ELED 556: Literacy Teaching and Learning in Diverse Elementary Classrooms
Summer 2022

Section C02 – 3 credits
On-campus F2F 50% Sync 50% Instructional Method

Professor: Dr. Lilly LePelch
Office hours: By appointment
Office Location: Thompson 1800
Office Phone: Please email **Cell:** (571) 762-3491
Email: vdiazpez@gmu.edu
Email name: Vilma Liliana Diaz Pezzutti

Class Meeting Time

Monday through Thursday 4:30-6:35pm

- **Fairfax Campus:** Monday and Tuesday - Location: **Thompson Hall L003**
- **Synchronous:** Wednesday and Thursday

Dr. LePelch's Personal Meeting Room

Join Zoom Meeting

Meeting ID: 948 611 2837

Course Overview

Not applicable

Prerequisites

Admission to the program; must be taken in programmatic sequence. Must have taken ELED 555.

Course Description

This course is one of a pair of courses that provide a research-based introduction to literacy teaching and learning for children in grades K-6. The emphasis of this course is literacy and language processes and development; connections among cultures, families, and literacy; and literacy integration in curriculum. Field experience is required.

Relationship to Program Goals and Professional Organizations

This course addresses priorities in the GSE master plan including literacy, technology, and diversity. It is designed as an integral component of the new Elementary Program for teachers of grades PK-6, and

meets new state and national guidelines and standards including Interstate New Teacher Assessment and Support Consortium (INTASC); International Society for Technology in Education, (ISTE); and International Reading Association (IRA) Standards for Literacy Professionals and Paraprofessionals. This course will build closely upon themes taught in the first two elementary program courses and will integrate ideas from other elementary methods courses.

Nature of Course Delivery

This hybrid course will be delivered on-campus (50%) and synchronous (50%) format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available prior to the first day of class.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers

- To get a list of supported operation systems on different devices see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week: Our course week will begin Monday and Tuesday on campus, and our synchronous meetings take place on Wednesday and Thursday as indicated on the Schedule of Classes.

- Log-in Frequency: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 5 times per week. In addition, students must log-in for all scheduled online synchronous meetings.

- Participation: Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload: Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support: Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- Accommodations: Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes

This course is designed to enable students to:

1. Students will demonstrate an understanding of reading as a cognitive, sociocultural, psychological, and linguistic process.
2. Students will reflect on their own literacy learning histories and connect these to current theories of reading instruction.
3. Students will observe and assess the reading development and needs of elementary learners.
4. Students will plan literacy lessons that demonstrate an understanding of connections between phonemic awareness, word recognition, fluency, and comprehension strategies and proficient reading.
5. Students will plan literacy lessons that promote creative and critical thinking.
6. Students will plan lessons that facilitate reading fluency, reading comprehension, and vocabulary development across content areas.
7. Students will plan lessons using strategies in literal, interpretive, critical, and evaluative comprehension.
8. Students will survey technological tools, print materials, and other resources for teaching reading.
9. Students will describe the literacy needs of diverse learners, including English Language Learners and students with other special needs, and they will adapt lesson plans to meet these needs.
10. Students will explore and explain the role of families, communities, and schools in children's literacy learning.
11. Students will understand the importance of promoting independent reading and reading reflectively by selecting quality literature, including fiction and non-fiction, at appropriate reading levels.

- Students will demonstrate the ability to assess individual and group reading needs in a classroom situation and organize classroom instruction to facilitate the literacy development of all learners.

Professional Standards

Upon completion of this course, students will have met the following professional standards:

INTASC Core Standards

- The teacher understands the **central concepts**, tools of inquiry, and structures of the discipline he or she teaches and can create learning experiences that make these aspects of subject matter meaningful for students.
- The teacher understands **how children learn and develop**, and can provide learning opportunities that support their intellectual, social, and personal development.
- The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to **diverse learners**.
- The teacher understands and uses a **variety of instructional strategies** to encourage students' development of critical thinking, problem solving, and performance skills.
- The teacher uses an understanding of individual and group **motivation** and behavior to create a learning environment encourages positive social interaction, active engagement in learning, and self-motivation.
- The teacher uses knowledge of effective verbal, nonverbal, and media **communication** techniques to foster active inquiry, collaboration, and supportive interaction in the classroom.
- The teacher **plans** instruction based upon knowledge of subject matter, students, the community, and curriculum goals.
- The teacher understands and uses formal and informal **assessment** strategies to evaluate and ensure the continuous intellectual, social, and physical development of the learner.
- The teacher is a **reflective practitioner** who continually evaluates the effects of his/her choices and actions on others (students, parents, and other professional in the learning community) and who actively seeks out opportunities to grow professionally.

Assignments

1. **Participation (20%)**

DUE: Weekly

This class will be interactive, involving much dialogue and active participation. You are expected to come to every class having completed the readings. Also, you are expected to participate in a professional manner in all aspects of class. This portion of the grade also includes small assignments completed in class. In addition, **you are expected to be on time to class** each session unless 48 hours advance notice has been provided to the instructor.

Preparation prior to class is key. You are expected to be prepared for each class, which means having completed all assigned readings and tasks for that class.

2. **Spelling Stage Presentation 1 (Grades K- 2) – (10%)**

DUE: Class 8 – Tuesday, July 7th or 07/07/22

Students will be divided into groups which will study one stage of spelling development in depth. The group will present to the rest of the class: (a) the distinguishing characteristics of the stage, (b) examples of sorts that might be used (prepare a sort for the class to complete), and (c) the developmental progression within the stage. The presentation will be online. Prepare some sort of document to share with classmates that they can use as a “cheat sheet” for your stage.

3. **Spelling Inventory (Grades 3- 6) – (20%)**

DUE: Class 9 – Monday, July 11 or 07/11/22

Spelling inventories are informative assessments that are easy to implement. They provide the teacher important information about students' language development. For this assignment, you will conduct a spelling inventory in an elementary classroom. With the students' spelling inventories, you will complete a **Feature Guide** for each student, a **Spelling-by-Stage Classroom Organization Chart**, and a **Classroom Composite**. Using this information, you will put students in word study groups, explaining the primary need of each group and the instruction you would use to meet this need. You will turn in the feature guide, the classroom organization chart, the classroom composite, and the groups with explanations of your grouping and instructional decisions. I will explain and model all of these in class.

4. Interactive Writing Lesson – Lesson plan + Reflection – (25%)

DUE: Class 11 – Wednesday, July 13th or 07/13/22; Reflection DUE: Class 17 – Monday, July 25th or 07/25/22

Interactive writing is an activity that allows you to “share the pen” with students and compose writing together. In this activity, the teacher and the students model writing. A real benefit of this instructional technique is that it allows the teacher to provide immediate feedback and teaching. That is, the instruction you provide is responsive to the students' actions, so you can provide immediate instruction that is right at their level (what they are “using but confusing”). You will complete your interactive writing lesson with a small group of students. The lesson should be 10-15 minutes and should be videotaped. Each lesson will receive praise and constructive feedback from colleagues – lesson review groups. You will turn in your lesson plan and reflect on the lesson.

5. Reading, Writing, Spelling Assessment (PBA) – (25%)

DUE: Class 19 – Wednesday, July 27 or 07/27/22

This assignment requires you to apply your knowledge of literacy development and literacy content through an in-depth assessment of one child's literacy and the instructional program you would implement for that child based on the assessment. This analysis is the performance-based assessment (PBA) for both literacy classes (ELED 555 and ELED 556).

As you begin your new placement, select a target child. Across the next month, you will assess the child's reading, writing, and spelling ability.

Reading: create opportunities to listen to the child read. Keep a log of when you read together. Gather data on the child's reading ability, including level, fluency, self-correction, strategy use, and comprehension. You may use anecdotal records, running records, interviews, discussions, reading inventories, or any other form of assessment you see fit. You will present a snapshot of the child's reading ability at one point in time. Supporting documents should be attached as appendices and cited in the text. Include a research-based instructional plan.

Spelling: based on the writing samples collected, information from a spelling inventory, and other observational data, identify the student's developmental spelling level as well as the word

study strategies they use. Supporting documents should be attached as appendices and cited in the text. Include a research-based instructional plan.

Writing: collect at least three writing samples. Be sure they are dated. The samples should include different types of writing. Avoid having all three be from the same source (e.g., 3 journal entries or 3 prompted stories). Based on these samples you will assess the child's writing ability. This will include the developmental level as well as specific examples of their strengths in form, function, and process. Supporting documents should be attached as appendices and cited in the text. Include a research-based instructional plan.

Evaluation

Diversity of assessments used, accuracy of developmental levels assigned and appropriateness of instructional suggestions based on content from class discussions and texts will determine grade. Scoring rubric will be provided.

TK20/Performance-Based Assessment(s) Submission Requirement

Every student registered for any Elementary Education course with a required TK20 performance-based assessment (designated as such in the syllabus) must submit this/these assessment(s) (**ELED 556: Reading, Writing, Spelling Assessment**) to Tk20 through '*Assessments*' in Blackboard. Failure to submit the assessment(s) to Tk20 (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless this grade is changed upon completion of the required Tk20 submission, the IN will convert to an F nine weeks into the following semester.

Grading Scale

A = 100-91 B = 90-81 C = 80-71 D = 70-61 F = below 60

Professional Dispositions

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).

- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <https://ds.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:

As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/>.
