

**College of Education and Human Development
Division of Special Education and disAbility Research**

Summer 2022

EDSE 514 D01 6V1 6Y1: Orientation and Mobility for Students with Visual Impairments

Section: D01; CRN: 42990

Section: 6V1; CRN: 43900

Section: 6Y1; CRN: 43866

2 – Credits

Instructor: Dr. Kimberly Avila	Meeting Dates: 5/23/22 – 7/3/22
Phone: 703.993.5625	Meeting Day(s): 6/24 (4-9pm); 6/25 (8am-5pm)
E-Mail: kavila@gmu.edu	Meeting Time(s): N/A
Office Hours: By appointment	Meeting Location: Online except for stated meeting days – Fairfax; Finley 119
Office Location: Finley 203A and online through web-conference	Other Phone: N/A

Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Quick Links:

[Assignments](#) [Course Schedule](#)

Prerequisite(s):

(Recommended)EDSE 511 (may be taken concurrently)

Co-requisite(s):

None

Course Description

Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses

techniques in developing orientation skills and basic mobility instruction. Emphasizes motor and concept skill development. Field experience is required.

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress in your program. Students in Special Education and Assistive Technology programs can contact the Special Education Advising Office at 703-993-3670 or speced@gmu.edu for assistance. All other students should refer to their assigned program advisor or the Mason Care Network (703-993-2470).

Advising Tip

Did you know there are scholarship opportunities for graduate students in CEHD? For more information, visit <https://cehd.gmu.edu/students/funding/scholarships>.

Course Delivery Method

Learning activities include the following:

1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using an asynchronous format via the Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on 5/23/22.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see: [Browser support \(https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support/#supported-browsers\)](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support/#supported-browsers)

To get a list of supported operation systems on different devices see: [Tested devices and operating systems](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems) (https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - [Adobe Acrobat Reader](https://get.adobe.com/reader/) (<https://get.adobe.com/reader/>)
 - [Windows Media Player](https://support.microsoft.com/en-us/help/14209/get-windows-media-player) (<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>)
 - [Apple Quick Time Player](http://www.apple.com/quicktime/download/) (www.apple.com/quicktime/download/)

Expectations

- **Course Week:**
Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday, and finish on Sunday. Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- **Log-in Frequency:**
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week. In addition, students must log-in for all scheduled online synchronous meetings.
- **Participation:**
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:**
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:**

Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

- **Workload:**
Please be aware that this course is not self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the Class Schedule section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support:**
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- **Netiquette:**
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- **Accommodations:**
Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Service

Learner Outcomes

Upon completion of this course, teacher candidates/students will be able to:

1. Demonstrate knowledge of the background of the field of orientation and mobility, including historical and legal foundations.
2. Demonstrate knowledge of the role of the orientation and mobility instructor, and will define the roles of other professionals who support learning in orientation and mobility.
3. Describe and demonstrate basic travel techniques for people with visual impairment, including human guide, trailing, stairs, doorways, and protective techniques.
4. Demonstrate knowledge of motor development, concept development, and sensory systems and be able to describe how these components affect orientation and mobility.
5. Demonstrate basic knowledge of a variety of orientation and mobility devices, both low and high-tech, for persons with visual impairment and the pros and cons of these systems.
6. Demonstrate knowledge of the impact of low vision on the process of orientation

and mobility.

7. Identify appropriate adaptations in travel techniques for learners with multiple disabilities and for those who are preschoolers.
8. Describe and demonstrate appropriate techniques for the instruction of daily living skills to individuals with visual impairment.
9. Describe and demonstrate appropriate techniques for the instruction of physical education to individuals with visual impairment.

Professional Standards

This course is part of the Virginia Consortium for Teacher Preparation in Vision Impairment Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Special Education: Visual Impairments PK-12. (Council for Exceptional Children [CEC] and the Interstate Teacher Assessment and Support Consortium [InTASC]). Upon completion of this course, students will have met the following professional standards: CEC Standard 1: Learner development and individual learning differences (InTASC 1,2) & CEC Standard 5: Instructional planning and strategies (InTASC 7,8).

Additional Readings

Posted on Blackboard

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

VIA Performance-Based Assessment Submission Requirement

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA.

For EDSE 514, the required PBA is (NO ASSESSMENT REQUIRED FOR THIS COURSE). Please check to verify your ability to upload items to VIA before the PBA due date.

Assignments and/or Examinations

Performance-based Assessment

(VIA submission required)

For EDSE 514, the required PBA is (NO ASSESSMENT REQUIRED FOR THIS COURSE).

College Wide Common Assessment

(VIA submission required)

For EDSE 514, the required PBA is (NO ASSESSMENT REQUIRED FOR THIS COURSE).

Field Experience Requirement

A field experience is a part of this course. A field experience includes a variety of early and ongoing field-based opportunities in which candidates may observe, assist, and/or teach. Field experiences may occur in off-campus settings, such as schools (CAEP, 2016). Below are REQUIRED PROCEDURES FOR ALL STUDENTS ENROLLED IN THIS COURSE.

Complete the online EDSE Field Experience form. This online form will be sent to your GMU email from EDSEfld@gmu.edu on the first day of the semester. Click on the link and complete the form as soon as possible. ALL students should complete the required form, as this information is required by the state. Please direct any questions about the form to Dr. Kristen O'Brien at EDSEfld@gmu.edu.

If you are a full-time contracted school system employee and will complete the field experience at your worksite with administrator and instructor approval, you will be asked to specify the school at which you will be completing the field experience.

If you request a field experience placement, you will receive information via your GMU email about your assigned internship placement from the Clinical Practice Specialist in the College's TEACHERtrack Office. Check your GMU email regularly for important information regarding your field experience. Follow all instructions for the necessary Human Resource (HR) paperwork required to access the assigned field experience placement. Note that you may NOT arrange your own field experience placement.

2. View the EDSE Field Experience Introduction presentation. On the first week of classes and prior to representing George Mason in off-campus settings, your instructor will show a video presentation or provide a link to the presentation, which includes important information about the registration process for EDSE field experiences and tips for a successful field experience. After the presentation, sign the document provided by your instructor to indicate that you have watched the presentation and are aware of the EDSE field experience professionalism expectations.

3. Document your field experience hours. Your instructor may provide you with access to field experience documentation forms to use in documenting the hours and activities completed in your field experience placement. Your instructor will provide more directions on how to use and submit the documentation form.

4. Complete the field experience end-of-semester survey. Towards the end of the semester, you will receive an email from EDSEfld@gmu.edu with a link to an online survey. This brief survey asks you to report about important features of your field experience placement.

5. Students must be able to perform the essential functions of the practicum site assigned with or without an accommodation. Contact Disability Services (ods@gmu.edu) for questions related to accommodations.

Other Assignments

Weekly Participation: Interactive Responses, Online Discussions, and Reflections

This course requires weekly participation on Blackboard. Each week, responses will be required for students to reflect upon information, analyze implications, and collaborate with each other. Online participation includes interactive responses from recorded lectures, videos, and readings, discussions on posted content, and other activities. Point distribution will vary each week but will include initial responses to discussion questions and activities that are a minimum of 200 words (or as specified for each assigned task), follow up to other responses, and completion of assigned questions or activities. Please use appropriate terminology and respectful, professional communication in all course correspondence.

Tactile Map Project

Students will select an environment to create a tactile map that is accessible to a student who is blind or visually impaired. The tactile map may represent either an indoor or outdoor setting, such as a cafeteria, classroom, park/playground, recreational facility, general layout of a school, etc. We will explore methods for creating tactile maps in this course, these should be included in your tactile representation. Students may use technologies or appropriate/durable materials to create this project. Symbols and a legend should be included when necessary. Braille labels may be used by students who are proficient in braille, but this is not required for students who have not taken braille courses yet.

Students will be required to share their tactile map project during our face-to-face weekend at GMU and will participate in a familiarization teaching activity. Please be sure to bring your tactile map with you. I will not keep your projects, so please also provide a digital photo of your project for grading and documentation purposes.

O&M Lesson Observation

Arrange for an observation of a student who is blind/visually impaired during an O&M lesson with a qualified O&M instructor and a student or client who is blind or visually impaired. Lesson observations may be with a student/client of any age. Please arrange this observation well in-advance, as this course is on a shortened timeline.

Write a 3-4 page paper describing the following:

- Introduction
 - Name of O&M instructor and qualifications
 - Pseudonym of student/client
 - Short summary of the student/client's vision condition and functioning
 - Lesson setting (e.g. school, community, facility, residential, urban, etc.)
- The goal and purpose of the lesson
- Summary of the lesson, including methods and instructional strategies used, tools and devices, and travel techniques
- Your reflection: what did you learn from this lesson and how has it shaped your understanding of O&M instruction?

Grading Rubric

# of points	Item
___/10	Introduction: Instructor name; pseudonym of student, student summary, lesson setting
___/5	Goal and purpose of the lesson
___/15	Lesson summary
___/15	Lesson reflection
___/5	Spelling and grammar; APA format: 1-inch margins, references, double spaced
___/50	Total

Participation: Face-to-face Weekend; Including Demonstration of Technical Skills

Our face-to-face weekend is scheduled for June 24-25 at GMU's Fairfax campus. Active participation is required for this session. Students will engage in basic technical skills in orientation and mobility and will be asked to demonstrate proficiency with these techniques.

Graduate Candidate Assignment: Research Summaries

Each graduate student will complete a research analysis and synthesis assignment of two scholarly research articles in the field of orientation and mobility.

Summary One:

Students will select one of the posted research articles on Blackboard, write a summary of the research (criteria specified below) and post to the discussion board on Blackboard. Students must comment and communicate with others on the discussion board.

Summary Two:

Students will search through their university libraries online and choose a journal research article related to orientation and mobility. Then each will use the format specified below to synthesize the research and post to the discussion board. The *Journal of Visual Impairment and Blindness* and *International Journal of Orientation and Mobility* will have ample research to choose from in this field, but students may also find articles from other peer reviewed and scholarly publications. Students must comment and communicate with other students' research summaries on the discussion board.

Research summaries must include the following:

- Citation (in APA format, 7th edition)
- Purpose of study and/or research questions: (What questions were the researchers trying to answer; usually stated at the end of the introduction)
- Participants: What were the characteristics of participants and how many were in the study?
- Method: how did the researchers conduct the study
- Results: summarize what the study found

- Your perspective: Please share your thoughts on the research: Do you recognize limitations with the research? Is it practical? How could the research be expanded upon and/or improved?
- NOTE: do NOT just summarize the abstract found at the beginning of articles. Abstracts do not include much of the necessary information; read through each article thoroughly.
- Summary lengths will vary but must be a minimum of 300 words.

Graduate Research Summary Rubrics

Summary One

Task	Points
Chose 1 of the posted articles	1
Posted summary of at least 300 words and included the above sections	5
Accurately interpreted the research	2
Engaged in discussion and feedback with other students online	2
Total	10

Summary Two

Task	Points
Chose an article from a scholarly, peer-reviewed journal	1
Chose an article related to an O&M concept	1
Accurately synthesized the research with the specified criteria in at least 300 words	6
Engaged in discussion on the DB with other students	2
Total	10

Assignment Summary

Task	Points	Due
Weekly participation: interactive responses, online discussions, and reflections	100	Weekly
O&M Lesson Observation	50	June 12, 2022
Tactile map project	30	June 24, 2022
Participation in-person O&M skills lab	90	June 24-25, 2022
Graduate Candidate Assignment: Research Summaries	20	July 3, 2022
Total	290	

Course Policies and Expectations

Attendance/Participation

Attendance during the face-to-face weekend class at the Fairfax campus of George Mason University is mandatory. No absence from this weekend will be excused. In the event a circumstance arises that an individual candidate cannot attend

all or part of this session, a withdrawal from the course will be recommended. Each week asynchronous content and participation will be assigned via Blackboard with participation points available.

Late Work

Only in the case of serious personal/family emergency or illness will late assignment submission be considered. You must communicate via email with the instructor as soon as possible if there is an emergency circumstance. Late work for any reason is subject to loss of points or may not be accepted at all.

Grading

Grade	Points	Percent
A	269-290	93-100%
A-	261-268	90-92%
B+	255-260	88-89%
B	240-254	83-87%
B-	232-239	80-82%
C	217-231	75-79%
C-	203-206	70-74%
F	≤202	69% and below

***Note:** The George Mason University Honor Code will be strictly enforced. See [Academic Integrity Site \(https://oai.gmu.edu/\)](https://oai.gmu.edu/) and [Honor Code and System \(https://catalog.gmu.edu/policies/honor-code-system/\)](https://catalog.gmu.edu/policies/honor-code-system/). Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own new, original work for this course or with proper citations.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See [Policies and Procedures \(https://cehd.gmu.edu/students/policies-procedures/\)](https://cehd.gmu.edu/students/policies-procedures/). Students are expected to exhibit professional behaviors and dispositions at all times. Professional dispositions are an essential function of a special educator’s job, indicating that these dispositions are critical to develop and assess in special education licensure programs. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least three points in each student’s program – a self-evaluation at the start of their program, a self-evaluation at the mid-point of their program, and a university supervisor’s evaluation during internship. In special education

graduate licensure programs, the initial self-evaluation is completed in a designated course (EDSE 501), the mid-point self-evaluation is completed in designated courses (EDSE 627, EDSE 661, and EDSE 616), and the internship evaluation is completed by instructors in EDSE 783, EDSE 784, and EDSE 785. In addition to these three designated evaluation times, instructors may complete instructor-rated disposition assessments other times throughout the program. When dispositions are assessed, it is important that for areas where a positive disposition is rated as “not proficient,” the student takes steps to grow as an educator. See <https://cehd.gmu.edu/epo/candidate-dispositions>.

Class Schedule

*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Week	Task	Readings, assignments, and due dates
Week 1 May 23-29	Course and syllabus overview The field of orientation and mobility <ul style="list-style-type: none"> • Historical perspectives of O&M • O&M overview: professionals, clients, and students; tools and techniques • Referrals • Policies and regulations • Collaboration and TBVIs roles and responsibilities 	Video lectures: syllabus overview and Intro to O&M <i>Partners in O&M</i> : Ch. 1 and appendices A and B Additional readings on Blackboard Due May 29: Introductions on Blackboard, interactive responses, and participation discussion 1
Week 2 May 30-June 5	Introduction to familiarization and tactile environmental mapping O&M in early childhood <ul style="list-style-type: none"> • Concepts and skills • Developmental considerations • Tools and techniques • TBVIs role with family and O&M service providers • Promoting safety 	Video lecture: O&M in early childhood and tactile maps <i>Partners in O&M</i> : Chs 2, 3, and 4 Linked on Bb: <ul style="list-style-type: none"> • Guidelines and Standards for Tactile Graphics • APH: Guidelines for design of tactile graphics Additional readings and resources posted on Blackboard

Week	Task	Readings, assignments, and due dates
		<p>Due June 5: Interactive responses and participation discussion 2</p>
<p>Week 3 June 6-June 12</p>	<p>O&M in the school years</p> <ul style="list-style-type: none"> • Concepts and skills • Developmental considerations • Tools and techniques • TBVIs role with family and O&M service providers • Promoting safety 	<p>Video: O&M in school years lecture</p> <p><i>Partners in O&M: Chs 4, 9, and 11</i></p> <p>Additional readings and resources posted on Blackboard</p> <p>Due June 12: Interactive response and participation discussion 3</p> <p>Due June 12: O&M observation reflection</p>
<p>Week 4 June 13-19</p>	<p>O&M through transition and adulthood</p> <ul style="list-style-type: none"> • Concepts and skills • Tools and techniques • TBVIs role with students, families, O&M service providers, and rehabilitation specialists • Safety considerations • O&M and liability • Independent living 	<p>Guiding techniques: videos posted on Bb.</p> <p>Video: lecture on O&M transition and adulthood</p> <p><i>Partners in O&M: Chs 6, 7, and 8</i></p> <p>Finding Wheels: Let's Talk Nondriving and Low Vision Driving for Teens and People in Their Early 20s</p> <p>Additional readings and resources posted on Blackboard</p> <p>Due: June 19 Interactive response and participation discussion 4</p>
<p>Week 5 June 20-26</p>	<p>Independent Living Skills Overview</p>	<p>Videos, readings, and resources posted on Blackboard</p>

Week	Task	Readings, assignments, and due dates
	Physical Education, Sports, Recreation, and Leisure	<p>Gross Motor Development Curriculum for Children with Visual Impairments</p> <p>Gross Motor Skills Curriculum videos and rubrics</p> <p>Due: Tactile map project Bring to in-person session on Friday June 24</p> <p>Due: June 26 Interactive response and participation discussion 5</p>
O&M Skills Lab: June 24-25	O&M skills In-person Session	Due: Tactile map project Bring to in-person session on Friday June 24
Week 6 June 27-July 3	Research and the field of orientation and mobility Course conclusion	Due: July 3 Due: Graduate students only: Online response and discussion: Research and O&M

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: See [Core Values](http://cehd.gmu.edu/values/) (<http://cehd.gmu.edu/values/>).

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code. See [Honor](#)

[Code and System](https://catalog.gmu.edu/policies/honor-code-system/) (<https://catalog.gmu.edu/policies/honor-code-system/>).

- Students must follow the university policy for Responsible Use of Computing. See [Responsible Use of Computing](http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/) (<http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See [Disability Services](https://ds.gmu.edu/) (<https://ds.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to VIA should be directed to viahelp@gmu.edu or <https://cehd.gmu.edu/aero/assessments>.
- Questions or concerns regarding use of Blackboard should be directed to [Blackboard Instructional Technology Support for Students](https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/) (<https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>).

Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking:

As a faculty member, I am designated as a “Non-Confidential Employee,” and must report all disclosures of sexual assault, sexual harassment, interpersonal violence, and stalking to Mason’s Title IX Coordinator per [University Policy 1202](#). If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as the [Student Support and Advocacy Center \(SSAC\)](#) at 703-380-1434 or [Counseling and Psychological Services \(CAPS\)](#) at 703-993-2380. You may also seek assistance or support measures from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.

For additional information on the College of Education and Human Development, please visit our website [College of Education and Human Development](http://cehd.gmu.edu/) (<http://cehd.gmu.edu/>).

**Appendix
Assessment Rubric(s)**

Criteria	Exemplary 9-10 points	Average 7-8 points	Unsatisfactory 0-6 points	Points Earned
Material selection	Student chose tactile materials that are optimal for graphic and provide ideal tactile definition for the user	Student chose tactile materials that are adequate for graphic and provide sufficient tactile definition for the user	Student chose tactile materials that are inappropriate for graphic and do not provide enough definition	
Graphic adaptation	Tactile graphic is clear and organized; graphic was ideally adapted, spaced and arranged; braille labels are transcribed properly when necessary; a legend is optimally used when appropriate	Tactile graphic is adequately organized and relatively clear; adaptations, spacing and arrangement are adequate; braille labels are transcribed properly when necessary; a legend is adequately used when appropriate	Tactile graphic is poorly organized and constructed; graphic adaptations, spacing and arrangement is inadequate or inappropriate; legend is omitted or improperly identified	
Familiarization and presentation; photo and description	Student provided optimal teaching strategies to use for a student who is b/vi A clear photo of the graphic was submitted Overview information provided with graphic	Student provided adequate teaching strategies to use with a student who is b/vi A clear photo of the graphic was submitted Overview information provided with graphic	Teaching strategies were inappropriate or inadequate for student who is b/vi Photo and/or overview were not provided. Feedback was not provided on at least 2 other students' tactile graphics.	

Criteria	Exemplary 9-10 points	Average 7-8 points	Unsatisfactory 0-6 points	Points Earned
	submission. Feedback provided to at least 3 other students' tactile graphics.	submission. Feedback provided to at least 2 other students' tactile graphics.		

VI Consortium Syllabi Addendum

Disability Accommodations

Students with disabilities who seek accommodations in VI Consortium courses must be registered with their university disability services office and provide documentation of approved accommodations privately to instructors in a timely manner each semester. No accommodations will be implemented before official notification from the student's home Consortium university is received. Accommodations will be implemented as stated in the official notification from the university.

Honor Code

All students participating in BVI courses must adhere to their university honor code and will be asked to pledge adherence to the honor code. Additionally, all work submitted must be the students' own work and contain proper citations and any work submitted for a grade must be completed during the academic semester in which it is submitted for grading. Any deviations from the home university honor code will be reviewed by that university's governing body. The VI Consortium agrees to accept the actions or sanctions imposed by the home university's governing body.

Field Experiences

Many VI Consortium courses require field and practical experiences in schools or other settings. Students may not arrange their own field experiences. All students must comply with their home university protocol for participation in field experiences, including:

- Immediate and timely correspondence with the home university field placement office to submit field placement request procedures by home university deadlines;
- Timely compliance with submitting applications, documentation, background checks, and credentialing by the university and participating school system and/or agency for field work within the required deadlines; and

- Compliance with provisions and protocol for engaging in field experiences with the selected school, student(s), teachers, and administration.

No field experience placements will be made until all Consortium and home university requirements have been successfully met. Students may be removed from field placement settings if deemed necessary by the Consortium or home university.

Identification, Course, and Resource Access

While students apply to and register through their Consortium universities, all Consortium BVI courses operate through Mason and all VI Consortium students are given Mason credentials and a Mason G number. Students must keep record of their Mason G number, as this will serve as their identification should they ever pursue education or employment directly through Mason. All courses require Mason credentials to log on, as does access to the electronic library and other resources used in courses. All students are also given Mason electronic mail accounts. Please activate and maintain this account, as course and program information are supplied through this account.

Advising

All students taking BVI courses must have current advising and a program of studies to ensure course enrollment follows the advised program for individual candidate circumstances.

Copyrighted Material and Intellectual Property

Materials (e.g., case studies, technology, books, articles, videos, and other media) shared through BVI courses may contain those with copyright and/or intellectual property protections. Students may not share any materials or media outside of this course, on social media, or other means. References with proper citations may be made to refer to these materials and media in all uses, whether in class or elsewhere.

Live Course Sessions and Course Recordings

Generally, synchronous courses are recorded and stored for future access should students experience a disruption to internet or power service during live sessions. Under no circumstances are these recordings to be shared with anyone. Likewise, live sessions and recordings may not be audited or accessed by individuals not currently enrolled in the specified courses. Please also do not disclose personal information about yourself or anyone else during live and recorded sessions, including messages submitted in chat functions. Any personal information needing to be relayed to the instructor must be done so privately.

Full Attention

Students must give 100% of their attention during synchronous class meetings and are expected to be fully engaged. Students may not drive or supervise others during class time or engage in non-course related activities that divert their attention away from the class.
