None

# **Co-requisite(s):**

None

# **Course Description**

Examines the academic, social, medical, and behavioral characteristics of individuals with severe disabilities such as intellectual disability, autism, traumatic brain injury, and severe/multiple cognitive, physical and/or sensory disabilities. Focuses on etiology, contributing factors, impact on life and family, the challenges of identifying students with disabilities, and the need for intensive instruction, accommodations, and support.

#### **Course Overview**

EDSE 547 focuses on the academic, social, medical and behavioral characteristics of individuals with severe disabilities and the impact these characteristics have on school, family, and life outcomes. The course examines the etiology, contributing factors, identification process, and required intensive instruction of these disabilities.

## **Advising Contact Information**

Please make sure that you are being advised on a regular basis as to your status and progress in your program. Students in Special Education and Assistive Technology programs can contact the Special Education Advising Office at 703-993-3670 or speced@gmu.edu for assistance. All other students should refer to their assigned program advisor or the Mason Care Network (703-993-2470).

# **Advising Tip**

Have you met with an advisor? All students should make an appointment to meet with an advisor to outline a plan for completing coursework and non-course requirements such as testing. To make an appointment by phone or in person, go to http://education.gmu.edu/specialeducation/advising/.

# **Course Delivery Method – Asynchronous Online Course**

Learning activities include the following:

- 1. Class lecture and discussion
- 2. Application activities
- 3. Small group activities and assignments
- 4. Video and other media supports
- 5. Research and presentation activities
- 6. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using asynchronous format via the Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on January 23, 2023.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

# Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

 High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see: <u>Browser support</u> (<a href="https://help.blackboard.com/Learn/Student/Getting\_Started/Browser\_Support#supported-browsers">https://help.blackboard.com/Learn/Student/Getting\_Started/Browser\_Support#supported-browsers</a>)

To get a list of supported operation systems on different devices see: <u>Tested devices</u> and <u>operating systems</u>

(https://help.blackboard.com/Learn/Student/Getting\_Started/Browser\_Support#tested\_devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.

# **Expectations**

• Course Week:

Because asynchronous courses do not have a "fixed" meeting day, our week will start on Monday and finish on Sunday.

• Log-in Frequency:

Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.

• Participation:

Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

• Technical Competence:

Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

• Technical Issues:

Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

• Workload:

Please be aware that this course is not self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the Class Schedule section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

• Instructor Support:

Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

• Netiquette:

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and* 

diplomatic in selecting your words. Remember that you are not competing with classmates but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

• Accommodations:

Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Service.

#### **Learner Outcomes**

Upon completion of this course, teacher candidates/students will be able to:

- 1. State the federal definitions of students with severe disabilities including students with autism, developmental delay, intellectual disability, traumatic brain injury, and multiple disabilities, including sensory, deaf-blindness, speech-language, orthopedic and other health impairments as an additional disability.
- 2. Describe the history and evolution of severe disability.
- 3. Describe the characteristics of individuals with severe disabilities whose cognitive impairments or adaptive skills require adaptations to the general curriculum and whose functional skills are significantly different from typically developing peers and therefore require adaptations to the general curriculum for an appropriate education. Discuss and evaluate how the following characteristics impact education, behavior, and social interactions:
  - a) Age-span and developmental issues;
  - b) Levels of severity;
  - c) Medical, health, sensory, and positioning and handling needs;
  - d) Cognitive functioning;
  - e) Speech, language development, and communication;
  - f) Emotional and behavioral development and supports;
  - g) Social development; an
  - h) Cultural, ethnic, and socio-economic factors.
- 4. Describe the impact of disability on self-determination and self-advocacy skills.
- 5. Describe historical and legal perspectives, models, theories, philosophies, and trends related to specific student populations.
- 6. Discuss and examine how educational environments impact students with severe disabilities.
- 7. Discuss and examine how to build strong parental connections and relationships for families with severe disabilities.

#### **Professional Standards**

(Council for Exceptional Children [CEC] and the Interstate Teacher Assessment and Support Consortium [InTASC]). Upon completion of this course, students will have met the following professional standards: CEC Standard 1: Learner Development and Individual Learning Differences (nTASC 1,2); CEC Standard 3: Curricular Content Knowledge (InTASC 4,5) & CEC Standard 6: Professional Learning and Ethical Practice (InTASC 9).

# **Required Texts**

Agran, M., Brown, F., Hughes, C., Quirk, C. & Ryndak, D. (2014). *Equity & full participation for individuals with severe disabilities: A vision for the future.* Paul H. Brookes.

Batshaw, M. L., Roizen, N. J., & Lotrecchiano, G. R. (2019). *Children with disabilities* (8th ed.). Paul H. Brookes.

(Electronic access to both books is available at no cost through the GMU library)

#### **Recommended Texts**

American Psychological Association. (2020). *Publication manual of the American Psychological Association* (7th ed.). https://doi.org/10.1037/0000165-000

# **Additional Readings**

Additional readings will be posted to Blackboard.

#### **Course Performance Evaluation**

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

# **VIA Performance-Based Assessment Submission Requirement**

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA/SLL (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA/SLL.

For EDSE 547, the required PBA is Disability Case Study. Please check to verify your ability to upload to VIA/SLLs before the PBA due date.

# Assignments and/or Examinations

#### **Performance-based Assessment**

#### (VIA submission required)

The performance-based assessment for this course is the *Disability Case Study*. Please see the *Course Assignments* section for assignment description.

Students must also submit the Child Abuse and Neglect Module to Blackboard. Please see the Course Assignments section for assignment description.

College Wide Common Assessment (VIA submission required)
None

# **Course Assignments**

**Disability Case Study:** Students will work individually to develop a paper related to a specific disability. In this paper, students will provide an overview of the specified disability as well as discussion as to how the specified disability impacts families and what cultural differences must be addressed; a description of the complex needs of individuals with this disorder/disability, a presentation of a range of special education and community-based supports and services that are needed to maximize their achievement and capacity; and a discussion of the impact of the disability on normal growth and development and the ability to learn, interact socially and live as fulfilled contributing members of the community.

Child Abuse Recognition and Training Module: All students must complete the online child abuse recognition training module as outlined in the Orientation Module.

**Course Learning Modules:** All modules will be made available as outlined in the *Class Schedule*. Within any learning module, students will be presented with a series of activities and assignments. Students will complete the assignments within each module as outlined in the *Class Schedule*. Additional assignment directions and rubrics are posted on Blackboard.

# **Assignment Summary**

| Assignment  | Points     |
|---|------------|
| Disability Case Study   | 30 points  |
| Child Abuse Recognition and Training Module   | 10 points  |
| Course Learning Modules (Points for individual assignments is listed in Class Schedule) All graduate level students are required to complete the Graduate Essays regardless of program. | 107 points |
| Total Points:   | 147 points |

### **Student Evaluations of Teaching:**

The student evaluation of teaching, or SET, is an online course survey. You are strongly encouraged to complete this form for each course as this feedback helps instructors and administrators improve your class experiences. Towards the end of the course, you will receive

email and Blackboard notifications when the evaluations open. Your anonymous and confidential feedback is only shared with instructors after final grades have been submitted. More information about the SET can be found on The Institute of Effectiveness and Planning website at <a href="https://oiep.gmu.edu/set/">https://oiep.gmu.edu/set/</a>

# **Course Policies and Expectations**

# **Attendance/Participation**

Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and group interactions. Grading for work completed in *Course Learning Modules* is specifically outlined in *Course Learning Modules* within the Other Assignments section of the syllabus. Please note that while only certain learning elements are assessed through "grades", the instructor can still assess student involvement and engagement using other measures. Blackboard enables the instructor to view such data as login dates, duration of time spent online, access to specific content elements, and more. The instructor will use this data along with course grades to ensure that students are actively engaged in the course. Students struggling to complete work on time or who appear to not be engaging fully with course content will be asked to conference with the instructor.

#### Late Work

Five percent of the available points for the assignment may be deducted each day for late submissions during the first week after the due date. After one week from the due date, assignments may not be accepted. Thus, an assignment that is three days late is able to obtain only 85% of the points for the assignment regardless of the quality of the work. After one week, the assignment may no longer be accepted, and a score of zero may be entered into the grade book for the assignment.

Please note: There may be a hard cut-off due date posted for each assignment after which the assignment will not be accepted for grading. A zero may then be assigned for the grade.

The point deduction will be made after grading is complete. The date that the assignment was received by the instructor via Blackboard will be considered the date submitted. Submitting an assignment late does not alter the due dates of other assignments and prevents timely feedback to students regarding their work that may be of value in later assignments. Strive to keep up with the assignment schedule so that you will be able to have appropriate formative evaluation and feedback from your instructor throughout the semester.

# Grading

| 93-100% = A | 87-89% = B+ | 70-79% = C |
|-------------|-------------|------------|
| 90-92% = A- | 80-86% = B  | < 70% = F  |

\*Note: The George Mason University Honor Code will be strictly enforced. See <a href="Academic Integrity Site">Academic Integrity Site</a> (<a href="https://oai.gmu.edu/policies/honor-code-system/">https://oai.gmu.edu/policies/honor-code-system/</a>). Students are responsible for reading and understanding the Code. "To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work." Work submitted must be your own new, original work for this course or with proper citations.

# **Professional Dispositions**

Students are expected to exhibit professional behaviors and dispositions at all times. See Policies and Procedures (https://cehd.gmu.edu/students/polices-procedures/). Students are expected to exhibit professional behaviors and dispositions at all times. Professional dispositions are an essential function of a special educator's job, indicating that these dispositions are critical to develop and assess in special education licensure programs. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least three points in each student's program – a self-evaluation at the start of their program, a self-evaluation at the mid-point of their program, and a university supervisor's evaluation during internship. In special education graduate licensure programs, the initial self-evaluation is completed in a designated course (EDSE 501), the mid-point self-evaluation is completed in designated courses (EDSE 627, EDSE 661, and EDSE 616), and the internship evaluation is completed by instructors in EDSE 783, EDSE 784, and EDSE 785. In addition to these three designated evaluation times, instructors may complete instructor-rated disposition assessments other times throughout the program. When dispositions are assessed, it is important that for areas where a positive disposition is rated as "not proficient," the student takes steps to grow as an educator. See https://cehd.gmu.edu/epo/candidate-dispositions.

# **Class Schedule**

\*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students. All assignments are due by 11:59 PM EST on the date noted.

| Module Topic   | Module  Availability | Readings                                    | Graded<br>Assignments                             | Assignment Due<br>Date | Points |

EFP = Equity and Full Participation for Individuals with Severe Disabilities CWD = Children with Disabilities (excerpts on Bb site)

#### **Core Values Commitment**

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: See Core Values (http://cehd.gmu.edu/values/).

# **GMU Policies and Resources for Students**

#### **Policies**

- Students must adhere to the guidelines of the Mason Honor Code. See <u>Honor Code and System</u> (https://catalog.gmu.edu/policies/honor-code-system/).
- Students must follow the university policy for Responsible Use of Computing. See Responsible Use of Computing (<a href="http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/">http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/</a>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See Disability Services (https://ds.gmu.edu/).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

# **Campus Resources**

- Support for submission of assignments to VIA should be directed to <u>viahelp@gmu.edu</u> or <u>https://cehd.gmu.edu/aero/assessments</u>.
- Questions or concerns regarding use of Blackboard should be directed to <u>Blackboard Instructional Technology Support for Students</u> (<a href="https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/">https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/</a>).
- <u>Learning Services (learningservices@gmu.edu)</u> Provides a variety of experience-based learning opportunities through which students explore a wide range of academic concerns. Services include support to students with learning differences, individual study strategy coaching, individualized programs of study, and referrals to tutoring resources. Presentations on a variety of academic topics such as time management, reading, and

note taking are available to the university community. The programs are open to all George Mason University students free of charge.

# Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking:

As a faculty member, I am designated as a "Non-Confidential Employee," and must report all disclosures of sexual assault, sexual harassment, interpersonal violence, and stalking to Mason's Title IX Coordinator per <u>University Policy 1202</u>. If you wish to speak with someone confidentially, please contact one of Mason's confidential resources, such as the <u>Student Support and Advocacy Center (SSAC)</u> at 703-380-1434 or <u>Counseling and Psychological Services (CAPS)</u> at 703-993-2380. You may also seek assistance or support measures from Mason's Title IX Coordinator by calling 703-993-8730, or emailing <u>titleix@gmu.edu</u>.

For additional information on the College of Education and Human Development, please visit our website College of Education and Human Development (http://cehd.gmu.edu/).

# **Appendix**

Assessment Rubric(s): Disability Case Study Assessment Rubric

|  | Does Not Meet<br>Expectations   | Meets Expectations 2   | Exceeds Expectations 3   |
|--|---|--|--|
| Disability Overview & Etiology CEC/IIC Standards 1             | Candidate's description of definitions and characteristics of learners with moderate to severe exceptionalities including typical and atypical development in cognitive, physical and sensory functioning is limited.   | Candidate provides definitions and characteristics of learners with moderate to severe exceptionalities including typical and atypical development in cognitive, physical and sensory functioning.                           | Candidate provides definitions and characteristics of learners with moderate to severe exceptionalities including typical and atypical development in cognitive, physical and sensory functioning. In addition, candidate discusses the effect of the exceptionality across the student's lifespan.                            |
| Disability<br>Overview &<br>Etiology<br>CEC/IIC<br>Standards 1 | Candidate partially identifies etiologies and medical complication and the discussion related to the implications of conditions related to learners with moderate to severe exceptionalities and discusses the impact those conditions can have on a learner's life is limited. | Candidate identifies etiologies and medical complication and implications of conditions related to learners with moderate to severe exceptionalities and discusses the impact those conditions can have on a learner's life. | Candidate identifies etiologies and medical complication and implications of conditions related to learners with moderate to severe exceptionalities and discusses the impact those conditions can have on a learner's life including psychological and social-emotional characteristics of individuals with exceptionalities. |
