**Co-requisite(s):**

None

**Course Description**

Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the lifespan. Includes historical factors, legal aspects, etiology, characteristics, assessment, evidence-based practices, and support services for individuals having needs for intervention ranging from mild to severe. Includes the impact of disabilities on academic, social, and emotional performances framed within the teaching profession as a whole.

**Course Overview**

EDSE 501 is a foundational course exploring essential concepts regarding individuals with disabilities within the context of human growth and development across the life span. The course includes information about historical factors, legal aspects, etiology, characteristics, assessment, evidence-based practices, and support services for individuals with disabilities having needs for intervention ranging from mild to severe. Students will examine the impact of disabilities on academic, social, and emotional performances framed within the teaching profession as a whole.

### **Advising Contact Information**

Please make sure that you are being advised on a regular basis as to your status and progress in your program. Students in Special Education and Assistive Technology programs can contact the Special Education Advising Office at 703-993-3670 or [speced@gmu.edu](mailto:speced@gmu.edu) for assistance. All other students should refer to their assigned program advisor or the Mason Care Network (703-993-2470).

### **Advising Tip**

Take advantage of student resources like the Writing Center (<https://writingcenter.gmu.edu/>), Learning Services (<https://learningservices.gmu.edu/>), Assistive Technology Initiative (<https://ati.gmu.edu/>), Disability Services (<https://ds.gmu.edu/>).

### **Course Delivery Method**

Learning activities include the following:

1. Class lecture and discussion
2. Application activities
3. Video and other media supports
4. Research and presentation activities
5. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using an asynchronous format via the Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before [@masonlive.gmu.edu](mailto:@masonlive.gmu.edu)) and email password. The course site will be available on January 16 at 12:00am.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

### ***Technical Requirements***

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see: [Browser support \(https://help.blackboard.com/Learn/Student/Ultra/Getting\\_Started/Browser\\_Support\)](https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support)
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.

- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
  - [Adobe Acrobat Reader](https://get.adobe.com/reader/): <https://get.adobe.com/reader/>
  - [Windows Media Player](https://support.microsoft.com/en-us/help/14209/get-windows-media-player): <https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
  - [Apple Quick Time Player](http://www.apple.com/quicktime/download/): [www.apple.com/quicktime/download/](http://www.apple.com/quicktime/download/)

### ***Expectations***

- **Course Week:**
- **Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday at 12:00 am and finish on Sunday at 11:59 pm.**
- **Log-in Frequency:**  
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 2 times per week. In addition, students must log-in for all scheduled online synchronous meetings.  
**Participation:**  
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:**  
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:**  
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:**  
Please be aware that this course is not self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support:**  
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- **Netiquette:**

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations:  
Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Service.

### **Learner Outcomes**

Upon completion of this course, teacher candidates/students will be able to:

1. Analyze how educators and other professionals address the variance between “typical” and “atypical” behaviors across the lifespan.
2. Distinguish characteristics of children and youth with disabilities across all IDEA categories relative to age, varying levels of severity, and developmental differences manifested in cognitive, linguistic, physical, psychomotor, social, or emotional functioning.
3. Interpret information on individual differences and formulate ways to create meaningful learning experiences and interaction opportunities for all students.
4. Discuss current regulations governing special education policies and practices including rights, responsibilities, and legal status of all parties within the context of schools and communities.
5. Analyze historical perspectives, models, theories, philosophies, and trends that provide the basis for special education practice within the context of organized public education in the United States.
6. Examine legal aspects of special education regarding litigation, legislation, and expectations associated with the identification, education, and evaluation of students with disabilities.
7. Explain the etiological factors and medical aspects associated with various disabilities.
8. Summarize and evaluate past, present, and future models of assessment and intervention, including use of innovative technology.
9. Illustrate how principles of learning influence the selection of relevant, appropriate, and culturally responsive materials for all learners (e.g., gifted, English learners, students with disabilities).
10. Identify individual needs such as dyslexia and related evidence-based practices for intervention.
11. Evaluate the dynamic influence of family systems relative to the education of students with disabilities.
12. Evaluate the dynamic influence of culture and environmental settings relative to the education of students with disabilities.
13. Consider ethical considerations for the treatment of all children within the context of professional standards of practice.

14. Recognize child abuse and implement research-based interventions to address abusive and traumatic situations.

### **Professional Standards**

(Council for Exceptional Children [CEC] and the Interstate Teacher Assessment and Support Consortium [InTASC]). Upon completion of this course, students will have met the following professional standards: CEC Standard 1: Learner development and individual learning differences (InTASC 1,2) & CEC Standard 3: Curricular content knowledge (InTASC 4,5).

### **Required Texts**

Hallahan, D. P., Kauffman, J. M., & Pullen, P. C., (2022). *Exceptional Learners: An introduction to special education* (15th ed.). Pearson.

### **Recommended Texts**

American Psychological Association. (2020). *Publication manual of the American Psychological Association* (7th ed.). <https://doi.org/10.1037/0000165-000>

### **Required Resources**

On Blackboard

### **Additional Readings**

On Blackboard

### **Course Performance Evaluation**

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

### **VIA Performance-Based Assessment Submission Requirement**

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA/SLL (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA/SLL.

For EDSE 501: No requirement to upload a Performance-based Assessment (PBA) to VIA/SLL.

### **Assignments and/or Examinations**

**Performance-based Assessment  
(VIA submission required)**

N/A

### **College Wide Common Assessment (VIA submission required)**

This course contains at least one Common Assessment developed by the College of Education and Human Development to assess our candidates' performance on nationally accepted standards for beginning teachers (InTASC) and our programs' performance on national accreditation standards (CAEP). The college-wide common assessment in this course is: Initial Self-Rated Dispositions

The professional disposition survey will be completed at the beginning and end of the semester and submitted to VIA. Please see Blackboard for instructions on how to submit this assignment.

### **Student Evaluations of Teaching:**

The student evaluation of teaching, or SET, is an online course survey. You are strongly encouraged to complete this form for each course as this feedback helps instructors and administrators improve your class experiences. Towards the end of the course, you will receive email and Blackboard notifications when the evaluations open. Your anonymous and confidential feedback is only shared with instructors after final grades have been submitted. More information about the SET can be found on The Institute of Effectiveness and Planning website at <https://oiep.gmu.edu/set/>

### **Course Policies and Expectations**

#### **Attendance/Participation**

All coursework will be online in an asynchronous format.

## Late Work

Work is considered on time if it is submitted by 11:59 p.m. EST on the date that it is due. Work can be turned in early, but all late work will receive a 10%-point deduction off the resulting grade for each calendar day. For example, on a 25-point Reading Check, there would be a 2.5-point deduction (10%) per day, so if a student submitted the Reading Check one day late and earned 20 out of 25 points, their final grade would be 17.5 points. **After one week from the due date or after the last day of class (whichever comes first), assignments will no longer be accepted and a score of zero will be entered into the grade book for that assignment.**

## Other Requirements

### *Incomplete Grades*

An I (Incomplete) grade is used when the instructor is not prepared to give a final grade for the course because of some justifiable delay in the student's completion of specific course work. A final grade is submitted to the Records and Registration Office by the instructor after grading only the student's completed work done within the agreed time frame. In the event that the work is not completed within the agreed time frame and no grade is reported within four weeks after the start of the following semester, a grade of F replaces the I on the student's transcript. **Any student requesting an incomplete must (1) be passing the course at the time of the request, and (2) create a contract outlining a plan to complete missing coursework with completion dates, and the contract must be signed by the student and division director before turning the contract into the professor prior to the last class**

## Grading

To compute your final course grade, divide total "earned points" by total "possible points" for percentage.

A = 95-100%	A - = 90-94%	B+ = 86-89%	B = 80-85%	B- = 77-79%	C = 73-76%	F = < 73%
-------------	--------------	-------------	------------	-------------	------------	-----------

**\*Note:** The George Mason University Honor Code will be strictly enforced. See [Academic Integrity Site](https://oai.gmu.edu/) (<https://oai.gmu.edu/>) and [Honor Code and System](https://catalog.gmu.edu/policies/honor-code-system/) (<https://catalog.gmu.edu/policies/honor-code-system/>). Students are responsible for reading and understanding the Code. "To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work." Work submitted must be your own new, original work for this course or with proper citations.

## Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See [Policies and Procedures](https://cehd.gmu.edu/students/policies-procedures/) (<https://cehd.gmu.edu/students/policies-procedures/>). Professional dispositions are an essential function of a special educator's job, indicating that these dispositions are critical to develop and assess in special education licensure programs. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least three points in each student's program – a self-evaluation at the start of their program, a self-evaluation at the

mid-point of their program, and a university supervisor's evaluation during internship. In special education graduate licensure programs, the initial self-evaluation is completed in a designated course (EDSE 501), the mid-point self-evaluation is completed in designated courses (EDSE 627, EDSE 661, and EDSE 616), and the internship evaluation is completed by instructors in EDSE 783, EDSE 784, and EDSE 785. In addition to these three designated evaluation times, instructors may complete instructor-rated disposition assessments other times throughout the program. When dispositions are assessed, it is important that for areas where a positive disposition is rated as "not proficient," the student takes steps to grow as an educator.

### **Class Schedule**

\*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

## Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: See [Core Values](http://cehd.gmu.edu/values/) (<http://cehd.gmu.edu/values/>).

## GMU Policies and Resources for Students

### Policies

- Students must adhere to the guidelines of the Mason Honor Code. See [Honor Code and System](https://catalog.gmu.edu/policies/honor-code-system/) (<https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing. See [Responsible Use of Computing](http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/) (<http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See [Disability Services](https://ds.gmu.edu/) (<https://ds.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

### Campus Resources

- Support for submission of assignments to VIA should be directed to [viahelp@gmu.edu](mailto:viahelp@gmu.edu) or <https://cehd.gmu.edu/aero/assessments>.
- Questions or concerns regarding use of Blackboard should be directed to [Blackboard Instructional Technology Support for Students](https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/) (<https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>).
- [Learning Services](mailto:learningservices@gmu.edu) ([learningservices@gmu.edu](mailto:learningservices@gmu.edu)) - Provides a variety of experience-based learning opportunities through which students explore a wide range of academic concerns. Services include support to students with learning differences, individual study strategy coaching, individualized programs of study, and referrals to tutoring resources. Presentations on a variety of academic topics such as time management, reading, and note taking are available to the university community. The programs are open to all George Mason University students free of charge.

## Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking:

As a faculty member, I am designated as a “Non-Confidential Employee,” and must report all disclosures of sexual assault, sexual harassment, interpersonal violence, and stalking to Mason’s Title IX Coordinator per [University Policy 1202](#). If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as the [Student Support and Advocacy Center \(SSAC\)](#) at 703-380-1434 or [Counseling and Psychological Services \(CAPS\)](#) at 703-993-2380. You may also seek assistance or support measures from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing [titleix@gmu.edu](mailto:titleix@gmu.edu).
