University Catalog Course Description

Covers the biological, psychological, emotional, and sociocultural factors related to human sexual behaviors. Includes topics such as anatomy, gender, sexual response, sexual behaviors, sexual orientation, relationships, reproduction, contraception, sexual difficulties and solution, sexually transmitted infections, and sexual coercion.

Course Overview

This course explores the health aspects of human sexuality.

Course Delivery Method

This course will be delivered online using an asynchronous format via the Blackboard learning management system (LMS) housed in the MyMason portal. You will log in to the Blackboard course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on August 24 at 12:01 AM.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers

To get a list of supported operation systems on different devices see:

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course. [SEP]

- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player: <https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week: Because asynchronous courses do not have a "fixed" meeting day, our week will start on **Wednesday at 12:01am** and finish on **Tuesday at 11:59pm**.
- Log-in Frequency: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least two times per week.
- Participation: Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. **Late work will not be accepted based on individual technical issues.**
- Workload: Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities, and assignments due.
- Late Work: Late work will not be accepted.
- Instructor Support: Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times. One-on-one sessions will take place on Zoom.
- Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Describe the biological components of human sexuality (e.g., anatomical, physiological, human sexual response), including the male and female reproductive systems, and sexual dysfunctions.
2. Explain key health concepts in human sexuality across the lifespan.

3. Identify and compare the different methods of contraception, and sexually transmitted infections and diseases.
4. Analyze the biological, psychological, emotional, and sociocultural influences that shape sexual attitudes, values, and behaviors.
5. Discuss the diversity of sexual behaviors and lifestyles.
6. Identify sexual health resources available for youth and adults on diverse sexual behaviors.

In addition, supplementary readings will be posted on Blackboard throughout the semester.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard).

This course will be graded on a point system, with a total of 300 possible points.

Assignments and/or Examinations

Requirements	Possible Points
<p><u>Quizzes</u></p> <p>Each Blackboard quiz is composed of 10 multiple-choice, true-false, and matching questions. The tests are based on the content of the text and other supporting materials provided on BB. To best prepare for the quizzes, students should read all materials and watch associated lectures prior to starting the quiz.</p> <p>Students will have 10 minutes to complete each quiz.</p> <p>18 quizzes will be given throughout the semester, and the lowest three quiz scores will be dropped in the calculation of the final grade.</p>	<p>150</p>
<p><u>Short Essay Questions</u></p> <p>There will be 10 short essay questions based on the content of the text and other materials. Each short essay question will be graded 0-5 points with a total of 50 possible points that will be factored directly into the overall grade. The short essay questions will measure students' abilities to apply and analyze subject material.</p>	<p>50</p>

<p><u>Reflection Paper</u></p> <p>This paper is a chance to reflect on the materials presented and discussed throughout the semester. Two to three prompts will be provided on Blackboard at least one week prior to the due date. The paper should be 2-3, double-spaced, pages. More information on the Reflection Paper will be posted on Blackboard during the semester.</p>	<p>50</p>
<p><u>Discussion Forums</u></p> <p>Each student is expected to post a comment in 5 different discussion forums. Each forum is worth up to 10 points and require a minimum of two posts (up to 5 points per post).</p> <p>At least one post must be a response to another group’s post. The contribution should be meaningful and contribute to the ongoing discussion. The responses should not repeat anything that was said in posts by other students and should not just be a “I agree” or “me too” type of post that has no additional information or thoughts.</p> <p>Once a student posts, they must wait at least 48 hours before they post again. If the second post is made less than 48 hours after the first post, the student will receive an automatic 0 on their second post.</p> <p>Points will be given based on the quality and length of the post. Each post must be at least 150 words in length. Quality includes spelling and grammar. Points will be deducted for excessive spelling and grammatical mistakes.</p> <p>Students may post as often as they like per forum, but the only two posts that will be graded are each student’s first two posts.</p>	<p>50</p>
<p><u>Total Points</u></p>	<p>300 points</p>
