University Catalog Course Description

Enables teacher candidates to participate full time in an internship in early childhood special education (birth-5). Provides opportunities to synthesize learning across coursework and field experiences and apply content and pedagogical knowledge in a classroom setting with culturally, linguistically, ability, and socioeconomically diverse young children and their families.

Course Overview

This course provides teacher candidates with the opportunity to synthesize their learning across coursework and field experiences and apply this content and pedagogical knowledge in an early childhood special education setting with culturally, linguistically, ability, and socioeconomically diverse young children and their families. In doing so, candidates develop comprehensive understandings of the complexities of teaching young children, working with families, and collaborating with other professionals. As candidates integrate the knowledge, strategies, and skills developed across their coursework, they demonstrate they have met the Virginia Professional Studies Competencies, the Virginia Early Childhood Special Education Competencies, the Interstate Teacher Assessment and Support Consortium (INTASC) Standards, the Division of Early Childhood (DEC) Professional Preparation Standards. In addition, the internship provides opportunities for candidates to be reflective practitioners. As candidates work with diverse young children, families, and other professionals, they apply content and pedagogical knowledge, assess the effectiveness of their teaching strategies and approaches, and reflect critically on ways to enhance their practice.

Candidates will engage in 6 credits of internship that include a total of 15 weeks of successful full-time student teaching under the supervision of a university supervisor (US) and mentor teacher (MT) with demonstrated effectiveness in early childhood special education. This

summative supervised student teaching experience for candidates seeking Early Childhood Special Education (ECSE) licensure will take place in ECSE settings with an MT who is endorsed in ECSE. This summative supervised student teaching experience will include at least 150 clock hours spent in direct teaching at the level of endorsement in a public or accredited nonpublic school.

Course Delivery Method

This course will be delivered using a student teaching format and Blackboard (Bb).

Course Performance Evaluation

Candidates are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

- **Assignments and/or Examinations**

Daily/Weekly Plans

- **Daily Lesson Plans:** Candidates will develop daily lesson plans using the lesson plan template. Candidates will use guidance and feedback from the MT to develop and revise the plans. They will submit these plans to the MT prior to teaching the lessons. Candidates will gradually take on more responsibility for lesson planning throughout the internship and will take full responsibility during the designated weeks of full-time teaching responsibilities. Candidates will maintain electronic documentation of the lesson plans and will make the plans available to the US upon request.
- **Weekly Planning Overview:** Candidates will develop a weekly planning overview using the weekly planning overview template. They will submit the weekly planning overview to the MT and upload it to Blackboard (Bb) prior to the beginning of the week. The first week of internship, candidates will upload their classroom weekly schedule. Subsequent weeks will include the schedule, topics, and activities specific to the week.

Weekly Progress Reports and Reflections

Candidates will complete weekly progress reports and reflections to reflect on their progress and consider their next steps. This is a three-part assignment. After completing the first part of the form, they will submit it to their MT who will complete the second part of the form. Candidates will reflect on the MT's comments, complete the third part of the form, and submit it to their US through Bb.

Video-Recording

Candidates will video-record at least one lesson each week over the course of the internship in order to reflect on and discuss effective instructional strategies.

VDOE Modules (five modules and cumulative quiz): Understanding the Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools in Virginia

Candidates will complete the five modules and cumulative quiz required by VDOE (see link below) and submit the completion certificate to Blackboard.

<https://cieesodu.org/initiatives/restraint-and-seclusion/>

Log of Hours and Summary of Internship Placement

Candidates will complete the Log of Hours and the Summary of Internship Placement. They will submit them to their MT at the conclusion of the internship for a signature and then to the US for a signature. They will upload the signed Log of Hours and Summary of Internship Placement to Bb.

Lesson Planning Assessment (This is a performance-based assessment that provides evidence of candidates meeting the INTASC, NAEYC, and Virginia Department of Education standards and competencies.)

The Lesson Planning Assessment is attached below. Candidates will complete the required assessment and submit it to Bb and VIA.

Formal Observation of Performance Reports

The MT will complete at least two formal observations of the intern's performance. The MT will use the formal observation of performance template. Each Observation of Performance Report will be shared with the US upon completion. The intern will upload the formal MT Observation of Performance Reports to Bb.

The US will complete at least two formal observations of the intern's performance. The US will use the formal observation of performance template. The intern will upload the formal US Observation of Performance Reports to Bb.

Internship and Dispositions Midpoint and Final Evaluations

Candidates will engage in direct teaching that includes responsibility for planning, instruction, assessment, and student supervision. Candidates will engage in direct teaching that involves using their knowledge of curriculum, children's development, and formative and summative assessment to develop, implement, and evaluate effective curriculum and instruction that respects the diversity of young children and their families. They will differentiate instruction, provide feedback, monitor children's progress, and guide children's behavior to promote quality learning for children with varied abilities and cultural, linguistic, and socioeconomic backgrounds. Candidates will display professional dispositions in their work with children, families, and other professionals.

The internship evaluation assesses candidates' performance at two points during the internship, midpoint and final. The evaluation is intended to engage the triad in a reflective conversation about early childhood educators' competencies and responsibilities. The evaluation is designed to illuminate candidates' strengths and areas of professional growth.

For each evaluation, the candidate, MT, and US will complete the Internship Evaluation and the Assessment of Dispositions independently prior to engaging in a reflective conversation. During the meeting, the US will facilitate a discussion of the candidate's progress, including strengths and areas of professional growth, and will complete the Internship Evaluation and the Assessment of Dispositions with input from the MT and the candidate. The candidate will upload the completed evaluation form to Bb at the conclusion of the internship. The candidate will also upload the Final Internship Evaluation to VIA.

- Degrees of Satisfactory performance by a candidate in Early Childhood Education will be documented on the Teacher Candidate Assessment by the MT and US.
- The US shall determine the grade after consultation with MT. The US may also consult with the Early Childhood Education Internship Coordinator, especially when the candidate may receive a No Credit or an In Progress grade.
- Candidates who receive a No Credit grade will not be recommended for teacher licensure unless they repeat all or part of the internship with satisfactory performance. This may require re-enrolling and paying tuition for additional credit hours in a subsequent semester or paying a fee for extended supervision.
- Candidates whose performance cannot be evaluated at the end of the grading period will receive a grade of IP (In Progress). An IP grade shall be changed to Satisfactory or No Credit for candidates upon completion of requirements – usually before the beginning of the next semester.
- In some cases, a grade of No Credit may be accompanied by a recommendation that the candidate not be allowed to repeat the internship. In such cases, the candidate will be counseled out of the licensure program, but not necessarily out of the program.
