ECED 403.002 Inclusive Curriculum for Young Learners:
Planning Instruction and Guidance
3 Credits, Spring 2023, In-Person
1/23/2022-5/17/2023; Tuesdays/ 7:20–10:00 pm
Peterson 1106, Fairfax Campus

Faculty

Name: Chelseann Christopher, PhD

Office Hours: By appointment

Office Location: Thompson Hall 1101, Fairfax Campus

Office Phone: (703) 993-3844 Email Address: <u>cchris12@gmu.edu</u>

Prerequisites/Corequisites

None

University Catalog Course Description

Explores principles of learning, curriculum development, and relationship between assessment and instruction. Examines role of play and active exploration in learning. Addresses guiding children's behavior and the role of families and culture in children's learning. Notes: Field experience required.

Course Delivery Method

This course will be delivered using a lecture and/or hybrid.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

- 1. Describe theoretical frameworks guiding early childhood curriculum approaches and practices.
- 2. Use principles of learning and knowledge of individual children's development, abilities, and prior knowledge to plan meaningful instruction and select, develop, and use appropriate curricula, methodologies, and materials, including media and contemporary technologies, that support and enhance student learning and reflect the research on unique, age-appropriate, culturally relevant curriculum and pedagogy for diverse young children, including English learners, children who are gifted and talented, and children with disabilities.
- 3. Describe and use the principles of online learning, online instructional strategies, and technology to enhance curriculum development and student learning.
- 4. Describe strategies to modify and manage learning environments, experiences, and instructional practices that are sensitive to culturally, linguistically, and ability diverse learners, including English learners, children who are gifted and talented, and children with disabilities.
- 5. Identify teaching methods that promote student engagement, student academic progress, and effective preparation for the Virginia Standards of Learning assessments.

- 6. Explain the role of families in child development and the child's education, strategies for communicating with families regarding the social and instructional strengths and needs of children, and strategies for increasing family engagement in student learning at home and school and in the preparation of the Virginia Standards of Learning assessments.
- 7. Explain how meaningful, intentional instruction and curriculum activities with diverse young children in informal, play-mediated, and/or discipline-specific (i.e., drama, English, mathematics, movement, music, history and social science, science, computer technology, visual and performing arts) settings help learners develop knowledge and basic skills, sustain intellectual curiosity, problem-solving skills, and specific learning outcomes as reflected in the *Virginia's Early Learning and Development Standards* and the *Virginia Standards of Learning*.
- 8. Explain how to plan for differentiated instruction and flexible groupings in prekindergarten through third-grade classrooms to meet the needs of diverse young learners at different stages of development, abilities, and achievement, including English learners, children who are gifted and talented, and children with disabilities.
- 9. Explain how individualized education programs (IEPs) are developed and implemented by multidisciplinary teams.
- 10. Identify intervention strategies and techniques, including tiered instruction, that facilitate functional and developmentally appropriate cognitive, social and emotional, speech and language, motor, and self-help development for diverse young children, including English learners, children who are gifted, and children with disabilities.
- 11. Discuss service delivery options for children with disabilities that support success and functionality in all settings where same-age, typically developing peers would be located.
- 12. Describe various school crisis management and safety plans and how to create a safe, orderly, inclusive classroom environment in a developmentally appropriate manner that engages individual children in meaningful learning activities and social interactions.
- 13. Describe research-based classroom and behavior management techniques, classroom community building strategies, positive behavior supports, and individual interventions, including techniques that promote emotional well-being and teach and maintain behavioral conduct and skills consistent with norms, standards, and rules of the educational environment.
- 14. Describe diverse, age-appropriate classroom and behavior management approaches based on culturally responsive behavioral, cognitive, affective, social, and ecological theory and practice that support professionally appropriate practices that promote positive redirection of behavior, development of social skills, and development of self-discipline.
- 15. Identify age-appropriate techniques, informed by learning principles and knowledge of child development, that maintain a positive learning environment, build responsibility, and teach social and emotional skills, including self-discipline and self-regulation, to individual children and groups of children to assist with behavior management.
- 16. Identify specific instructional strategies matched to individual students to ensure differentiation to support diverse learning needs.
- 17. Exhibit standards of professionalism, ethical standards, and personal integrity with children, families, and professionals in the field experience setting and in interactions with classmates, the instructor, the field experience coordinator, and others.
- 18. Use writing as an instructional and assessment tool to generate, gather, plan, organize, and to communicate for a variety of purposes; integrate correct written conventions (i.e., grammar, usage, mechanics, and spelling); and format using current APA style.

Professional Standards

Interstate Teacher Assessment and Support Consortium (InTASC) Teaching Standards, Division of Early Childhood (DEC) Initial Practice-Based Professional Preparation Standards for Early Interventionists/Early Childhood Special Educators (EI/ECSE), National Association for the Education of Young Children (NAEYC) Professional Standards and Competencies for Early Childhood Educators, Virginia Professional Studies Endorsement Competencies, Virginia Early Childhood Special Education Endorsement Competencies, and Virginia Early/Primary Education Endorsement Competencies

Upon completion of this course, students will have met the following professional standards:

DEC Initial Practice-Based Professional Preparation Standards for EI/ECSE

<u>DEC 1.1</u> Candidates demonstrate an understanding of the impact that different theories and philosophies of early learning and development have on assessment, curriculum, intervention, and instruction decisions.

<u>DEC 1.2</u> Candidates apply knowledge of normative sequences of early development, individual differences, and families' social, cultural, and linguistic diversity to support each child's development and learning across contexts.

NAEYC Professional Standards and Competencies for Early Childhood Educators

<u>NAEYC 1b</u> Understand and value each child as an individual with unique developmental variations, experiences, strengths, interests, abilities, challenges, approaches to learning, and with the capacity to make choices.

NAEYC 1c Understand the ways that child development and the learning process occur in multiple contexts, including family, culture, language, community, and early learning setting, as well as in a larger societal context that includes structural inequities.

<u>NAEYC 1d</u> Use this multidimensional knowledge—that is, knowledge about the developmental period of early childhood, about individual children, and about development and learning in cultural contexts—to make evidence-based decisions that support each child.

Virginia Professional Studies Endorsement Requirements

Curriculum and Instruction Classroom and Behavior Management Supervised Clinical Experiences

Virginia Early Childhood Special Education Endorsement Competencies

Instructional Programs for Early Intervention Behavior Management Supervised Experiences

Virginia Early/Primary Education PreK-3 Endorsement Competencies Methods

Context		
Part 3: Developing a Lesson Plan	May 2	30
Compiled Instructional Plan due to VIA through Bb	May 16	
TOTAL		100

• Assignments and/or Examination

Field Experience (10 points)

This course requires a minimum of 15 hours field experience. Students will complete their field experience in an inclusive prekindergarten to third-grade education environment. To initiate this assignment, students will visit https://cehd.gmu.edu/endorse/ferf and complete the Online Field Experience Registration. On the form, they will be asked to indicate how their placement will be arranged. Students have two options for fulfilling their field placement requirement.

Option 1:

 Students may arrange their own field experience if they are a full-time contracted school system employee and are able to complete their field experience in an inclusive prekindergarten through third-grade classroom at their workplace.

Option 2:

- Students may request placement in an inclusive prekindergarten through thirdgrade classroom setting through the field placement office https://cehd.gmu.edu/endorse/ferf.
- o The field placement office will arrange placement for students in a specific school

with a specific teacher.

Documenting the Field Experience (5 points)

Students will upload the *Field Experience Placement Approval Form*. In this form, they will provide a statement confirming that they have completed the <u>Online Field Experience Registration</u> and they will provide information to the instructor about where and how they will complete the field experience (*1 point*).

Upon completion of their field experience hours, students will provide documention of their experience (4 points).

- If they completed the field experience within their own setting (requires instructor approval), they will upload the *On-the-Job Placement Documentation Form* to Blackboard (Bb). This form can be found on Bb and requires verification from the assistant principal or principal on site.
- If they completed a field placement other than where they work, they will upload the *Field Experience Documentation Form* to Bb. This form can be found on Bb and requires verification from the mentor teacher on site.

Students will exhibit standards of professionalism, ethical standards, and personal integrity throughout the field experience process with the instructor, field experience coordinator, classroom teacher, students, administrators, etc. Students will refer to Bb for DEC) Initial Practice-Based Professional Preparation Standards for EI/ECSE and NAEYC Professional Standards and Competencies for Early Childhood Educators.

Field Experience Interview (5 points)

Students will interview the host teacher if the student is completing the field experience in another teacher's classroom or conduct a reflective analysis of the learning contexts if student is the lead teacher. Students will bring results (e.g., notes, bullets, memo, field placement observation log) of their interview or reflective analysis to class for discussion.

Instructional Plan (65 points)

This assignment is a key assessment and must be submitted to VIA through Blackboard (Bb).

In this assignment, students will use knowledge of individual learning differences, including cultural, linguistic, and ability diversity, to develop learning objectives as well as instructional strategies that include augmentative, alternative, or assistive technologies to individualize instruction for a child with developmental, learning, physical, or linguistic differences within the context of the general education environment and curriculum.

During the initial meeting times of the field experience, students will select a child with a developmental or learning difference, including linguistic (e.g., English or dual language learner) and/or ability (e.g., gifted and talented and/or disability) diversity. They will work with this child throughout their field experience and create an instructional plan that targets the needs of their focus child and addresses Virginia's Early Learning and Development Standards (ELDS) or Virginia Standards of Learning (SOLs).

Part 1: Learning Theories and Instructional Strategies (15 points) (DEC 1.1)

To demonstrate their understanding of the impact of early learning and development theories on assessment, curriculum, intervention, and instruction decisions, students will write a two-to four-page paper that provides an overview of a chosen theory and an explanation of how the theory informs assessment, curriculum, intervention, and instruction decisions. Students will do the following:

- Describe the major tenets of a selected theory as related to development in the early years (birth through age eight years).
- Explain how the theory informs assessment, curriculum, intervention, and instruction decisions.
- Explain how the theory informs classroom management and guiding children's behavior. Students will cite current research from the course textbook, class discussions and handouts, and/or other relevant professional/peer-reviewed sources to support the information they provide. They will use in-text citations and include a reference list per APA style guidelines.

Part 2: Introducing and Considering the Child and the Classroom Context (20 points)

Students will gather information about their field experience classroom and their focus child by working with the teacher, family, and/or other professional colleagues, as appropriate, to grasp a better understanding of the classroom context and to consider each child as an individual with unique developmental variations, experiences, strengths, interests, abilities, challenges, approaches to learning, and with the capacity to make choices.

Step 1 (NAEYC 1c). Students will reflect on their understanding of the ways that child development and the learning process occur in multiple contexts, including family, culture, language, community, and early learning setting, as well as in a larger societal context that includes structural inequities by analyzing the knowledge attained about the child as they gathered information during field experience. They will discuss how the following interactions contributed to their understanding of the child's development and learning processes:

- Provide an overview of the school and classroom context.
- Include an overview of the behavior management program(s) or systems.
- Describe how families are included in the school and classroom communities.
- Explain how obtaining this knowledge about children's context (i.e., school, classroom, family, child) informs educators' understandings of the children's development and learning.

Step 2 (NAEYC 1b). Students will present the information gathered about the child and describe the individual child by doing the following:

- Provide background information (e.g., age, grade level, learning differences, special services), including cultural diversity, linguistic diversity (e.g., English or dual language learner), ability diversity (e.g., gifted and talented areas, identified disabilities), and other types of diversity.
- Provide a summary of information regarding the following:
 - o the child's specific interests;
 - o individual abilities and child's approach to learning; and

o cultural, linguistic, and ability factors that should be considered when planning curriculum and instruction for the focus child.

Students will cite current research from the course textbook, class discussions and handouts, and/or other relevant professional/peer-reviewed sources to support the information they provide. They will use in-text citations and include a reference list per APA style guidelines.

Part 3: Developing a Lesson Plan (30 points) (DEC 1.2, NAEYC 1d)

Students will use what they learned about the individual child, knowledge about the developmental period of early childhood, and their understanding of development and learning in cultural contexts to make evidence-based decisions that support the chosen child. They will demonstrate this by developing a written individualized instructional lesson plan for the child within the context of the general education environment and curriculum. Students will use Virginia's Early Learning and Development Standards (ELDS) or Virginia Standards of Learning (SOL) to identify developmentally appropriate learner outcomes. Students will write an instructional lesson plan, using the lesson plan template provided on Bb, that integrates learner outcomes across content areas and is designed to positively influence the child's development and learning.

For specific parts of the template, students will include a rationale. In their rationales, they will use citations from current research from the course readings and textbook, class discussions and handouts, and/or other relevant sources to support their conclusions and assertions per APA style guidelines.

• Other Requirements

Attendance and Participation (25 points)

Active participation and engagement are imperative for optimal learning. Therefore, students will prepare for and participate in in-class and online activities. Students will be expected to do the following:

- Attend class, arrive on time, and stay for the entire class period for all in-person and online synchronous class sessions.
- Complete all online asynchronous work by the due dates.
- Use laptops and personal devices for instructional purposes only during in-person and online synchronous class sessions.
- Complete readings and prepare for class activities prior to class as evidenced by the ability to discuss, write about, and engage in activities related to the concepts presented and examined in the texts.
- Complete participation activities across the semester that complement the scheduled course topic. *Note: Instructors will periodically collect artifacts from the activities.*
- Support the participation and learning of classmates. Students in attendance and who actively engage in the learning experience will receive credit for their efforts. Graded participation activities are not announced and are implemented at the discretion of the instructor.
- Show evidence of critical reflective thinking through in-person, online synchronous, and online asynchronous discussions, activities, and written reflections.

- Display professional dispositions at all times when interacting with the instructor, classmates, and other professionals.
- Submit an attendance and participation self-evaluation.

Written Assignments

All formal written assignments will be evaluated for content <u>and</u> presentation. The American Psychological Association, Seventh Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Students may consult the Writing Center for additional writing support.

Students will do the following:

- 1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
- 2. Develop points coherently, definitively, and thoroughly.
- 3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
- 4. Use correct capitalization, punctuation, spelling, and grammar.
- 5. Type the paper with double spacing, indented paragraphs, 1-inch margins all around, and 12-point Times New Roman font.

• Grading

$$A+=98-100$$
 $A=93-97$ $A-=90-92$ $B+=87-89$ $B=83-86$ $B-=80-82$ $C+=77-79$ $C=73-76$ $C-=70-72$ $D=60-69$ $F=<60$

Incomplete (IN): This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control.

All CEHD students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at http://catalog.gmu.edu. Those students seeking Virginia initial teaching licensure must earn a C or better in all undergraduate licensure coursework.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See https://cehd.gmu.edu/students/policies-procedures/.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see https://catalog.gmu.edu/policies/honor-code-system/).
- Students must follow the university policy for Responsible Use of Computing (see https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ds.gmu.edu/).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to VIA should be directed to wiahelp@gmu.edu or https://cehd.gmu.edu/aero/assessments. Questions or concerns regarding use of Blackboard should be directed to https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/.
- For information on student support resources on campus, see https://ctfe.gmu.edu/teaching/student-support-resources-on-campus.

Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking: As a faculty member, I am designated as a "Non-Confidential Employee" and must report all disclosures of sexual assault, sexual harassment, interpersonal violence, and stalking to Mason's Title IX Coordinator per <u>University Policy 1202</u>. If you wish to speak with someone confidentially, please contact one of Mason's confidential resources, such as <u>Student Support and Advocacy Center</u> (SSAC) at 703-380-1434 or <u>Counseling and Psychological Services</u> (CAPS) at 703-993-2380. You may also seek assistance or support measures from Mason's Title IX Coordinator by calling 703-993-8730 or emailing <u>titleix@gmu.edu</u>.

For additional information on the College of Education and Human Development, please visit our website: http://cehd.gmu.edu.

Evaluation Guide

General Scoring Guidelines

- **3 =** *Highly Proficient:* Rich, sophisticated, exemplary in all aspects of quality (including both mechanics of writing and clarity/insightfulness of thinking), thoroughly accurate and developed, exceeds expectations for a Candidate at this stage of development, integrates thorough understanding of relevant professional literature/research.
- **2 = Proficient:** Well developed, good quality (may include few errors in mechanics and shows clarity of thinking), fully meets expectations for a Candidate at this stage of development, shows understanding of relevant professional literature/research. **This is the TARGET score.**
- 1 = *Not Proficient:* Superficially developed, minimally acceptable quality (Written work/plans may include a few errors in mechanics and inconsistent clarity in thinking), lags behind expectations for most Candidates at this stage of development. May show beginning/weak understanding of the relevant professional literature/research.

	Instructional Plan					
Part 1: Learning Theo	ries and Instructional S	Strategies				
Highly Proficient Proficient Not Proficient						
DEC 1.1 Candidates demonstrate an understanding of the impact of different theories and philosophies of early learning and development on assessment, curriculum, intervention, and instruction decisions.	The candidate articulated clearly the connections among assessment, curriculum, intervention, and instruction when providing an explanation of the influence of the theory on assessment, curriculum, and intervention, classroom management and child guidance, and instruction decisions.	The candidate demonstrated an understanding of the impact of a theory of early learning and development on assessment, curriculum, and intervention, and instruction decisions. The description of the theory and the explanation of the influence of the theory on assessment, curriculum, and intervention, classroom management and child guidance, and instruction decisions showed a clear understanding.	The candidate did not demonstrate an understanding of the impact of a theory of early learning and development on assessment, curriculum, and intervention, and instruction decisions. The description of the theory and the explanation of the influence of the theory on assessment, curriculum, and intervention, and instruction decisions did not show a clear understanding.

Instructional Lesson Plan Part 3 Writing a lesson plan

This assignment asks students to use the knowledge they have acquired about how young children learn, the learning trajectories of young children, the needs of each child, and the importance of differentiating instruction. Students will use a broad repertoire of developmentally appropriate, culturally and linguistically relevant, anti-bias, and evidence-based teaching skills and strategies to reflect the universal design for learning principles to support and engage young children.

Lesson Plan Template for ECED 403/503				
Name:				
Date:				
School/Context:				
Age/Grade Level:				
Lesson Title:				
	Pre-Planning Information			
	ly describe the focus child for the	is assignment and then		
complete the boxes in the row	below.			
Interests/Strengths:	Needs (e.g., ELL, IEP, 504,	Accommodations/Supports:		
	intervention support, etc.):			
	riefly describe the instructional of			
	s, previous instruction). Then cor	nplete the boxes in the row		
below.				
	Гт	D C : 1/G : 1: /		
Classroom Context:	Learners:	Professionals/Specialists:		
	Whole class:			
	Small group:			
	One-on-one:			
=	es: Consider what you want stud			
	fy three academic and/or develo			
	nowledge about the development	- ·		
	pment and learning in cultural co	ontexts to identify the		
objectives.				
$\begin{bmatrix} 1 \\ 2 \end{bmatrix}$				
2.3.				
	magaanah ta gunnant yayın ak = : = -	of chicatives and standards		
Kanonaie: Use evidence-based	research to support your choice	of objectives and standards.		

Local/State/National Standards: Use an interdisciplinary approach to integrate content areas.					
In the boxes below, list	the rele	vant standards.			
Language Arts/	Mather	matics/ Science	Social Studies/Social Other		Other (art,
Literacy			Emotional		movement, social
					justice standards)
Materials: In the boxes children's learning of the				rials tha	t will support young
Art and Paper Supplies	(e.g.,	Instructional M	laterials (e.g.,	Techno	ologies (e.g., tablets,
paint, crayons, markers	, glue)	children's litera	ature, maps,	compu	ters, software)
		manipulatives)	_		
Assessment: Think about	out the a	ssessment strate	gies (formal and	informa	l, formative and
summative) you will us	se to me	asure what stude	nts know and wh	nether th	ey are meeting/have
met the chosen objectiv	es. In the	ne boxes in the ro	ow below, provid	de a desc	cription of the
assessment processes.					
Pre-Assessment		On-Going Asse	essment	Post A	ssessment
Rationale: Use evidence-based research to discuss how assessments are conducted to make					
informed choices about instruction.					
]	Planned Instruc	tional Strategie	S	
In the rows below, provide step-by-step descriptions of the developmentally and individually					
appropriate strategies a	nd tools	to be used to fac	cilitate learning.	The read	der should be able to
teach the lesson from the	nis plan.				
Anticipatory Set/UDL	Engager	nent: How will y	ou activate prior	r knowle	edge and engage
students in the process?	?				
1.					
2.					
3.					
Direct Instruction/UDL Representation: How will you engage students in ways that will reach					
all learners?					
1.					
2.					
3.					
	4.				
5. Guided Practice/UDL Action and Expression: How will you offer purposeful guided options					
			iow will you off	er purpo	setul guided options
for students to show what they learned?					
1.					

2.
3.
Independent Practice/UDL Engagement: How will you offer purposeful independent options for students to show what they learned? 1. 2. 3.
Closure/UDL Action and Expression: How will you assess whether students have met the objectives in engaging ways that allow for multiple means of action and expression? 1. 2. 3.
