplace.”* The deadline to submit your field experience placement is Week 2 of class. Failure to do so will result in an unsatisfactory grade for your fieldwork assignment. If you are taking this course as part of a cohort program, please indicate “TCLDEL Cohort” on your request form FIRST, then select your program and placement location. HINT: Cohort courses have section numbers beginning with “6F” (e.g. EDUC 511.6F1). **If you are an international student, please submit your fieldwork request to Amanda Jenkins at [ajenki4@gmu.edu](mailto:ajenki4@gmu.edu).**

**Pre-service teachers:** If you are not currently working in a K-12 school, you will need to be placed in an appropriate fieldwork setting to complete your required PBAs and fieldwork hours. You must request a fieldwork site using the online Field Experience Request form available here: <https://cehd.gmu.edu/endorse/ferf>. You will check the box indicating that: I will need George Mason (Clinical Practice Specialist) to arrange a placement for my field experiences (including observations and/or case studies). The deadline to submit your field experience placement is Week 2 of class. Failure to do so will result in an unsatisfactory grade for your fieldwork assignment. If you are taking this course as part of a cohort program, please indicate “TCLDEL Cohort” on your request form, then select your program and placement location. HINT: Cohort courses have section numbers beginning with “6F” (e.g. EDUC 511.6F1). **If you are an international student, please submit your fieldwork request to Amanda Jenkins at [ajenki4@gmu.edu](mailto:ajenki4@gmu.edu).**

**Virginia state or county cohort teachers:** Cohort Students are required by their district and by TCLDEL to complete field experiences as required by the Virginia Department of Education for this program. Each district has arranged for candidates to be able to work at K-12 grade levels in order to complete all licensure requirements. Please contact your district coordinator for further information.

## TCLDEL Fieldwork Log of Hours and Evaluation Assessment

Status of Student Work		
	1	0
<b>Fieldwork Log of Hours demonstrates 15 hours of fieldwork completed, with a teacher-mentor or supervisor signature.</b>	Complete	Not Complete

NOTE: Failure to submit documentation of successful completion of your fieldwork in a timely manner will make you ineligible to register for coursework, be recommended for licensure, or receive a grade for this course.

### Assignments and/or Examinations

**All assignments should be turned in on the due date indicated in the schedule below via Blackboard.** The submission deadline for assignments is 11:59 pm EST of the due date indicated for each assignment. All writing must be typed, in a legible 12-point font, with one-inch margins, and double-spaced. **All writing assignments should be submitted as Word documents, or a word processor based format.** Writing quality (including mechanics, organization, and content) is figured into the overall points for each writing assignment, so please proofread carefully. Late papers and projects will not be accepted without penalty, except for in extraordinary circumstances. I am happy to clarify and lend assistance on projects and assignments, but please contact me within a reasonable timeframe.

Assignment Description	Grade %	Outcomes Addressed	Due Date

\*More detailed descriptions of assignments are provided later in the syllabus. Additional rubrics can be found in Blackboard.

- **Grading**

At George Mason University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. The university-wide system for grading graduate courses is as follows:

Grade	GRADING	Grade Points	Interpretation
A+	=100	4.00	Represents mastery of the subject through effort beyond basic requirements
A	94-99	4.00	
A-	90-93	3.67	
B+	85-89	3.33	Reflects an understanding of and the ability to apply theories and principles at a basic level
B	80-84	3.00	
C*	70-79	2.00	Denotes an unacceptable level of understanding and application of the basic elements of the course
F*	<69	0.00	

Note: “C” is not satisfactory for a licensure course; “F” does not meet requirements of the School of Education

See the University Catalog for details: <http://catalog.gmu.edu/policies/academic/grading/>

### Professional Dispositions

See <https://cehd.gmu.edu/students/policies-procedures/>

### Honor Code & Integrity of Work

**Integrity of Work:** TCLDEL students must adhere to the guidelines of the George Mason University Honor Code (<https://catalog.gmu.edu/policies/honor-code-system/>). The principle of academic integrity is taken very seriously and violations are treated as such.

*Violations of the Honor Code* include:

1. Copying a paper or part of a paper from another student (current or past);
2. Reusing work that you have already submitted for another class (unless express permission has been granted by your current professor **before** you submit the work);
3. Copying the words of an author from a textbook or any printed source (including the Internet) or closely paraphrasing without providing a citation to credit the author. For examples of what should be cited, please refer to: <https://owl.english.purdue.edu/owl/resource/589/02/>
4. You may also not “reuse” fieldwork hours. Each placement must have the hours for that course completed and documented. You may be at the same site, but the same hours may not be counted towards multiple courses.

### Late Work Policy

At the graduate level all work is expected to be of high quality and submitted on the dates due. *Work submitted late will be reduced one letter grade for every day of delay.* Because we live in uncertain times, if you have any extraordinary circumstances (think flood, earthquake, evacuation) that prevent you from submitting your work in a timely manner, it is your responsibility to contact the instructor as soon as possible after the circumstances occur and make arrangements to complete your work. *It is up to the discretion of the instructor to approve the late/makeup work.*

## **Course Withdrawal with Dean Approval**

For graduate and non-degree students, withdrawal after the last day for dropping a course requires approval by the student's academic dean, and is permitted only for nonacademic reasons that prevent course completion (Mason catalog). *Students must contact an academic advisor* in APTDIE to withdraw after the deadline. There is no guarantee that such withdraws will be permitted.

## **Online Participation/Attendance Policy**

Students are expected to participate in **all** online discussions. Not participating in an online discussion module will be reflected with a zero for the week and as an absence. **Students with two absences will receive a one-letter grade deduction in their final grade; students with three absences will receive a two-letter grade deduction in their final grade; students with four absences will not receive credit for the course.**

## **Incomplete (IN)**

This grade may be given to students who are in good standing, but who may be unable to complete scheduled course work for a cause beyond reasonable control. The student must then complete all the requirements by the end of the ninth week of the next semester, not including summer term, and the instructor must turn in the final grade by the end of the 9th week. Unless an explicit written extension is filed with the Registrar's Office by the faculty deadline, the grade of IN is changed by the registrar to an F (Mason catalog). Faculty may grant an incomplete with a contract developed by the student with a reasonable time to complete the course at the discretion of the faculty member. The faculty member does not need to allow up to the following semester for the student to complete the course. A copy of the contract will be kept on file in the APTDIE office.

## **GMU E-MAIL AND WEB POLICY:**

Mason uses electronic mail ([www.gmu.edu/email](http://www.gmu.edu/email)) to provide official information to students. Examples include notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account and are required to activate that account and check it regularly (Mason catalog). All communication sent for this course will be sent to your Mason email account.

All communication sent for this course will be sent to your Mason email account. I will respond to emails as soon as I can, but always within 24 hours unless there is an out of office message up explaining a delay.

## COURSE PERFORMANCE EVALUATION

**All assignments should be turned in on the due date indicated in the schedule below via Blackboard.** The submission deadline for assignments is 11:59 pm EST of the due date indicated for each assignment. All projects must be typed, in a legible 12-point font, with one-inch margins, and double-spaced. All writing assignments should be submitted as Word documents, or a word processor based format. Writing quality (including mechanics, organization, and content) is figured into the overall points for each writing assignment, so please proofread carefully. Late papers and projects will not be accepted without penalty, except for in extraordinary circumstances. I am happy to clarify and lend assistance on projects and assignments, but please contact me within a reasonable timeframe.

### DETAILED ASSIGNMENT INFORMATION

#### 1. Informed Class Participation/Module Discussion (15%)

**\*\*Due: Weekly**

Informed class participation is evidenced by thoughtful, thorough completion of **all** activities in the Modules. Your discussion and other work should reflect deep learning from readings and any other online content. Your work within each module must reflect thorough preparation, which will be evidenced by critically analyzing, asking questions, making observations, and sharing reflections as well as by offering specific examples for incorporating learning from the course into current and/or future teaching practice.

The main participatory activity for this course will be engaging in conversation with classmates via the Discussion Board but there will be other weeks we will engage using Flipgrid. Information for Flipgrid will be included in the Introductory Email/Letter. The Discussion Board and Flipgrid provides opportunities for students to engage with course content, ask questions, explore ideas, and reflect on learning. It is not acceptable to wait until the end of the week to post your comments as you will not be able to engage fully in the discussion, and others will not have an opportunity to engage with your thoughts and comments. **Each module will begin on a Thursday and run through the following Wednesday.** You must start posting for each module by **Sunday at 11:59 (EST)** so that the class will have Monday through Wednesday to engage in conversation. Discussion Board or Flipgrid for each module will be “open” only during the week that the module is active. You will always be able to go back and read earlier responses, but you will only be able to physically post in that week’s discussion during the week we are working on it.

Responses to my post/query should be at least one full, considered paragraph. You should cite texts in parentheses from course readings that are referred to in the post. Full APA citations are required for texts outside of readings in the Course Schedule. Please do not put citations/links that take someone to a login page; a full APA citation allows someone else to find the source easily. Please try to avoid direct quotations in the Discussion Board/Flipgrid. Instead, paraphrase scholars and readings and weave connections together with your own thinking.

Responses to classmates is an opportunity to extend the dialogue and allows you to pose thoughtful questions concerning the weekly topics. Your response to your peers’ can be anywhere from a few

sentences to several paragraphs and can also offer additional resources if applicable. All responses must be thoughtful and respectful. You must respond to at least two peers during each module. Postings should be distributed during the discussion period (not concentrated all on one day or at the beginning and/or end of the period).

\*Please note: It is acceptable to post your responses to my initial questions at the same time. However, your responses to your colleagues should be distributed throughout the course of the module and not done at one fall swoop.

A rubric for grading the Informed Class Participation/Module Discussion is posted on Blackboard.

## **2. Strategy Video (15%)**

**\*\*Due: February 9**

Students will teach a new or existing strategy that they are using in their classroom to their fellow students, sharing it across the class via video presentation **with either audio or captioning**. In addition to explaining how it can be used in their own classroom and context, students should show how it can be applied to at least one other IB program (PYP, MYP, DP, or CP) and how it might improve instruction, learning outcomes, or other objectives at that level/in that subject. Videos should be between 5 and 7 minutes long and also consider possible modifications for students with language needs as well as special education learners. Students cannot share strategies touched upon in the readings in Module 3. Students should also consider differences in depth and learning styles when planning for this assignment. A rubric will be posted on Bb. Students can use any video platform they choose but all videos will also be shared with the class so please take care that choices are shareable.

## **3. Multimedia Inquiry Padlet/Prezi/Flipgrid: Conventions of the Rights of the Child (25%)**

**\*\*Due: March 2**

This assignment is designed to get students working with the topics contained in the CRC and focus them on social justice and human rights. Examples of topics include: poverty, adequate standard of living, health, goals of education, preservation of identity, children of minorities, or discrimination. **You must have your topic approved by the instructor no later than February 10, and only one student will be permitted per topic. Meetings may be set up to discuss topics.**

Working independently, students will utilize either Padlet, Prezi, or Flipgrid to design a presentation with at least three audio components on his or her selected topic. Students can obtain free accounts of each program. Presentations will be shared with the entire class online and students should ensure that presentations are able to be accessed. The goal of the presentation is for you to 1) learn a new tool to use in your classroom and 2) to teach your fellow classmates about the specific topic. The presentation should be viewed as one that could be presented to a class of students on your current level. Please consider this as something that you might be able to use in your classroom situation. You may design it in conjunction with any subject – literature, math, history as applicable and useful.

Students should have a minimum of *five* sources for your presentation that are developmentally appropriate. **Please note the presentation is not necessarily a summary of the topic, rather it should identify information that will be helpful to you as a teacher.** In addition, supply at least *three* online resources that your colleagues can draw upon to find further resources and information about your topic. The rubric and additional information will be located on Blackboard.

#### **4. Action Plan (10%)**

**\*\*Due: March 16**

This assignment is meant to get you thinking about how you will implement teaching human rights in your classroom shortly in the future or in the coming year. It is meant for you to consider HRE in your own classroom, contexts, and school situations and is mindful of both your developmental level and national context. Students should develop an action plan that provides ways to implement HRE in the classroom and connect it to your specific IB subject, goals, and aims. The Action Plan will be evaluated on:

1. Connections to HRE and human rights concepts as studied in the course;
2. Connections to the goals, aims, and philosophy of the IB programme;
3. Suitability for student developmental age and national context and;
4. Clarity in connection to curricular goals.

A template and rubric will be provided on Blackboard.

#### **5. Teaching/Learning Episode (PBA) (35%) \*\*Due: April 6**

Each participant will select one instructional activity to record (visually). The activity must be at least 30 minutes in duration and no longer than 60 minutes. Each student will supply a unit plan (PYP and MYP) or detailed course outline (DP or IBCP) in which the teaching/learning episode occurs. In a critical paper (10 – 12 pages) that meets graduate-level expectations, the participant will describe, analyze and reflect on:

- a. The episode's (activity's) instructional context and purpose
- b. Instructional planning and delivery that responds to a diversity of learners (differentiation)
- c. Evidence of learning through inquiry and critical thinking (documentation of student learning)
- d. Barriers to learning/instruction (What didn't work and why?)
- e. Contributions and implications of research with respect to relevant issues in teaching and learning
- f. Overall analysis of the educational outcomes including connection to inquiry or IB methodology (reflection)

The rubric for the PBA is below.

## PBA Rubric

<b>Teaching Learning Episode/Instructional Activity Analysis</b>				
<i>Criteria:</i>	<b>Exceeds Standards</b> <b>4</b>	<b>Meets Standards</b> <b>3</b>	<b>Approaching Standards</b> <b>2</b>	<b>Does not meet Standards</b> <b>1</b>
<b>Purpose of Instructional Activity</b>  <i>Area of Inquiry 2;</i> <i>Domain E, F</i>  <i>IB Strand 0403</i>	Clear and comprehensive description of the purpose of the teaching-learning episode.
